We're still making collector's items.

We listen better. And because we do, we've come up with one classic after another. And we've been "first" time and time again.

With cars like the Model T. America's first mass-produced car. So good, it went virtually unchanged for 19 years.

Like the '39 Lincoln Continental. A whole new concept in luxury cars that inspired today's Continental Mark III. Like the '55 Thunderbird. America's first luxury 2-seater.

Like Mustang. The first low-price sporty car.

Like Maverick. America's first modern compact. Now in 2- and 4-door body styles.

And now, Pinto. The small car—with an import price. Once again, the American public expressed a need, we listened, and we did something about it.

And that's what better cars are made of.

Come to think of it, that's what collector's items are made of, too.
