THE GORDON M. TRIM DINING HALL
In only three years, Babson Institute has provided the 1966 graduates with an education which will guide them through the complex world of business; destined to achieve their respective positions at the top of their various chosen professions, be it in the field of accounting, finance or distribution. In this short span of time Babson has had its effects on all of us and in return each student has had his own influence on the institution.

From the completion of the new Student Center through the three big social weekends to the sterling words of our latest Honors Day speaker there have been a multitude of forces acting on student and school alike.

The 1966 BABSONIAN has tried to capture in word and picture the results of these interacting factors. We hope you will enjoy this, the 47th edition of the BABSONIAN.

DEDICATION

CLINTON A. PETERSEN
To dedicate is to enshrine, but in the case of this year’s choice, our Clinton A. Petersen, it is difficult to add to a record of esteem, praise, and glory that has already been written by our nominee.

He has unknowingly created an aura about him that is respected by all upperclassmen, and soon illuminates all the freshmen. There are few things better than a term with no 8:30’s and accounting with Petersen.

Mr. Petersen’s qualities are too long to enumerate. It is better that the fruits of these virtues are paid tribute to. He added his name to our alumni list by graduating from the Babson Graduate School. As a professor he has had a hand in the education of almost every student to pass through our gates. And as an administrator we have him as Director of the Army Program. His faultless work, as evidenced by an untarnished name among the administration, faculty and student body alike, has earned him the honored position of Chairman of the Accounting Division.

Beyond the classroom, Mr. Petersen finds time to actively support our Babson athletics, extensively participates in student groups, and skillfully counsels the executive committee of the Society for Advancement of Management for which he is a faculty advisor.
WHO'S WHO

The qualities of leadership, outstanding participation in school affairs, and high scholastic achievement are the requirements for selection into Who's Who in American Colleges and Universities. To have one's biography published in the Who's Who annual is a nationally recognized honor for the individual selected and for the institution he represents.

This year eight men were selected by a committee of the administration to be honored in Who's Who. It has been demonstrated in the past and will be proven in the future that many of our nation's leaders have and will be drawn from the ranks of those honored by a listing in Who's Who.
BLUE KEY

"Serving I Live," is the motto which the members of Blue Key National Honor Fraternity must strive to fulfill. The activities of Blue Key are diverse, some recognizable and others inconspicuous. Conducting elections, ushering, and taking full responsibility for the annual Mayorality campaign are the more obvious activities of these men, while their more inconspicuous activities include the Beta Gamma Scholarship Society and the continuous function of communicating mutual problems of the students and the administration via the organization's association with its faculty brothers: President Kriebel, Dean Staake, Registrar Stokes, and Director of Student Activities Hoagland.

By its very nature and principles, Blue Key remains an impartial, non-political group whose members agree to subordinate all previous ties and affiliations on campus to the philosophies and ideals of Blue Key. This year, as in the past, Blue Key has served the Babson community well and has prospered under the leadership of its president, Robert J. Onderdonk.

Robert J. Onderdonk, president.

Robert J. Vanni, vice president; John W. Cook, treasurer; Stephen L. Salomon.

Michael D. Blake, D. Craig Puller, Alan D. Oak.

Lyman D. Vincola, secretary.
The Gordon M. Trim Chapter of the Beta Gamma Scholarship Society was founded at Babson Institute in 1961. This national honor business fraternity encourages scholarship in institutions devoted to business, and was instituted at Babson to fill the void existing from the lack of proper recognition of scholastic achievement.

At the annual Honors Day Assembly thirty-one men, representing the top twenty percent of the graduate school, the upper ten percent of the senior class, and the top two percent of the junior class were selected for membership in the society. These men who met the strict qualifications required of a Beta Gamma were elected by a permanent committee composed of President Kriebel, Dean of Students Paul C. Staake, Dean of the Graduate School Wilson F. Payne, Dean of the Faculty Walter H. Carpenter, Jr., and Director of Student Activities Descom D. Hoagland III.
"... and we discovered that we could afford this meal in appreciation of your scholarship."

"Let skreekta see what's for dinner."

Alpha Delta Sigma
1966
Babson

Biff Crow converses with Patty at the Penthouse Suite.

Bruce Donham crosses the plate again for A.D.S.
This past year has been a rewarding and eventful one for the Brothers of Alpha Delta Sigma. Returning with twenty-six Brothers last September, A.D.S. was presented with the top chapter award for the Eastern Region and was rated third overall nationally among the fifty-two chapters in our contingency.

Brother Gus Wilson organized a football team which upset A.K.Psi and came very close to beating Delta Sig for our first sports victory in five years. The Fraternity academic average enabled the Brothers to garner the coveted Scholarship Bowl for the fourth straight year, a proud possession of Alpha Delta Sigma.

The fall pledge class capped a successful pledge period with the annual orphan’s party. Some forty children were present to receive gifts from Santa (Tim Martin) Claus and to delight in ice cream and cookies furnished by the school.

Last November, Alpha Delta Sigma achieved a goal it had been working on for a long time. The Fraternity helped to raise a sum of $5,000. to go towards the fund for the new Student Center. As a result of achieving this goal, A.D.S. was assigned the North Lounge of Park Manor for use as a Fraternity Room. This was a proud accomplishment . . .

... for the Brothers, because the idea of organizations participating in the fund raising was initiated by Alpha Delta Sigma. Alumni for years to come will be proud to recognize the bronze letters of Alpha Delta Sigma on the door at the north end of the new Student Center.

The winter term was highlighted by an excellent pledge class of twenty-one men, who provided plenty of excitement for the Brothers. On the social scene, A.D.S. occupied the Executive Penthouse Suite and two accompanying floors of the Holiday Inn of Cambridge for the festivities of Winter Weekend which included an open bar and a champagne party for the graduating seniors.

The spring term provided the atmosphere for the annual Robert Murray Memorial Advertising Contest under the chairmanship of Brother Tom Suydam, and Brother Bob Hervey guided next year’s advertising blottet toward its final stages of completion. Vice President Everett W. Stephens spoke to the Fraternity about the future development of Babson as many Brothers volunteered to start a new Student Development Committee for the next student project. Yes, Alpha Delta Sigma has again demonstrated its position of active leadership and participation in all phases of Babson extracurricular life.
"... and what do you want for Christmas?"

A.D.S. sparkles in the field against Delta Sig.

Dick Bond congratulates Steve Wolf as he scores one more for A.D.S.
Pledge Captain Mills learns that all pledges are treated as equals to Brothers at social functions.

"Say, Don’t I know you?"

Mike Cullen and his pinmate, Ginni Simpson, seem to be enjoying the party.
A.D.S. MAYORALTY

The crew show their colors.

Garvin takes the plunger.

The two rafts are drawn together.
The boys join the girls in their raft.

"I think I see a pleasure craft."

The girls get soaked.

Doug and Steve accompany.

Carvin observes as his crew gets hungry.
Who can argue with success?
A mutual exchange of congratulations after the A.K.Psi–Delta Sig game.

Mark Regan directs A.K.Psi from the sidelines.

The huddle.
Alpha Kappa Psi, under the capable leadership of Jim Herbert, enjoyed another thrilling and eventful year. Always alive on campus, the Fraternity started the fall term off with many closed parties as usual, but became the highlight of the entire campus with its annual *Phoenician Ball*. Featuring the Drifters, the Brotherhood sponsored dance was truly a memorable occasion. The fall pledge class again complemented the Brotherhood's high reputation.

A.K.Psi resumed their frequent closed parties throughout the winter. Rushing provided the Brotherhood with its demand for quality and a select group of men were initiated. The winter social atmosphere was highlighted by a closed party held at the Charter House which included the attendance of Martha and the Vandellas and Bobby Freeman.

![Beach party at Whitehorse.](image)

![The Sweetheart of Alpha Kappa Psi](image)

Mrs. James T. Gard

![Bob Verville goes for the long ball against Delta Sig.](image)
With the usual determination of the Brotherhood as witnessed in its fine effort in football, the A.K.Psi basketball team showed their perseverance on the court never letting up until the end. The term ended with an all-school party held in Waltham.

The spring was again social for A.K.Psi and the school. One highlight of the term was a trip made by the Brothers to the New York Stock Exchange. A beach party at Whitehorse Beach provided warmth and a good time for all although the weather was somewhat cool. A.K.Psi’s softball team, although as spirited as in the past was unable to match the stiff opposition put up by the other fraternities.

There is no doubt that this has been a very memorable year for the Brothers of Alpha Kappa Psi, with an eye on better years to come.

PHOENICIAN BALL

Sophistication with the Drifters.

A.K.Psi guests enjoy themselves.

The Drifters entertain all.
A.K.PSI
MAYORALTY

Could this be messy business?

Brutus and Caesar converse.

A.K.Psi's entrance.

Cassius spouts off.
"This soothsayer has the only genuine Roman nose in the cast."

Mark Antony sallies forth to exhibit his many beauties to the crowd.

Cassius won't be quiet.

Caesar's Honor Guard.
DELTA SIGMA PI

Delta Sigma Pi once again enjoyed a banner year at Babson. By taking in 10 new brothers in the fall and 28 new brothers in the winter they increased their brotherhood to 74, the largest number in nine years.

Delta Sig had another successful social year with their annual Purple Carter being the high point. The Cambridge Boat Club was the scene of the winter rush party. The huge success is evidenced by the large number of new brothers.

The Tri-Fraternity Athletic Trophy was retired this year by Delta Sigma Pi; capturing the coveted award for the third year in a row. They were undefeated in athletics until the final softball game. Despite this defeat they finished with an impressive 4-1-1 record.

Delta Sig distinguished itself on campus by holding a benefit car wash for the Paul Murphy Fund. Kevin Kavanagh, running as Eliot Mess, met with much success as Delta Sig united to out perform the other competing organizations. Peter O’Keefe and Jon Whitcup won the faculty award as co-chairmen of Delta Sig’s mayoralty campaign for running the best campaign in terms of continuity and good taste.

A great deal of respect and commendation is due to this year’s executive committee headed by President Brian Barefoot. Indeed, a fraternity as large as Delta Sigma Pi necessitates leadership of this high caliber in order to maintain its high position on the Babson campus. Best of luck is wished to Jon Whitcup, the new president succeeding Brian Barefoot, and the rest of the newly elected officers for the 1966-67 academic year.
Delta Sig's strength lies in ability, spirit and support.

John Azlant bunts against A.D.S.

A game well played.
Jon Whitcup and date at the Purple Garter.

Mass enjoyment!

PURPLE GARTER
ATHLETICS

The game that gave Delta Sig the Jock.
DELTA SIG MAYORALTY

A most impressive group.

Big Daddy Slob confronts President Feeble and Officer Lovely.

Hell's Angels arrive.

No Parking in the Quad?
Lord Jeff seems to be the center of attraction.

Al Cologne adds his two cents worth.

Eliot Mess waits for him to kick the bucket.

Officer Lovely takes off.
The Tri-Fraternity Council administers the rules and regulations which guide all of the inter-fraternity athletic events and the pledge rushing procedure. This year Delta Sigma Pi captured the coveted Inter-Fraternity Jock for the third straight year by defeating A.D.S. in both football and basketball. A.K. Psi went down to defeat in both basketball and softball and tied the powerful Delta Sig team 12–12 in the football segment of fraternity sports participation.

A.K. Psi bombed A.D.S. in basketball only to be defeated in return in both football and softball. A.D.S. finished second in the run for the Jock by squelching the other two fraternities in the spring softball events.

BABSON INSTITUTE OF BUSINESS ADMINISTRATION
BOSTON PARK, MASSACHUSETTS

OFFICE OF THE PRESIDENT

To the Class of 1966:

What can the president of a college say in a message to its graduating class? This is a particularly difficult question when the message is to be included in the class yearbook. Should they be words of caution, of encouragement, or words of advice or of admonition? He has to remember that after its first review the yearbook will probably gather dust in between occasional excursions by its owner into the nostalgia of college days.

He certainly wishes you will, not only in the future immediately after graduation but with a force and sincerity which hopefully will still ring true whenever you may look back over the pages of this account of your experiences here at Babson. But most especially he hopes that you will come to recognize that your stay here was only one of a succession of learning experiences. Today, and certainly for many tomorrows to come, continued learning is essential.

Your picture in this book signifies an indelible bond between you and your alma mater. We are proud to number you among our alumni and will do our best to make it possible for you to continue your pride in your school over the years to come.

My personal best wishes to each of you.

Henry A. Kriebel
President

PRESIDENT
The office of Vice President—Development is the most exciting spot on campus these days because it is here that the Babson philosophy of excellence in education is translated into programs of action.

We are currently in the incubation stage of the first Babson multi-million dollar development drive. We are making an exhaustive self-evaluation right now, taking an in-depth look at every conceivable phase of the college—educational philosophy and goals, curriculum, quality of faculty, student services, physical plant needs, financial condition, complexion of management, etc.

Out of this tremendous task of evaluation there must emerge a master plan of action tied to a development and capital-fund drive whose target deadline is 1969—our 50th anniversary. To develop a master plan of action is the task of this office, with the help of just about everybody on campus from students to trustees to faculty and staff.

Along with the development of the master plan must go the tooling up for that day in 1969 when the fund drive will be launched. Bits of evidence of action already underway can be found in the Student Center—a reflection of the spirit of cooperation between students and staff that has come to the forefront in recent months. A similar working relationship is beginning to be evident within a variety of alumni projects. The new look in Admissions, the filmstrip, the upgrading of college literature, the modern format of the Alumni Bulletin—just to mention a few—give evidence of the Babson pursuit of excellence.

Self-appraisal and the development of the master plan are in themselves a mammoth undertaking. The plan, however, when developed, cannot possibly be implemented without the very strong support, both in words and deeds, of alumni and friends. Our problem here is frightening to the faint of heart, but we are not faint-hearted.
DEAN OF STUDENTS

Paul C. Staake, Jr.

To the Class of 1966:

It is natural to look upon graduation from college as an important turning-point in one's life. This seems different to different people. For most of you, it will mark the beginning of productive business careers (with perhaps a detour through military service), and for many it will mean marriage and starting a family. For every one of you, however, it means that you will be a Alumni for life.

I hope you are going to be proud of your new status as Alumni '66. All of you had the opportunity recently to read President Trichel's message about Babson's "pursuit of excellence in business education." Your pride in your alma mater is a vital part of this pursuit. Without pride, excellence is seldom attained and almost never maintained.

If sometimes it has seemed to you that our progress has been slow, please remember that you view it with a perspective of only three years. In no short a time it is difficult to appreciate how dynamic and alive your college really is. If you will take pride in your alma mater and care enough to help us to continue to grow forward and upward, Babson will have an ever-increasing and growing influence among existing educational institutions in the country. I believe that, as time goes on, you will have increasingly good reason to be proud of your diploma from Babson.

I wish you the highest success, not only in terms of material rewards but in what needs to go along with success to make it truly satisfying; the sense of worthwhile accomplishment.

Sincerely,

Paul C. Staake, Jr.
Dean of Students
The DEAN OF FACULTY originates plans for the next academic year by the teaching projection, recruiting new faculty members (in cooperation with Division Chairmen), and by communicating data on book orders to the Bookstore. Dr. Walter H. Carpenter, Jr., serves as Chairman of the Academic Affairs Committee, the Faculty Rank Committee and the Tenure Committee. Graduate Assistants receive their initial Division assignments from the Dean of Faculty. Finally, and most importantly, the Secretary to the Dean of Faculty keeps in touch with students and faculty members alike as she helps solve significant problems.

The chief concern of the Office is academic in nature both in terms of curriculum and people. Both these concerns occupy much of the Dean's time. The operation of various administrative services rests largely in the capable hands of the Secretary to the Dean, Mrs. Mary A. Boyle.
The Graduate School requires applicants to take the Admission Test for Graduate Study in Business. Multiple applications prevail at the graduate level as they do at the college level. A report by the Educational Testing Service for the year 1964-65 shows that 210 candidates requested that their scores be sent to Babson and to other graduate schools also. The list of over sixty graduate schools throughout the United States which were paired with Babson in the candidates' choices reveals an interesting pattern. The five schools most frequently paired with Babson were (in order) Boston University, Northeastern University, Harvard Graduate School of Business, Boston College, and University of Massachusetts, all "local." Ranking sixth through ninth were Wharton, Columbia, Dartmouth (Tuck) and New York University. The "local" pairings accounted for 51% of the choices, the next four only 17%. Several colleges, including M.I.T. and North Carolina, were tied for tenth place.

The significance of this list, aside from the good company it reveals, is twofold. The first observation, and one which is reinforced by our own studies, is that the majority of students prefer to take their graduate work near home. The second and perhaps more engaging observation arises from a study of the other fifty colleges listed. Although they comprised only a third of the paired choices, a reader is impressed by their nationwide distribution. They range from Stanford, U.C.L.A., U.S.C., Northwestern, Chicago, Michigan, Michigan State to Cornell, Syracuse, Rutgers and others in the east.
EVENING PROGRAM DIRECTOR

Dr. Frank C. Genovese

President Johnson in his message to Congress of January 12th, 1965 said,

"... The role of the university must extend far beyond the ordinary extension-type operation. Its research findings and talents must be made available to the community. Faculty must be called upon for consulting activities. Pilot projects, seminars, conferences, TV programs and task forces drawing on many departments of the university—all should be brought into play.

"This is a demanding assignment for the universities and many are not now ready for it ..."

Thus the outside pressures are acting to urge expansion of the functions and services of institutions of higher education. Those institutions which heed these calls may reap great rewards.

Babson started in this direction with its Evening Program. It is now looking into further expansion via Title I of the Higher Education Act of 1965. May this effort, too, be crowned with success!

In better servicing its community, the school better serves its students, its faculty and its administration.
To be DIRECTOR OF ADMISSION as Mr. Frank Winch II is you must realize that your work entails two main areas. The first is to attract high quality applicants, interview and process them and hopefully enroll them in our freshmen class. The second and equally important task is to educate our public about collegiate education for business. There are many young men today who because of improper counseling, parental pressure, or purely for the sake of status, find themselves in the wrong college and with the wrong curriculum. We want to make sure that secondary school seniors know what business administration is today and how it can prepare them for their life ahead.

The primary function of the ASSISTANT DIRECTOR OF ADMISSION, Mr. Robert Jenks is to assist Mr. Winch in any and all matters. This involves the interviewing of students both on campus and in their schools. It also means educating guidance counselors and headmasters as to what Babson has to offer and the type of student which we are looking for. These efforts culminate in the review of applications and selection of a new class during the spring of each year.

Among the other activities is the planning and coordination of the Admission's Office travel schedule. This year the following areas were covered: New York, New Jersey, Pittsburgh, Akron, Cleveland, Detroit, Chicago, Milwaukee, Denver, Los Angeles, San Diego, and most of New England. The Assistant Director of Admission also works with the Orientation Committee arranging for the orientation dance, the parents reception, and the freshman sign-in and registration.
The TREASURER, Mr. Jesse M. Putney, is responsible for the fiscal affairs of the Institute. Having attained both his bachelor's and master's degrees at Babson, Mr. Putney, is well qualified to take over the vacancy left by his father, the late Freedman T. Putney.

As CHIEF ACCOUNTANT, Mr. William F. Coughlin is the author of the several thousand bills sent to the students and parents each year. In addition it is his responsibility to see that the Institute completes each year on a financially sound basis. Mr. Coughlin has been with the Babson administration since the fall of 1963.
The BUSINESS MANAGER, Mr. James G. Hawk, participates in the administering of the overall program of the Institute. This would include budgetary and legal matters, improvement and maintenance of buildings and grounds, purchasing and personnel. In addition there is supervision of the function of the Dining Hall including menus, details of the Housekeeping Department, telephone and mail service and contact with all departments concerning their requirements.

As EXECUTIVE SECRETARY TO THE BUSINESS MANAGER, Miss Doris M. Tracy is in touch with many facets of Institute business since his department covers innumerable details having to do with 1) housing of students in dormitories, 2) off campus accommodations for single students, as well as apartments, houses, and rooms for married couples, 3) housekeeping, maintenance, kitchen and dining hall departments, 4) arrangements for group affairs for the college, as well as local civic groups which use the Institute's facilities, and 5) the screening of office personnel.

Miss Tracy's interest and concern lie in the assignment of rooms in our ten dormitories and trying to keep freshmen and upperclassmen happy and congenial with their roommates, both on and off campus.
Mr. Leonard Wood was appointed to the position of DIRECTOR OF PUBLICITY by the Board of Trustees to keep the name of BABSON before the public through newspapers, magazines, trade journals, radio and television.

Mr. Wood's wide range of experience was a deciding factor in his selection by the Board. Being associated with some of the nation's largest magazines, newspapers, and advertising agencies before coming to Babson, and conducting the first Congressional Campaign for Mrs. Claire Booth Luce, Mr. Wood has shown that the Babson publicity department has the potential of being one of the most effective departments of its kind in the field of educational public relations.

The Babson Institute Alumni Association was organized on August 6, 1931, for the purpose of promoting the welfare of Babson Institute, and establishing a mutually beneficial relationship between Babson Institute and its alumni. Membership of the Association, which includes graduates of the Institute, or those who have attended for one or more terms, numbers about 6,000.

The Association is administered by a President, Vice President, Clerk and Treasurer, and a Board of twelve elected Directors, and the following committees: Finance, Alumni Funds, Nominating, Athletic, Admission, Alumni-Student Relations, and special committees.

The DIRECTOR OF ALUMNI RELATIONS, Dr. Bertrand R. Canfield, represents the College in its relations with alumni and is in charge of the Alumni Office and staff.
The REGISTRAR, Mr. Stewart L. Stokes, Jr., is responsible for the preparation of all Faculty teaching schedules and student section schedules. He is also responsible for the preparation and maintenance of all student records, registration, the administration of Selective Service affairs, the preparation of final examination schedules, the preparation of the program format for Commencement and the proper preparation of the diploma orders. The REGISTRAR also serves as Secretary of the Faculty.

Mr. Stokes is an alumnus of Babson, Class of 1956, and earned his Master of Business Administration Degree from Northeastern University. During his undergraduate career at Babson, Mr. Stokes distinguished himself by becoming a member of the Blue Key National Honor Society, and by winning the Macy-Wheeler Award for naturalness, friendliness, persistence, and loyalty.

The Placement Office at Babson exists to be of service to Babson students and alumni, to the college as a whole, and to the businesses and other organizations where our men find opportunities.

During the 1965-66 year, the Placement Office has had more job opportunities than in recent years. At the same time, because of generally high employment among alumni and because of the competition of graduate school and military service for graduating students, there have been fewer job candidates than usual. In accordance with a trend, noticeable on campuses across the country, beginning job salaries are higher than ever before, at least for the best-qualified men.

As ASSISTANT DIRECTOR OF PLACEMENT, Miss Elizabeth Kebbe has enjoyed working with the members of the class of 1966—both BS and MBA candidates—and wishes you all success in the years to come.
In recent years, deans of graduate schools as well as employers have complained much about the poor ability in writing shown by many college graduates. The faculty and administration of Babson Institute are earnestly concerned with doing their share toward remedying this situation.

The first problem is to single out, as early as possible in their career, those students whose command of written English is inadequate, and to provide for them the special help which seems to be required. Toward this end, new arrangements were put into effect in the fall of 1965. Students entering with advanced credit from other institutions are now required to pass a test before that credit is finally accepted. For all students, however, continuous surveillance will be carried on to see what kind of written work they do in their various courses. The required courses in Composition fail in their purpose if the principles they inculcate do not carry over into all the writing done elsewhere. If this is not reasonably satisfactory, a student may be subject to a condition which must be removed before graduation.

Professor Louis Foley is principally in charge of the remedial instruction for those whose writing ability is found inadequate. This will be handled either in individual conferences or in small groups, in trying to give each student the particular kind of help that he needs to increase his skill and confidence. It is hoped and believed that, as time goes on, ways will be found to make the new arrangements more and more effective. In the pursuit of excellence, it would be a great professional asset to our graduates if a Babson diploma could be considered a guarantee that its holder is fully competent in written communication.

Mr. Thomas E. Smith, our DIRECTOR OF ATHLETICS, is in charge of the many athletic facilities available to the Babson student. Mr. Smith who possesses a great deal of interest in each and every student who enters his gymnasium is the coach of our basketball team. It is his responsibility to administer the mandatory gym program which was voted into effect by our Student Government just a few years ago.
PART-TIME PLACEMENT at Babson is a call-in service, free to the student and the employer. Our reputation and public relations depend on the students and the work they do.

The office places daily and office jobs as well as work on campus. Student wives also receive work from this office.

The ten years Mrs. Linda Adams has been here the number of jobs called in have more than doubled. At some period during the year at least two-thirds of the students sign up.

The cooperation of the students has been great. Thus the system works and our requests continue to grow.

The difficult job of running a clean and efficient dining hall is that of our FOOD SERVICE MANAGER, Mr. Philip V. Burt. Mr. Burt attends to the menus, kitchen and clean up help and the maids each of which add much to the atmosphere of the new Gordon M. Trim Dining Hall.
IN MEMORIAM

Rudolph A. Johnson

Dedication, sincerity, understanding, and intelligence are a rare combination of qualities for one person to possess. When that person is a teacher of ideas, he is a tribute to the school and its students. He is a person to be appreciated; a person to be honored.

Rudolph A. Johnson was such a man, and it is lamentable that we must now honor him in memoriam. Those of us who knew him will long remember the endless patience and understanding he offered his students, the interest he showed as a faculty member of the Society for Advancement of Management, his work on many student and faculty committees, the informality with which he conducted his class, even the scholarship key he wore proudly.

Though he no longer casts a shadow on the Babson campus, he has certainly left his impression. As an alumnus of the Babson Graduate School, as a professor in the division of Management and Production, and as a person of warmth and feelings, we honor him.
"The coming of the computer sounded the death knell for you accountants". So spoke a colleague several years ago. Nothing could be further from the truth. This is a dynamic, ever changing world we live in and accountants like everyone else must adapt to these changes and the accounting profession is doing so. Although we have only scratched the surface at Babson in the computer field, progress is being made.

There have been many other changes in the way accounting is taught at Babson today. Much more emphasis is being placed on the management approach to accounting as it is a well recognized fact that many managerial decisions rely on accounting data and the presentation and interpretation of this data thereby becomes quite significant.

Accounting, however, is only one part, albeit an important part, of this broad sophisticated approach to management decision making and we in the accounting division are doing our best to supply our part of the overall knowledge required by the astute business executive in today's ever changing business world.

Clinton A. Petersen
Babson Institute

ACCOUNTING
The courses under the Division of Distribution, along with the entire curriculum, underwent the process of change and modernization coordinate with the new four hour program which was instituted two years ago. Providing a more thorough coverage of subject matter was only one change. A more exciting feature was the introduction of a new course called Creative Marketing Problem Solving. Unlike most of the distribution courses which stimulate thinking, the problem solving course went further and included an intensive study in the thought process.

The new course is only one example of the dynamic philosophy which permeates the Distribution Division. Colonel McGee, Chairman of the Distribution Division, received his B.S. from Northeastern University and his M.B.A. from Babson. In addition to his educational background, he has been Production Manager for Ingalls-Miniter Advertising Agency, Assistant Advertising Manager at the Dennison Manufacturing Company, and the Advertising and Sales Consultant at Viking Manufacturing Company. He is Chairman of the Educational Committee of the Advertising Club of Greater Boston and National Registrar-Bursar of the American Academy of Advertising.

In the classroom, the Colonel induces as much class participation as possible. He looks upon the summer selling requirement of all Distribution majors with great favor as it provides an opportunity for young men to apply practically the salesmanship studied in their Junior year. He feels that men entering distribution should have a definite exposure to selling which enables the student to develop a better idea of a desired future career.

A major objective of any school is to provide instructors completely imbued with the subject matter, and highly enthusiastic about teaching. Colonel McGee is an excellent example of the fulfillment of this objective.

Only by accepting the challenges of his generation can the individual nature as a responsible citizen and effectively contribute toward perpetuating the good life of our society. Institutions of higher learning may provide the facilities and intellectual stimuli to prepare the student to meet the challenges of his day. But if they are to do so adequately, colleges, too, must meet a challenge. This challenge arises from the fact that the problems of today are far more involved and require a broader foundation of knowledge for solution than ever before. Success in graduating well-prepared students will depend largely on how well-prepared the schools themselves are.

The need to become "economics-wise," so as to comprehend the nature of our economic lives, illustrates the point. Economic influences are hardly novel; they have always governed man's existence. Indeed the law of supply and demand may well be humanity's oldest! But an exposure to the manner whereby our economic system works and the importance of acquiring this understanding have made economics an increasingly vital segment of a curriculum already bursting with the knowledge explosion.

The Division of Economics at Babson Institute is unique because it provides the intellectual environment and scope of subject-matter not usually obtainable in a school so small in size. Standards maintained for successful achievement are high, and courses are designed to train the student to render value judgments as well as to understand the economic forces of our society analytically. Considering the size of our enrollment, an unusually large number of economics courses are offered. These add strength to the school's total curriculum, since the study of economics has developed into a vast discipline of numerous, highly-specialized fields. Our graduates become broadly knowledgeable, because the required program of study includes most of the courses offered in the Division, irrespective of majors. Although the school is business administration oriented, the economics courses lie within the realm of liberal arts, thus helping to achieve a desirable, balanced school curriculum.

Over the years to come, Babson will continue to grow in accomplishment and stature. No small part of that growth will be attributable to the quality and character of the Division of Economics.
Dr. Frank C. Genovese
University of Wisconsin

Dr. Robert G. Wertheimer
Harvard University

The Division of Finance and Investments offers majors in both finance and investments. The major field courses in finance, along with the two introductory courses, provide the student with the basic tools he needs to make finance decisions, and, through the use of cases and problems, to give him practice in decision-making.

In investments, the course in stock analysis, the four major field courses in the investment area, and the required courses in accounting, statistics, economics, and finance prepare the student for a career in investment analysis and also provide him with the needed knowledge to pass the three examinations necessary to obtain the C. F. A. (Chartered Financial Analyst) certificate.

Through the Institute of Chartered Financial Analysts, the security analyst societies in some thirty-four of our major cities have set up a program to raise the stature of investment (now called financial) analysis and to make financial analysis a profession. Financial analysts hope that in time the CFA certificate will mean in their field what the CPA and bar degrees mean in the fields of accounting and law.

The present members of the finance and investment division are Professors Mors and Payne and Assistant Professor Black. During the past year all have given speeches and participated in professional meetings. In addition, Dean Payne served as Chairman of the Finance Committee of the Town of Needham. Professor Mors completed his book on Consumer Finance Charges: Rate Information and Quotation, which was published in January, 1966, by Columbia University Press for the National Bureau of Economic Research. His most recent article entitled "Possible Economic Effects of Uniformity in Methods of Consumer Installment Finance Disclosure" appeared in the Spring, 1966, issue of The Mississippi Valley Journal of Business and Economics.

FINANCE AND
MANAGEMENT
AND
PRODUCTION

The Management and Production Division is concerned with the required courses in Production Management, the major field courses for majors in the field and the integrative management courses which include Introduction to Management, Labor Relations and Business Policy. The Chairman of the Division, along with other Division Chairmen, is a member of the President’s Committee on Academic Affairs.

The Division of Mathematics and Science was voted into existence by the Academic Affairs Committee (and approved by the Trustees) in 1964. The Division was created principally in recognition of the growing importance of mathematical methods in management, but the underlying theme of scientific method suggested that the Institute's courses in physical and biological sciences be incorporated in the same division with quantitative management science courses.

With the creation of the Division, a new course in computers was added to the curriculum, and the freshmen mathematics course shifted emphasis and became a full term in calculus. Courses now offered by the Division are physical science, biological science, science elective, calculus, statistical methods, statistical inference (graduate), and computer fundamentals.

The theme of the Institute's science offerings is science for the non-scientist. The goal sought is not science for the sake of science, but, rather, science for the sake of students who look ahead to adventures in decision-making in a society where scientific advance often is compelling decision variable.

The aim of the mathematically oriented courses is to bring to bear the power of quantitative methods in the solution of management problems—to explore the exciting possibility that mathematical models which capture the essence of complicated management problem situations can be built and used in the solution of these problems. Recent history shows progress in this area, and it is reasonable to expect that Babson men of the future will have more and more opportunities for study in mathematical disciplines.

A number of developments took place in the Liberal Arts Division during the year that worked in the direction of raising the academic qualifications of its members and strengthening its contribution to the work of the Institute.

The Chairman, Dr. Edward Handler, as the recipient of a research fellowship from the American Council of Learned Societies, was on leave during the fall term working on a new book on the relationship in the realm of ideas of John Adams and Thomas Jefferson. The American Council of Learned Societies is a federation of rational scholarly organizations concerned with the humanities and the humanistic aspects of the social sciences.

Very notable during the year was the achievement of terminal degree status by two of the younger men in the Division. Donald Morse was awarded the Ph.D. degree from the University of Connecticut and Gerald Perkus received the Ph.D. degree from the University of Rochester. Morse’s dissertation was concerned with the work of W. H. Arden and Perkus’ dealt with the poetry of George Meredith.

The principal staff change was the addition of a new Assistant Professor, Jack Zucker, to teach English Composition. Louis Foley assumed the direction of a new competence-in-English program designed to insure that student skills in the use of English acquired in the formal courses in Composition did in fact carry over into other course work and that only students who maintained a suitable level of literacy throughout their period with us would receive a Balsom degree. The need to continue working on the problem of raising the level of student communication skills remains a central preoccupation of the Division.

The Liberal Arts Division achieved gratifying success this year in upgrading the professional qualifications and standing of its members. It strives to offer students majoring in business administration a variety of courses designed to develop skills that are indispensable for effective performance of functions in their chosen vocation. But more—it has the essential mission of seeking to enlarge the intellectual and value horizons of our students so that they may live richer, more satisfying lives as men and citizens, as well as managers.

Babson Institute is one of the few schools out of the several thousand who celebrate Founder's Day with the founder still living. As the upperclassmen know, last year's Founder's Day was highlighted by the attendance of Mr. Babson who, at that time gave an inspiring speech on the growth and development of students. Unfortunately Mr. Babson could not be with us for his day this year.

Babson Institute is awarding an Honorary Doctor of Laws degree this year to Mr. Warren Randolph Burgess. Mr. Burgess has long been known for his contributions to the American scene and his efforts in seeking world peace and harmony.

Our speaker is the former United States Ambassador to the North Atlantic Treaty Organization and a former under-secretary of the United States Treasury. Among some of his many community and business activities may be listed the following: Vice-president of the New York Federal Reserve Bank, 1936-38; Chairman of the Executive Committee, National City Bank of New York, 1948-52; Chairman of the Board, City Bank Farmers Trust Company; director of Discount Corporation; International Banking Corporation; and, National City Safe Deposit Company. Mr. Burgess is a director of the Atlantic Council and is a former chairman of the Atlantic Treaty Association, 1963.

HONORS DAY

MAJOR FIELD AWARDS

Prentice-Hall Accounting Award
Richard D. Carlson

Wall Street Journal Medal
Gregory J. Manning

S.A.M. Rudolph A. Johnson Memorial Award
Lyman D. Vicola

A.D.S. Hank Russell Memorial Award
David J. Ottmar

Robert J. Vanni makes a point as he delivers our Honors Day Address.

Senior Class President Benjamin E. Grant passes the class flag to next year's president, Edward Sparks.

James J. Boutiller receives the George Macy Wheeler Memorial Award.
Lyman D. Vincola accepts a gavel for his outstanding work as chairman of the Student Judicial Court.

Richard E. Hegarty accepts the Punch Bowl for the Pub-Coleman Intramural team.

Brian M. Barefoot receives the Senior Athletic Award.

Robert J. Vanni accepts the Roger W. Babson Award.
Robert W. Horgan accepts Good Fellowship Award from the Junior Class President, Edward Sparks.

Robert D. Bruce and John Ham accept the Best Driver Award from Babson Sports Car Club President, Thomas A. Saint.

Stephen L. Salomon accepts an award from Theatre Guild President, Francis S. Luciano.

Frank Miller receives an award for his work in the Babson Theatre Guild.
Sol. M. Linowitz, chairman of the board of the Xerox Corporation and vice chairman of the board of trustees of the John F. Kennedy Center for the Performing Arts in Washington, delivered the principal address at the forty-seventh annual commencement exercises Sunday afternoon June 12, 1966. He was also presented an honorary Doctor of Laws degree by Dr. Wilson F. Payne.

Mr. Linowitz has been a leading figure in Xerox' growth and development since 1947, notably as chief architect of the patent and licensing structure and in guiding the company’s international negotiations and arrangements. Xerox, from the Greek for “dry writing”, started in 1947 when rights were purchased from a patent lawyer for $10,000, plus a royalty arrangement.

Mr. Linowitz delivers the principal address.

PROGRAM
STUDENT GOVERNMENT

The Student Government is the one organization that constantly has a very close relationship with the Administration. It is the channel of communication and feedback, through which the administration and the students correlate the ideas that contributed toward improvement of the experiment called college education.

Under the presidency of Jim Boutillier the Government enjoyed a successful year in several areas. The new system of co-chairmen for the Social Committee, in the capable hands of Willy Kavanna and Steve Webber, produced the most enjoyable and financially successful calendar in the school's history.

New legislation occurred in the form of a totally revised and up-dated By-law regarding business licenses—this subject having taken most of the discussion time in the Government meetings. There was indication of the renewed interest in the over-all future of Babson by the reactivation of student participation in the Alumni-Student Relations Committee.

Another indication of this feeling of cooperation between the students and administration was the dropping of the hours-restriction on the Dry Dock Snack Bar—allowing it to compete with the B.S.O. Snack Bar.

The government sponsored the second annual Parent's Weekend—under the chairmanship of Jim Boutillier. The event was expanded to a full weekend, including a special performance by the Theatre Guild, and a dinner-dance in the Trim dining hall—a beautiful building which, from now on, may be used more frequently. The annual Honors Day Assembly was included in Parent's Weekend—a natural marriage of events—and, it is hoped, one that will become a traditional part of Parent's Weekend in the future.
JUDICIAL COURT

This year marks the fourth year the Student Judicial Court has been active in Student Government at Babson. Created as the result of student desire for greater self-discipline and the cooperation of the administration in obtaining that objective, the Student Judicial Court has proved that the student body is capable of internally maintaining acceptable standards of conduct.

Judgment of our acts by our peers is thought to be one of the most positive examples of a mature and democratic society. As a standing committee of the Student Government, the Student Judicial Court has made this concept a reality at Babson Institute.

First Row: R. Carlson, Chairman.
Second Row: W. Yeo, T. Clark, T. Suydam.

TRAFFIC COURT

As a standing committee of Student Government, the Traffic Court is charged with hearing appeals on student traffic violations. Every Tuesday evening the Court is faced with the responsibility of dealing fairly with students who feel they have been injusticed by a ticket. Led ably by Chairman Richard D. Carlson, justice is fairly administered by members Terry A. Clark, Thomas W. Suydam and William E. Yeo. Through the efforts of these appointed members, the Traffic Court lends an element of fairness to what seems to many—an unfair traffic ticket.
STUDENT CABINET

First Row: S. Salomon, R. Carlson, T. Martien, R. Onderdonk, Chairman; B. Donham, D. Fuller, F. Luciano.

Composed of the presidents of all the organizations on the Babson campus, the Student Cabinet serves as a communications medium for the executive committees of the various clubs. Blue Key National Honor has the responsibility of coordinating the Cabinet, the president of Blue Key, Robert Onderdonk, serving as chairman of the group.

It has been the practice of the Cabinet to meet when necessary throughout the year to discuss the mutual problems and plans of the member organizations with the Dean of Students, Paul C. Staake.

Most important of the Cabinet's duties is the selection of the members of the Student Judicial Court. During the spring term of this year twenty-four nominees were presented for the Cabinet's consideration from which two were selected to serve as alternates on the court. Special recognition should be given to the Chairman of the Cabinet, Robert Onderdonk, for a job well done.

The BABSONIAN attempts to bring to Babson students a book which will be meaningful to each student as a personal record of college life. To the seniors the BABSONIAN has a special significance because they find meaning in the pictures of every class as they look back over the years with a smile.

It is fair to say that there is a universal feeling of delight among the members of the yearbook staff. Indeed, we are fortunate to have been given a chance to provide the students and school alike with a book of excellence in both technical workmanship and editorial content. The editors of the 1966 BABSONIAN hope that you will agree that we have achieved this excellence in this, our 47th edition.

Webster defines 'gadfly' as a person who annoys or irritates others. Socrates said that every community needs one of these pests to keep it alive and in a forward direction. The Babson community had one in the person of the EXECUTIVE, the campus newspaper.

Editorially the EXECUTIVE expounded on subjects ranging from "God Is Dead" to "Why I Will Never Give A Single Penny To Babson". To those who read the paper only superficially the EXECUTIVE was touching on "Sacred Cows" that might be better left untouched. To those who read the paper with a concern tantamount to that of the authors, the paper was the voice of the students that has been mute through too many years and too many inequities.

Intelligent letters did come, though few. We grew by them and tried to inject our new awareness into the students. If we did this our job was complete.

In an eight page tabloid newspaper there are under normal circumstances, eighty double-spaced, typewritten pages of copy. If twenty people participate in making up these eighty pages then it is fun. If five participate then it is work. The EXECUTIVE staff of last year vacillated between five and twenty persons. The inverse correlation between the number of people on the staff and the numbers of spelling errors, proof errors and misinformed commentaries was extremely high. If more than one person sought advertising we had more than we could tastefully carry. If one person was doing this job alone we failed to cover the cost of printing. The latter was more often the case.

If the paper continues to be the annoying gadfly then Babson Institute will continue as a community for the young businessmen for whom it was designed.

Staff
Carpenter Niche Snching
in New Student Center

A step in the right direction fellas....

Last Thursday at noon, the three carpenters working on the student center were seen dismantling Linda Adams' office. Apparently their diligent dismantling efforts were in response to Mr. Stephen's letter that appeared in the EXECUTIVE on that day.

The letter was quite vehement about the quality of the work performed thus far on the center. Initially the workers were delayed because they had started building the center in the basement of North, but fortunately Mr. Hadus stopped them before three months work. They immediately tore up the partitions and carpeting and put it up in the right room. The great problem arose when the sharp eyes of President Kruebel noticed that the room was backwards. This, of course, resulted from the difference in directions of Park Manor and Park Manor North. This situation forced the workers to turn the whole building around to get things right. They have been doing this at night for the past two years so that nobody but the top management would know.

The incident of the office could lead to a series of protests in which the whole student center could be dismantled, and we simply cannot afford it. A local socialist, Charles Baines Rotman claims that "the workers are merely manifesting all the ramifications of an imbalance in home static equilibrium, resulting from psychosomatic disorders centered in the upper regional tract or shall we say, they are screwed up."

Dr. Handler, specialist in Labor Relations (gynocologist), said as he rushed to the scene, "I am struggling for words to express myself."

Dr. Foley leaped into the center of the conversation saying, "your construction is faulty and imbalanced! and proceeded to scrawl about the effects of this on the campus atmosphere."

News Flashes
Faculty On Their Toes...

All the urinals in the faculty lounge were raised six inches. Dr. Carpenter said today. This should keep the faculty on their toes, he stated.

Prindle Throws Moon...

Dr. Bryce Prindle entertained his Science H class with the latest achievement in science when he threw pictures of the new Russian moon shot on the projection screen last Tuesday. A spokesman said today.

Trend Line At Reduced Rates...

Because of the recent drop in the volume of trading on the open market, Dr. Wilson Payne is selling his trend line at reduced rates. Dr. Payne usually gives students at 10% discount.

Playboy Club

Because of Roger Babson's great influence with the ABC, the Playboy Club has been granted a liquor license. In showing their gratitude President Hugh Heffner has graciously consented to give all Babson students under 21 a key.

Foley Shows Prowess...

Dr. Louis Foley of the English department at Babson recently won first prize in the Wellesley Junior High spelling "p" organized by the local PTA.

Crudin In Dining Hall...

Miss Brownie Crudin is the newest employee of the Babson dining hall. When asked for a comment, she simply said "it's a nice place to work, but I wouldn't eat here.

For True Identity Of Our Heroes - See Page 3

Drake Bakers & Hook Baiters
Book More Bucks From Kebbe

This year, Miss Kebbe has brought onto our campus another bumper crop of companies searching for Babson graduates. Competition has continued at the high pace of old in search of the jobs being offered to our June, July, August, Etc., graduates.

Last year, the average starting salary reported in our Placement Annals was $7,500. However, the 1966 graduates have more opportunities than ever before, and a $10,000 starting salary is not out of the question.

The Babson Executive

"Parody Issue"

Thursday, February 17, 1966

Volume 20 Number 34
SOCIETY FOR ADVANCEMENT OF MANAGEMENT

The Babson Chapter of the Society for Advancement of Management successfully continued its role of contributing to the professional business atmosphere on campus. Through speaker meetings, field trips, business films, and various other activities, S.A.M. played an active part in campus affairs.

During the year such prominent men as Mr. George Rideout, president of Babson’s Reports, and Professor Robert Austin of Harvard spoke to the S.A.M. members. Field trips were taken to the Boston Stock Exchange, the General Motors assembly plant in Framingham, Continental Bakery, and Garling’s Brewery.

Unfortunately, one of our faculty advisors, Mr. Rudolph Johnson, passed away early in March. To honor this highly respected man and pay tribute to his contributions to Babson Institute, the members established the Rudolph A. Johnson Memorial Scholarship Award, to be presented annually at Honors Day to the senior majoring in Management and Production with the highest academic average. The recipient’s name is to be engraved on the trophy which is to be kept in the trophy case in the Student Center. The first recipient was Lyman D. Vincola.

April 6, 1966, marked the annual S.A.M. Full Day Conference. The theme of this year’s conference was Current Trends and Developments in Business, giving a wide choice in both speakers and topics. Speakers included two economists, Mr. Robert Eisenmenger, Vice President and Director of Research of the Federal Reserve Bank of Boston, and Dr. Robert Wertheimer, Professor of Economics at Babson; a leading industrial consultant in computer applications, Mr. Jerome Kanter of Honeywell’s Electronic Data Processing Division; a leader in organized labor, Mr. Francis Lavigne, Director of the Department of Education and Research, Massachusetts State Labor Council, AFL-CIO; and Mr. Herbert E. Tucker, Jr., an Assistant to the Attorney General of Massachusetts. Together the five sessions offered subjects of interest and relevance to all.

Later in April the Babson Chapter played host to a regional convention of S.A.M. University Chapters. Delegations traveled from as far away as Norwich University for the afternoon of informal discussions and talks.

In addition to the professional activities, S.A.M. engaged in several activities of a more social nature. Again this year S.A.M. entered a candidate, Buster Babson, in the campus mayoralty campaign. The campaign was built around the theme of Buster Brown and featured a 20 foot long, 10 foot high shoe. Also, a festive banquet was held at the end of each term, all three at the King Philip in Wrentham.

In retrospect, S.A.M. has had another highly successful year. Three new advisors, Dr. Wallace P. Mors, Mr. Abed A.U. Malki, and Mr. Stewart L. Stokes, Jr., were initiated into membership. Prospects for a high standing among other chapters in the nationwide competition were excellent, as plans for next year’s activities were taking shape.
An informal meeting with the Membership Committee.

Past president, Bob Vanni accepts a trophy from the membership.

Mr. Peterson welcomes the new faculty advisors.

Action at the shrimp bowl.
FULL DAY CONFERENCE

"Current Trends and Developments in Business"

Mr. Francis Lavigne entertains questions after his keynote address.

Dick Bright introduces Mr. Jerome Kanter from Honeywell.

Dr. Wertheimer delivers the most entertaining speech of the day.
Mr. Lavigne speaks on the change-over to automation.

President Oak converses with Mr. Paul Hennessy, Vice President of Membership of the Boston Senior Chapter of S.A.M.

Bob Vanni discusses the Conference with Faculty Advisor, Stewart Stokes.
Bob, are you for real?

"... and you put the salad on your head."

S.A.M. MAYORALTY

What lines!

Hi yah, Kids, hi yah, hi yah.

Midnight steals the show!
Chef Botchagaloop at his best.

Midnight at her best—Charlie "Mouse" Miner as usual.

It's Andy's Gang!

Three's a crowd.

...and there goes the Black Knight.

Would you believe—Flower?

Froggy ponders.
CIRCLE K
INTERNATIONAL

One of the fastest growing organizations in the United States today is Circle K International. The Babson Chapter of Circle K has been an active club on the campus since its founding here three years ago. The club is sponsored by the Wellesley Chapter of Kiwanis International, and provides an opportunity for college students to develop initiative and leadership in addition to serving the college and community.

In keeping with the objectives of Circle K and Kiwanis, the activities of the service organization have aided such charitable concerns as the Red Cross blood drive, the United Fund, the March of Dimes, and the American Cancer Society. President John Cook and his executive committee also instituted many chapter-oriented projects including giving campus tours to prospective students, a charity student-faculty basketball game, and the sponsorship of an American Indian child in conjunction with a self-help program for the Hopi Indians.

The spring term was highlighted by six Circle K members attending the District Convention in Bangor, Maine, and the installation of ten new members into the club. The organization has a great future on the Babson campus and continues to provide its services to both college and community.

CIRCLE K BANQUET
It was one of Payne's ten best!

FACULTY WINS
42-29

The faculty outwitted the students with professionals like Wild Bill.

Mr. Casey has an off moment.
That well earned respite.

Dean Stuake, Dr. Perkus and Mr. Putney box Jim Boutilier into the corner.

Could this be Freshmen Orientation.
The Babson Marketing Association, a collegiate division of the American Marketing Association, has this year deviated from the more traditional club activities. Our objective was to strengthen the bonds between ourselves and the other collegiate divisions. The primary tool in facilitating this goal was a session of business games run through the computer at Chandler Junior College. Several afternoons were spent by a delegation of club members in planning strategy, and then several days in actually running the games. We were all quite proud that Babson won the competition.

Again, with unification in mind, Babson and the other marketing clubs sponsored a banquet held in late April. This event proved to be most successful and certainly will become a permanent event on the Association's calendar.

The Association maintained an active speaker and film program this year. By far the most outstanding speaker program of the year was held in early spring. The speakers were Mr. John Graham, Space and Information Systems Division, Raytheon Company, and Mr. John Lazar, Associate Technical Director, Communications Division, Mitre Corporation, which is an Air Force consulting agency for systems engineering. A wide range of subject matter was covered that night, topics not usually stressed in our business curriculum.

Through programs such as this, and in working with other schools, we hope to bring to our members the practical experience and personal enjoyment of participating in a club with its eyes on the horizon.
The Business Economics Society, one of Babson's oldest organizations, again enjoyed a rewarding and successful year. Still a growing organization, the B.E.S. continued several of its traditional yearly programs such as the annual trip to the U.N., and expanded into new areas of interest to its membership.

After the glory of graduation passed and took with it some of our most active members, we found ourselves with depleted ranks and sans a president. It fell to our new officers: President Michael Krupp, Vice President John Basner, Secretary David Krech, and Treasurer Fred Jean to polish our tarnished image. Fall term was devoted to conducting a successful membership drive, and revising the constitution. With this solid foundation and willing members, we looked to 1966's winter term with enthusiasm.

The winter term was highlighted by a field trip to New York. Our members, some of whom spent the weekend in New York, met on Monday at the U.N. for a tour and conferences. The term's speaker list was headed by Mr. Richard Long, a stock broker, who at our open meeting addressed the group on "The Future of the Stock Market."

Spring term found our members scurrying between the Boston Stock Exchange, Carling's Brewery, and the U.S. Army Natick Laboratories on field trips. A speaker from the John Birch Society rounded out this semester's activities.

This year was indeed rewarding and successful, and for it we especially wish to thank Dr. Genovese who helped our executive committee coordinate activities. After the installation of eighteen new members and a new slate of officers, the club looks forward to an exciting year of continued growth and service.
NEWMAN CLUB

Material wealth comforts the body, but only learning, understanding, and discussion aids and expands the spirit. It is this goal that has guided the Newman Club activities for the Roman Catholic students at Babson.

With help of our executive committee, including Van Martin, Jim Somppi, Tom Lessard, and Bob Vanni, and our committee chairmen, Reesom Haile and Bernie Higgins, we set up a calendar of activities that were of interest and worth to our members.

The Newman Club, working in conjunction with the other religious organizations succeeded in regaining the use of the Chapel in Park Manor for our exclusive use for meetings and services. This year we were fortunate enough to arrange for masses on campus, a tradition we hope will continue and expand.

Our speaker program has been arrived at by bringing knowledgeable persons on campus to lecture and lead discussions on both religious and secular subjects. Father Rover, addressed our group speaking on "Love in Modern Literature." In the spirit of ecumenism, the four campus religious clubs invited Richard Cardinal Cushing to address the student body this winter. Providence, however, seemed not to be on our side, since all our plans and preparations were rendered useless by an unscheduled unwelcomed snow storm.

This year, the Newman Club began a Sunday afternoon film series, which covered a broad spectrum of topics from religion to sociology to history. Also, under the fine guidance of our Chaplain, the club's library was broadened.

Though our program was a modest one, we hope it will initiate renewed interest and involvement of the students in the campus religious organizations. With the warm, most welcomed help of our Chaplain, Father Fitzsimmons, we have developed programs and objectives for the future, that will assure success.

SINAI CLUB

Since its inception in 1959, the Sinai Club has become an active contributor to the social and cultural climate of Babson. The club prospered this year under the administration of President Steve Salomon and the executive staff consisting of Vice President Steve Wolf, Secretary Marvin Gould, and Treasurer William Brenner. The Sinai Club continued its seventh year as the center of activity for Jewish students on campus.

Membership this year reached an all-time high. Arrangements were made for transportation to Rosh Hashanah and Yom Kippur. A record number of "Bagels and Lox" breakfasts were served in the Fo'c'sle on Sunday mornings throughout the school year. These will be remembered as the high points of the club's activities.

The club is looking forward to a larger membership and greater participation in religious activities under the leadership of the new president, Marvin Gould, in the coming year.

WESLEY SOCIETY

The Babson Chapter of the Wesley Society for Protestant Students was founded this year by Stephen Craine, who was ably assisted by Brian Baker and Craig Fuller. The purpose of the organization has been to bring the Protestant students of different faiths closer together. In keeping with this, the Society has maintained no specific religious practices throughout the year, but rather welcomed all.

Several new programs have been begun by the Wesley Society, which includes, first a speaker series. In conjunction with the other three religious organizations, our club secured an acceptance to speak from Richard Cardinal Cushing whose talk was unfortunately cancelled due to a snow storm. It is, however, the quality of its speakers that the Wesley Society wishes to maintain.

Next, a series of comparative religion programs has been instituted whereby members of the Society attend religious services of various faiths. Three of interest were services at a Baptist Church, a Jewish Synagogue, and at the Christian Science Mother Church.

As a public service to the campus, the Society participated in the cleaning of the Babson Chapel, putting it in working order for the use of the religious organizations.

In the coming years, the Wesley Society hopes to carry on its various programs, and also hopes to be able to do more with the other religious organizations, not only on the Babson campus but in the various schools throughout Eastern Massachusetts.
THE EPICUREAN SOCIETY

The Epicurean Motto as stated by the society's founder and first president, Mr. Jeffrey M. Zack, is "Give us food, wine, women, and song, and the time to give each their own accord." The past year has provided the membership with adequate time to live out, in some small measure, the objectives of the Epicurean Society. During the past year the society has sampled the fine wines and foods of many of greater Boston's finest night spots.

A recent banquet at Henri's, a small French style restaurant in Natick, proved to be one of the best in the society's brief three year existence. The Holiday Inn of Cambridge provided the location for the Epicurean Society's annual Spring dined meeting. A wine tasting contest held at the Holiday Inn proved to be a good challenge for the wine connoisseurs and Paul Wilmot who poured many a glass of wine.

First Row: R. Weiss, A. Johnson, President; W. Lake.
Third Row: J. Cote, A. Vallejo, S. Craine, J. Ring.
"Our finest, Monsieur."

Tim Martien samples one of the fine wines to be had at Henri's.

BABSON SPORTS CAR CLUB

Natick Ford provoked much interest with their Shelby G.T. 350's.

GYMKHANA

John Ham provides stiff competition in the sedan class.
Rounding the last turn.

The straight away.

Percy Chan corners.

Mustang G.T. 350 wins all.
The officers of the Varsity Lettermen’s Club for the 1965-66 school year were Terry Clark, President; Sherwood Hettinger, Vice President; Stephen Smith, Treasurer; and Alan Whipple, Secretary.

In accordance with the club’s purpose of fostering athletics at Babson, the club under the direction of Terry Clark purchased a bulletin board announcing all upcoming athletic events both home and away. The sign, which has been strategically placed in the Trim Dining Hall, gives the time, place, and opponents of all athletic events.

The club also had guest speakers during the year, such as Porky Dumart, a former member of the Boston Bruins. Dumart spoke about the NHL today and athletics in general.

During the winter and spring terms the B Club held two open meetings to attract new members. Freshmen on the soccer, swimming, basketball, and tennis teams were invited along with the members of the newly established hockey team.
Interest and spirit ran high among the members of the Babson sailing team as they attended to a rigorous schedule of meets in New England during the fall and spring. Lack of experience and academic probation handicapped the group to an extent.

The commodore’s chair was taken over by Steve Purdy, who replaced Eldon MacLeod, a member of the victorious McMillan Cup Team; Don Seigal was elected secretary, and Jordan Estra, treasurer.

Scott Stevens, Charlie Miner, John Ring, Fred Wright, and two Bermudians, Rick Farrington and Hugh Pritchard, kept Babson in contention at many of the New England intercollegiate sailing events.

The number of freshmen on the ’66 team and improvements made to the equipment and practice schedule raise hope for an excellent 1967 season. The coveted McMillan Cup, won by Babson in 1964, and the John F. Kennedy Memorial Trophy are future goals.

First Row: D. Seigal, S. Purdy, President.

SAILING CLUB
Coach Little observes the performance of his men.

The Boston Lacrosse Club approaches the Babson goal.
In a meeting of the Faculty Committee on athletics held on April 30, 1966, the committee gave its sanction for a Lacrosse Club to operate this spring.

The members of the committee, which includes Dean Staake, Dr. Carpenter, Mr. Brown, Mr. Smith and Mr. Petersen, were of the opinion that a Spring spectator sport such as lacrosse would be beneficial for the Babson community.

Donald Matthews, Ozwald Hodges and Tom Morgan, who represented the Lacrosse Club at this meeting, presented the club's platform for sanctioning the sport as a club for the Spring Term. One of the eleven points included in their proposal was that there was approximately 17 men interested in lacrosse who have had experience and an equal amount of men who are without experience.

After a short deliberation, the Faculty Committee decided that a lacrosse would be an excellent idea, and that if the club had a successful season they would reconsider the club proposal and possibly give the club varsity status for the 1967 season.
Under the dedicated leadership of President Michael Potter and faculty advisor Dr. Wallace Mors, the American Finance Association has functioned as a small but flexible unit available to all who have a sincere interest in finance and investments.

This year the association heard many interesting speakers from local brokerage and financial institutions. A New York field trip was also offered to members, and a seminar was held on "Careers in Finance."

In the future we wish to expand the association's membership in hopes of attracting more prominent speakers. We pride ourselves in having the most dedicated membership since our organization exists solely for them and their interests.

This year the Young Republicans Club attempted to explore the nature of Republicanism by having small informal meetings, at which some aspect of the Republican party was discussed. These discussions included not only current party problems, but we also went into the past for an analysis of the defeat of Mr. Goldwater. Although much discussion centered about the possibility of bringing Republican speakers of prominence to the campus, it was decided by the members that it would be best to have meetings that would serve to inform them on views of the party as a whole, rather than the opinions of one man. In the future, however, it is hoped that we will be able to encourage speakers to come to Babson.

FRESHMEN ORIENTATION

"All good Beavers wear their beanies."

"Look at the man on your left and the man on your right. In three years. . . ."
Peter Casperson arrives.

Parents and students alike listen to the orientation speeches.
The freshman orientation program was revitalized this year under the supervision of Dr. Charles Rotman. As usual the purpose of the program was to establish unity and school spirit among the neophytes. Each freshman was assigned an advisor to serve as a guide for the duration of the program. After several tedious hours of meetings, I.Q. tests, and assemblies, the program livened up a bit as the frosh challenged the upperclassmen to a few athletic events. And then there was the mixer??

After a series of memorable events, the beannies, KK boards, and the illustrious Kangaroo Kourt, the frosh managed to get together and show a bit of unity. Storming the dining hall in business attire, less the proper pants and socks, was an act sufficient to prove to the upperclassmen that the freshmen were truly unified and ready for the awesome task called studying. Thus ended the hazing period for 1965.
Backstage at "A Funny Thing ..."

The third time around.

Curtain call.

Senex, in an award winning embrace.

The mourners.
"Hurry, hurry, Hurry, see the greatest show on earth" was the spirit felt not once but twice on the Babson campus, for this year the Babson Theatre Guild produced two theatrical spectaculars. It is rumored that the Wellesley and Natick auditoriums still echo the hoorahs and bravos that hailed the Guild's side-splitting rendering of "A Funny Thing Happened on the Way to the Forum" and "Come Blow Your Horn."

"The Forum" was by far the highlight of Winter Weekend, and its great success is due in no small part to the tireless dedication shown by the cast and stage crew. So good was the job done by Stephen Salomon, Jeff Witkin, Bob Onderdonk, Richard Bright, Joe Haerdrich and Frank Miller that a second performance was given.

With less than one month to prepare, the members of the Theatre Guild were again in the spotlight, this time in "Come Blow Your Horn." Again Stephen Salomon, Bob Onderdonk, Richard Bright, and Craig Fuller, under the superb direction of Miss De French, put on a performance acclaimed to have been "better than Broadway" by one stagemaker critic. It was, indeed, a most welcome addition to the Parents' Weekend schedule.

Each performance this group puts on must draw upon every member to the fullest, and having such an outstanding crew and cast made it easier. But, as in every group, there are those whom special recognition must be given. Therefore at Honors Day, Frank Miller was presented with the Theatre Guild Award for his service and dedication. For the recognition of superb acting prowess, a new award was initiated, the "Roger," which was presented to Stephen L. Salomon for his role as Senex in "The Forum." It's "curtain time" now in your mind's eye. Sit back ... relax ... and remember.

WBZ COLLEGE WORKSHOP

First Row: M. Cardillo, P. Hudson.
The soccer team, under the direction of a new coach, Mr. J. Gordon Burness, had another losing season. However, this season was unlike other seasons in that the team played better than ever before. Even though the team compiled a 1-7-1 season record, the Beavers made it a difficult contest for nearly all their opponents. Spirit at all times was the most outstanding characteristic of the team who maintained this quality throughout the game regardless of the score.

This year’s team consisted mostly of freshmen who contributed a great deal to the attitude of the team. But it was under the leadership of Mr. Burness and the few upperclassmen that the team jelled into what it was. The leading scorer for the season was Moise Elghanayan; his best effort coming against Assumption College when he scored 4 goals as Babson won its only game 8 to 1.

This year brought something new to Babson in the way of varsity sports, an organized basketball conference. The name of the new conference is the Dr. James Naismith Intercollegiate Basketball Conference, named after the founder of the game. Being a member of this league should bring to Babson more interest and enthusiasm in the game as well as badly needed school spirit.

The Beavers compiled a win-loss record of one and nine in this league against such teams as Gordon, Barrington, Bryant, St. Francis, and Nasson, which gave them a last place standing. At the end of the season an all-star team was named and a benefit game played between the outstanding ballplayers of each team and Bryant College, who were league champs. Bob King was named to the second all-star team and also participated in the benefit game along with Stan Briggs and Brian Barefoot.

The season got underway with the Babson Invitational Tournament in early December. Babson won its first game against Nathaniel Hawthorne but lost the next two to finish in fourth place. Even with the fourth place finish, Babson was able to place two men on the all-tournament team; Stan Briggs, second team, and John Fields, first team.

With such returning lettermen as Most Valuable Player—Bob King, Rick Heller, and Mike McCoy as well as the addition of new talent, the ’67 season will prove to be more satisfying to loyal Babson basketball fans.

**BASKETBALL**
HOCKEY

Under the fine coaching of Mrs. Betty Catinella, the Babson swim team posted a 2-7 record. The season started off well with Babson defeating Nichols College by a wide margin. Babson took all but one first place in addition to setting seven school records.

The team was enhanced by the depth and experience of this year's members. The whole team was up for this season. Coverage of the first meet by a national wire service and several Boston papers added to the team's spirit. Interviews with Mrs. Catinella on TV boosted the team's pride and drive. With the start of the winter term, however, came the loss of eight key men, including last year's Ewart Memorial Trophy winner. A excellent group of freshmen partially reduced the effects of our loss.

Freshmen Biff Landry, Dick Cranston, Lee Watkins, John Golka, Joe Maak, and Emil Meshberg added considerably to the team. Meshberg, the team's second highest scorer, gave the team additional strength in the diving event which previously had been a weak spot in the Babson team. Terry Clark, Tom Pease, Mike Potter, and Al Whipple represented the upperclassmen.

Al Whipple and Terry Clark were elected co-captains as the winter term started. Whipple finished the season as the team's high scorer. He was selected winner of the Ewart Memorial Trophy and will co-captain the 1966-'67 season along with Steve Smith.
SKIING

J. Bogert, T. Baker, R. Wigglesworth, Coach; F. Dehautre.

Hopes were high for the first season of the Babson ski team as the roster of skiers was reviewed in January. The team coached by Bob Wigglesworth, an enthusiastic racer, who unfortunately tore a tendon at Christmas, was composed entirely of freshmen and juniors.

The team started the season off on the right ski by winning an invitational slalom race at Intervale, N.H., sponsored by Bentley College. Co-captains Jeff Bogert and Ted Baker, both juniors, compiled the fastest times for the Beavers and bought the team to its first victory over the five other colleges present.

The season consisted of nine races which were held in Maine, Vermont, New Hampshire, and Massachusetts. The events were slalom, giant slalom, and downhill, and at each race the eight best Babson skiers competed against the eight best skiers from Bentley, Worcester Poly Tech, Lowell Tech, St. Anselm's, Bates, Windham, Merrimack, Harvard J.V.'s, M.I.T. J.V.'s, New Hampshire College of Accounting and Commerce, and Nason College.

The highlight of the season was when Skip Keenan, a freshman, came in second out of eighty racers, in a giant slalom at Suicide Six, a mountain in Vermont. Besides the skiers already mentioned, freshmen Francois Dehautre and Bruce Hutchinson were members of the team.

Probation hit the team hard since some of the best skiers at Babson were not able to participate in the races. Plus the fact that "crash" Baker went into the woods practicing for a down hill and Jeff Bogert had trouble with his bindings at the beginning of the year.

All in all, it was a "building" season for the Beavers. In the words of Coach Wigglesworth, "I am looking forward to an excellent season next year since we will have all of our lettermen returning plus many new skiers who could not come out for the team this year."
Under the tutelage of Coach Ralph Chambers, Babson's tennis team had a successful season, although posting a four and five win-loss record. This season was highlighted by the play of Captain Chris Brooks at 1st singles where he has won eight matches and lost one. Steve Kroll at 2nd singles had a six and three record playing as a freshman against strong competition from juniors and seniors from other schools. Steve Wood at 3rd and sometimes 4th singles has made the difference in many matches this year with a five and four record as a freshman.

Since Brooks is the only graduating member of the team, Coach Chambers will have a fine core of players returning mostly from the freshman ranks. Juniors Mickie Krupp and Carl Todd along with freshmen William Eber, Jo Maak, Bob Patkin, Steve Wood, and Steve Kroll will be giving it their best to achieve another successful season.

**GOLF**

The varsity golf team under coach Tom Smith enjoyed another highly successful season, closing with a ten win and six loss record. Starting with a second place finish in the annual Babson Lid-Lifter Tournament, the golfers had considerable success against teams from schools with far larger enrollments. The Lid-Lifter Tournament, played early in April on Babson's home course, the Wellesley Country Club, was won by Nichols College for the second year in a row on the basis of both match and medal play.

At the conclusion of the season, a five-man team composed of upperclassmen traveled to Portland, Maine, for the New England Intercollegiate Golf Association Tournament where the best collegiate golf teams of New England compete. After a slow start the first day, Babson rallied on the second to finish sixteenth, behind such schools as Harvard.

Graduation will not take its toll as in years past, for Guy Jacques-Dalcroze, a two-handicap player from Switzerland, will be the only player leaving via this route. With a group of players such as Les Dearborn, Emil Meshberg, Rick Hel- ler, Bob King, Mike McCoy, and Warren Luke returning and many new talents expected, the '67 season will prove to be Babson's sixth consecutive successful year in golf.
Editor’s Note

This small space set aside for the editor to evidence his appreciation of the efforts put forth by many hardly does justice to those men who have given so much of themselves in order to make the BABSONIAN—1966, a reality.

Editor John Ring deserves to be complimented on a job well done. Having taken over the editor’s pen in January, I would have been immensely more handicapped had John and his staff not begun developing the format.

All of the staff deserve congratulations on their accomplishments, but, as usual, a few excelled in their efforts to make this year’s book the finest ever produced. My managing editor, Charlie Cutler, was responsible for sharing the burden of picture quality, editorial content, and technical layout.

The financial affairs of the BABSONIAN—1966, were efficiently handled by Alan Oak. I can think of no better way to start Charlie Mills on his way towards a successful 1967 BABSONIAN than to assure him of the aid of the extremely capable business manager of the BABSONIAN—1966.

My sincerest thanks to all my student editors, especially Rich Carlson, Brian Baker, Bob Vanni, and John Cook.

I would like to show my gratitude to Kib Roulette. There are inevitable problems which will arise in any production of this magnitude. Mr. Roulette, the local representative for Bradbury, Sayles, O'Neill, Inc., has made our working relationship a most pleasant association. Kib’s utmost co-operation and deep concern for the quality of the BABSONIAN—1966, has had a definite affect on the efficacy of my takeover.

All too often the ever present administrative and faculty aid are taken for granted at Babson Institute. In order to pay tribute to these vital segments of B. I., I would like to voice a heartfelt “Thank You” to Mr. Leonard Wood who is largely responsible for the quality and quantity of the pictures in this book and to Mr. Hubert A. Mann, our faculty advisor.
