FOR THE FUTURE

An engagement ring is the most personal of jewels,—
worn for a lifetime—always recalling youth and romance.

Won't a ring designed for you alone and from your own
thoughts be more individual and intimate than any other?

You will find our wide selection of completed rings and
unmounted jewels, round, square, and emerald-cut, exceed-
ingly helpful.

When
You
“Step Out...”

You want to look your best—but you have also discovered—that you can’t be the life of the party—if your collar pinches—and your shirt bulges. Lake Waban laundered shirts and collars give you the double assurance of appearance and comfort.

If the “tux” has attended too many dinners—Lake Waban cleaning and pressing will give it a new lease on life—not to mention how it will rejuvenate your favorite ties.

As for your winter coat—or any other concessions you may have made to New England climate—send them here when you no longer need them. Clean and in a special container—at your request—they will defy the best efforts of Mr. Moth.

Opportunities

exist in more fields than that of making money. Our greatest personal satisfaction is derived through the good we do for others.

We all remember the inspiring talk that was presented by Dr. James A. Burns, the president and founder of Oneida Institute, in which he showed us the wonderful good that is being accomplished down there in the heart of the Cumberland Mountains. The Class of 1931 responded by paying the expenses of one student for a year.

Let's not stop here, men. With a little help from each man we can send a student every year.

Make checks payable and, if possible, send in not later than August 1, each year to:

Are You Prepared For The Responsibilities Of Modern Business?

BABSON INSTITUTE

prepares you for business by giving you, through an intensive study of Finance, Production, and Distribution, a thorough understanding of what business IS, what business MEANS, and what business STANDS FOR.

The Institute has shown others the road to success.—Let it show you the way!

Investment Training
For Women

Statistics show that a majority of all women who inherit money eventually lose most of it through poor investments. Likewise by far the greater number of women who enter business fail because they do not understand the underlying principles of correct management.

A young woman may be extremely well educated, have energy and ability, yet be totally unable to take care of her property whether it consists of stocks or bonds, real estate, or a going business enterprise.

To train young women to invest money wisely Webber College was established four years ago as a school of business and finance where young women could secure the proper kind of investment and business instruction.

This institution is unique in being the only school of its kind in the country. There are no formal entrance requirements, but preference is given to students who are at least twenty years of age and earnest in their wish to be prepared for the responsibilities they will incur in inheriting or otherwise securing property.

Incorporated under educational laws as a non-profit making institution, Webber represents a sincere attempt to prepare properly the modern young woman of today who desires to manage her own business and investment affairs safely.
