**Business Men**

use Babson’s Reports as a guide to the trend of fundamental conditions. Based upon Newton’s Law of Action and Reaction, the Babson chart helps executives to profit by past experience, appraise the current situation, and prepare for future tendencies.

Besides interpreting and applying basic statistics, the Reports advise on commodity price trends and opportunities in advertising, merchandising, and credit granting. Practical information and advices are also given on labor conditions, living costs and other topics of timely importance.

**Investors**

find in Babson’s Reports unbiased counsel. These Reports are not concerned with attempts to pick winners or play the short-swings. Rather they offer the safeguards of diversification and long-pull planning. Their appeal is to seasoned and conservative investors.

A feature of the Babson financial service is the Supervised Stock List and the Supervised Bond List. These provide a diversified portfolio of securities,—carefully selected and constantly supervised. Acquaint yourself with this forward step in investment service.

A Truth

Men who instinctively prefer the best are returning to known standards of quality.

There has been so much over emphasis on price the past few years, that quality or rather the lack of it has been almost entirely overlooked. Assured quality, which gives constant satisfaction and long life to clothes, is the soundest economy.

Moderate prices on summer garments of gabardine, tropical worsteds and palm beach cloth — flannel trousers in plain colors and stripes.

Why Investors Are Turning to UNITED Service

During these past months of uncertainty in the Stock Market and in business, more investors than ever have turned to UNITED Service for advice and guidance. They realize that to find profit opportunities in today's markets a deeper knowledge of industries and of specific companies, as well as of basic trends, is needed than any individual can possibly possess.

Tested Through 16 Years

Built upon this broad foundation of information, the UNITED OPINION Method of Forecasting is more than a mere catch-phrase. It is an exclusive, tested method that rests upon the sound premise that the combined judgments of many experts is more dependable than the opinions of any one alone.

Send for Introductory Bulletin, without obligation, and learn how this timely, tested service can help you.
