TUBERCULIN TESTS TO BE GIVEN FEBRUARY 16

The following appeal is present ed by the Babson Globe - News in cooperation with the Babson Veterans' Club and the Norfolk County Tuberculosis and Health Association.

TUBERCULOSIS — Killer of more people than the plagues of 15 and 26 every year in all other diseases of our time. This is a disease which gives no warning to the individual. It can be contracted from the air merely by breathing. So that anyone who carries the disease may be able to infect someone else. The disease does not mean you will be killed or even contact it, just as being in an automobile accident does not mean you will be killed or even injured.

INVESTMENTS TOPIC OF JOB ASSEMBLY

On Thursday, January 22, the Administration and S.A.M. held another job counseling program in the Fore's. The topic for this particular meeting was, "Opportunities in Investments." The two speakers were recent alumni from Babson Mr. Donald Rockwood, Financial writer for Spear and Staff, Washington, D.C.; and Mr. G. Gordon Gatchell, Jr., Stock broker, Merrill Lynch, Pierce, Fenner and Smith.

SECURITY ANALYSES

Mr. Rockwood stated that there are numerous openings available in the security department in the following industries: (1) insurance companies, (2) banks, (3) investment trusts, (4) mutual funds, and (5) brokerage houses. The starting salaries for men going into this field are around $75.00 per week, but there are great opportunities which come from experience. After five years in this occupation the average income is between $10,000 and $12,000 a year. Many men in this field after a few years of experience have become advisory specialists for investment institutions.

Mr. Rockwood said the job function of Spear and Staff is that of mail order house and advisor. The subscribers to this service want advice, and they don't make substantial gains which they would make with other firms. For this reason the sort of business must be alert in the choice and competent men must be hired to oversee a competitive operation in the market.

Mr. Gatchell told of the fundamentals of investments. The main problem is to select stocks which will give the greatest returns on the money invested. One of the surest things in this game is that if you buy the stock of a company which has been in business over 20 years, you will make money in the long run.

REMAINING HOCKEY SCHEDULE DROPPED

The Babson Institute Hockey team announced Tuesday that it was cancelling the rest of its schedule for this year. A team spokesman said that lack of participation was the cause for the action.

The team played its final game Tuesday night against Assumption College in Worcester. At the time of the announcement the team had won one game and lost two.

Director of student activities, Paul C. Stakke, said this was not a permanent dropping of the sport. He said that interest warrants a look to the future, hockey would be returned to the school sports roster.

BLUE KEY

Membership Qualifications

Members of Blue Key are chosen on the basis of the following criteria: Good character and personality, recognized leader in scholarship and college activities, and a cumulative average above that of the all-school average. Active membership consists of male students who are doing undergraduate work in an institution where an active chapter is installed.

FRATERNITIES PLEDGE 75 MEN

We take precautions to protect ourselves from fire, acci-dents and other physical harm, but we sometimes neglect to protect ourselves from nature's diseases. In line with this, the Norfolk County Tuberculosis and Health Association, is cooperation with the Babson Veteran's Club, will administer the Tuberculin Test at Babson on Monday, Feb-ruary 16, at 10:30. All students, faculty, employees and their families are urged to take the test at this time.

Those who participated in the testing program last year will remember that the test is composed of two elements, both equally important. The initial part consists of a minute pin prick to place a clear fluid call

(Continued on page 4)

Hawk Warns Men To Be Alert

Institute Business Manager, James G. Hawk has warned all students to be alert to any suspicious activity on campus. This caution comes as the result of the theft of two caps from a student car last Wednesday night.

On this particular morning, two students noticed what appeared to be strange behavior on the part of two men and noted the license number of the car in which they were driving. The result of this action was that the local police have picked up two suspects and believe that recovery of the lost caps is not far away.

Mr. Hawk said he had asked Student Council President Tucker Miller to announce through S.C. representatives that students should note any suspicious activity on campus and where it is possible to obtain description of, license numbers of suspects. It is imperative that such be done. He stated, "If the students alert, we think we can discourage these thieves, when they know we mean business."

STORY, III

Membership Qualifications

Members of Blue Key are chosen on the basis of the following criteria: Good character and personality, recognized leader in scholarship and college activities, and a cumulative average above that of the all-school average. Active membership consists of male students who are doing undergraduate work in an institution where an active chapter is installed.

Alumni and Faculty Membership

Alumni membership shall be held by former active members who have left the community. Faculty membership may be held by faculty members in the institution in which a chapter is located. Mr. Paul Stakke, Resident Director of Student Activities, is a faculty member of the Babson Chapter. Membership and the right to wear the Blue Key shall be for life.

SELECTION PERIODS

There are three periods of selection during a school year at Babson. In the fall term, only seniors are considered for membership. During the winter term seniors and juniors are eligible for selection, and in the spring term, only juniors are considered.

Once chosen for Blue Key membership, the nephephs are not bars in any manner, and until initiation, cooperate with the brothers in serving the school, and learning the back ground, purposes, and the ser vices of Blue Key. The new members are usually initiated during the last week of a school term.

The Babson Institute’s three professional fraternities have a total of seventy men into pledge ship. The pledges will serve a six week orientation period fol lowing which they will be officially initiated into full membership.

ALPHA DELTA SIGMA

Alpha Delta Sigma, National Professional Advertising Fraternity received the following fourteen men into its pledge class:

ALPHA KAPPA PSI

Alpha Kappa Psi, National Fraternity in Babson, has announced the pledgeing of the following thirty one men:

5000 ELECT REPS TO STUDENT COUNCIL

Student Council Results of the freshman election of permanent Student Council representatives and members of the class council have been announced by De-mond Bolger, President of Blue Key. Men elected on January 22 were:

Student Council Representatives

F. J. David Cade F. D. Mark Dow F. D. Todd Hill F. J. John Neubold F. D. Steve Romany F. D. Maurice Skoler F. D. Council Representative

J. V. John Brocksman F. D. Robert Denko F. D. Erolin G. F. J. David Patenaude F. D. Tod Schawarz F. D. Stanley Whitcomb

The freshmen class has been commended for their active participation in the nominations and elections by Dan Bolger, President of Blue Key.
ON THE STREET
by C.E. Sheppard

I hope that last week's column will maintain the impression that this writer is entirely "bored" at this time. To the best of my knowledge, all of the buying stocks in today's high market are facts laid to be presented. Obviously in any market, no matter how high, bargains can be found. If a stock is bought now the buyer must believe two things: (1) that the stock will not fall very far in a decline (or else he would buy it later at a lower price) and (2) that the potential reward of the stock is high enough to justify the extra risk of buying in a high market. If these two conditions are not met, then it is probably better to "sit on your money." Here are three stocks which fit the outlined requirements.

Kern Corp. Class A Stock

Kern is a small prefabricated home builder located in Georgia Sales and earnings have increased every year for the last three years. In the first nine months of this year the stock earned $1.24, traded on the American Stock Exchange (A.S.E.), current price $95.

American Fidelity and Casualty

Like most casualty insurers A.F.C. has suffered through underwriting losses in the years 1956-58 but it appears almost certain that brighter days are now ahead. If underwriting just breaks even stock will earn enough to retain its former position. Large reserves in oil, gas, and insurance obligate the company to brighten Chaplin's future. Approximate earnings 85c.

Korn Corp. Class A Stock

Korn is a small prefabricated home builder located in Georgia Sales and earnings have increased every year for the last three years. In the first nine months of this year the stock earned $1.24, traded on the American Stock Exchange (A.S.E.), current price $95.

FINANCIAL AID

Financial help is relatively easy to get for graduate work, as one finds financial aid. Those who seek a career in college teaching are usually provided with financial aid. If this is not enough to get him through the last thirty years. By the same token it can be an insidious weapon capable of snuffing out thousands upon thousands of lives annually. Most of these misfits are needless results of mere human negligence. By following a few simple rules of the highway these unsolicited-for tragedies can be easily averted.

The first place to start in our campaign for safe driving is the mechanical fitness of the motor vehicle. Twice as many of these hazards are due to the condition of the motor vehicle than the condition of the driver. A car rolling down a barrel of dynamite is going to cause a lot of damage. Stopping a motor vehicle means stopping with the brakes. The brakes must be properly operated. Brakes must be properly maintained. Brakes must be properly adjusted. The safe operation of a motor vehicle depends on the braking ability. A capable driver is not enough — the operating equipment must also be worthy of safe control.

Now let us turn to the man behind the wheel. Most of us are capable of making a car go but how many of us are capable of safely guiding an automobile? Sure, anyone can step on the gas pedal. The (Continued on page 5)

From The Sidelines —

BY BONNIE SMITH

INTRAMURALS

The first round of the intramural basketball competition is over, and Park Manor South, as expected, is on top with a perfect 5-0 record. What is remarkable about this record is that the closest any of the teams have been able to get is 19 points behind. The competition first round was the Wellesley Flora's perfect 19 points. Aside from South, James they have had only one loss to Bryant when they met with Pub-Col only to lose by a little bit of luck.

For the Wellesley Flora's record, what is amazing is that a lot of people work hard to set up an intramural program, not an instrument of entertainment or amusement, as some wild youngsters attempt to make them out to be. A good driver is intelligent. Being intelligent he will also possess good judgment. This is very important for good driving. To know your car. Know its stop-ping ability in all conditions on the road, and you can handle any situation on the road. The finest composed automobile will not be complete without a competent person in the driver's seat.

TOP ScorERS

As for individual honors, the scoring race is like the team race; one man is dominating while the runners-up spot is for grabs. Dick Duffy has been virtually a one-man team for Masor averaging nearly 23 points per game. Here are the top ten scorers after the first round:

<table>
<thead>
<tr>

ENTHUSIASM HIGH

The turnout and enthusiasm has been very encouraging, and there has been only one forfeit game, that being by North. South, Bryant, Pub-Col and Off-Campus have had enough men for two full teams most of the time. Masor, as said before, has been able to field a team every time just because they have no reinforcements. There has found the same problem in most of their games. These two dorms are two of the biggest on campus, and they should be able to get more men out.

For the next two rounds are run as well as the first round was. Just remember, that a lot of people work hard to set up an intramural program so that the students have something to do in their idle time. Let's have every body take advantage of this opportunity.

HOCKEY TEAM LOSES PAIR

During the past week, the undermanned Babson hockey team lost to Worcester Jr. College and Merrimac by scores of 10-3 and 16-5 respectively. At Worcester, Mike Tymon and Charles Crane were the leading scorers for the team. Although the team scored well, they could not contain Worcester's high flying forwards. The game with Merrimac is a game where the less said the better. Merrimac was just too strong, and Babson didn't have enough men to keep up with them. Neil Lande scored twice and Warren Swim once for the Beavers.

DOOPSTERS LOSE TO BRIDGEWATER

The Babson basketball team lost to a powerful Bridgewater team 84-71 on January 27 at the Bridgewater Gym. Babson trailed at halftime 27-27 and could've quite overcome this disadvantage in the second half. Captain Dick O'Meara was the game's high scorer with 21 points. They will engage in ridiculous games such as "chicken". Cars are a convenient form of transportation, not an instrument of entertainment or amusement, as some wild youngsters attempt to make them out to be. A good driver is intelligent. Being intelligent he will also possess good judgment. This is very important for good driving. To know your car. Know its stop-ping ability in all conditions on the road, and you can handle any situation on the road. The finest composed automobile will not be complete without a competent person in the driver's seat.

ed tuberculin under the surface of the skin. The second part is the reading, which will be done 3 days later. It is particularly important that those who take
the test also have the results read, or the entire thing is wasted.

The result of the test will be one of two things: In most cases, the test will be negative, meaning that your body contains no TB germs. In other cases, there will be a positive result. This does NOT mean that the individual has TB. It only means that you have been exposed to TB at one time or another. Under ordinary circumstances, the body is healthy enough to keep the TB germs from harming the individual, but only the sure way to determine the result in individual case is x-ray the person. In line with this, when the tests are read, all those who have a positive reaction will be given a chest x-ray to determine possibilities of active tuberculosis. There will be an x-ray unit at Babson the day these tests are read or the entire thing is wasted.

In November, filling out the card, reading it on your part may pay bigger dividends than you can imagine. Y'all come!

INVESTMENTS In page 1 broker must have in order to succeed. These include: (1) get along well with people; (2) read widely, not only financial news, but world affairs also; (3) be aggressive, you won't build up business by sitting on your seat. The starting salaries in this field are $8,000 per year. After 5 years the average incomes are 10,000 and up depending on the individual. Mr. John Lynch, Pierce, Fenner and Smith have a 7 month training program for all of its new on-shore personnel attending this program the single trainee receives $850 per month while married man is paid $895 per month. Mr. Getchell also stated that his company always has room for the right man.

Sometime during the coming week you will be approached by someone in your section and asked to fill out a card with the same basic bureaucratic data that people are always asking you for anyway, so please go along with the request, fill out the card, if the card is full, and present yourselves in the Culp s' Bauer between 12:30 and 3:00 on Monday the 16th. And don't forget to come back on the 19th.

Remember that only you, the individual, are responsible for voting that you do not have TB and cannot pass it on to another person. A small effort on your part may pay bigger dividends than you can imagine. Y'all come!
