Swimming

Led by co-captains Amy Carroll and Melissa Hill, the Babson Women’s Swim Team had their best season ever. With a winning record of 9-6, they finished the season in fifteenth place with a tremendous showing at the New England Championships. Fifteen school records were broken, making this year’s team the fastest in Babson history.

The team, along with the Men’s team, made the annual pilgrimage to Florida in January for some intense training. This year they also had the opportunity to host a team from Russia during Winter session.
Baseball

The Babson Baseball team had their share of ups and downs this year as they headed for their second straight ECAC berth. The team started 6-0 in Florida, but then presumably cooled off back up north. The season was highlighted by wins over Framingham State, Suffolk University and the winning of the CAC conference.

The team will be losing six seniors — Tully Cunningham, Mike Feehily, Jeff Couley, Steve Ryan, Sedge Saunders and Rob Stack. They helped lead this year's team to a school record of 20 wins and their fourth consecutive season above .500 (first 4 ever in Babson Baseball history).
