MOTIVATION FOR DRINKING
ANNUAL ESSAY TOPIC
The Intercollegiate Association for Study of the Alcoholic Problem has just announced its 1956 annual essay contest, the theme of which is "Motivation for Drinking."
Any Babson students interested in entering this contest should contact the office of the Dean of Students for details. The awards are open to all undergraduate students.

CANCELLATION OF COMPANIES
Discussed on Thursday
There will be an assembly for all job hunters on Thursday, February 15, at 10:30 A.M. in Knight Auditorium. This is a special meeting called by the Dean of Students to discuss the critical job outlook and to discuss plans for combating the large number of company cancellations.

The Placement Office, the News has learned, is much concerned over the rapid fall-off in job opportunities for June graduates. It is apparently the opinion of that office that with present business conditions there are going to be many June graduates without jobs, June. Suggestions and techniques will be given by Mr. Stephen and Mrs. Rebick for possible aggressive measures which students can take to help offset the lack of interview opportunities that will be another on campus.

GLOBE DEADLINE STILL REMAINS MONDAY AT 4 P.M.
Although the paper has been delivered to you on Wednesday, it is not our regular publishing date. The printer has been told to get two issues a day earlier, but this cannot be expected consistently. At all times, the deadline for all material will be Monday at 4:30 P.M.

WEST POINT HONOR CODE BRINGS MILD RESPONSE
During last week's assembly period, a movie produced for television entitled WEST POINT, was brought before the Babson students and instructors.

The story, sponsored by Those Handsome VAN HUSSER Editor, involved a West Point cadet who saw his roommate "crib" on a test. The junior cadet who saw this violation became a hell person. He was a member of a long standing tradition and it was his duty to report the act; yet, the violation was one of his best friends. Because the responsibility of this cadet had been so great, he used the Point to lose a gymnastic match, and at the same time the orders almost lost his best "gal" because he was unwilling to share this torment with her. It was his duty and responsibility to do the proper thing, and that was to report his roommate to the Honor Committee for the violation.

The solution was reported and the offender was confirmed to the committee of his wrong doing in academic work. The film had a dramatic ending scene with the cadet's parents standing outside the building where the honor committee had been working; the cadet thanked his roommate for "healing" him and presented him to the real facts. He saw his friend in real agony and in that way learned what honor was. He promised his roommate that he would follow the "right path" now that he had really learned.

YEARBOOK DISTRIBUTION SCHEDULED IN SEPTEMBER
In order to present the most complete edition of the Yearbook ever at Babson, the 1956 Babsonian will arrive in September, instead of June. In setting this pre­cedent, both the press and circulation weighed for a considerable length of time. Finally the decision was made to bring the book out in September. After Cappelli (Business Man) and I brought the matter to the attention of the Student Council, they overwhelmingly ap­proved the idea. Following are the main advantages of a September delivery of the Babsonian:
1. Graduation will be in the book for the first time.
2. Honor Day will also be in the book for the first time.
3. All Spring sports will be in the Yearbook. Previously, the preceding year was summarized.
4. All Spring social functions and will also be included. (Carnival Day, Spring Weekend, Senior Dinner Dance, Pope Night, and the Spring time events)
5. There will be customer discounts will be given on the Publisher. This is made possible because he will not be permitted to meet the June deadlines. The Babsonians will be at school in time for September registration. The June graduates will have their copies mailed to them at home. I sincerely hope this new innovation meets with your approval.

Yours truly,
ROBERT KIRSHBRAUM

JOURNAL OF THE STUDENT BODY - No. 14

HALL, CLARK - STAR IN MADAM
Edward Hall '56 and Robert H. Clark '60, have been chosen as male lead in the Winter Carnival show, "Call Me Madam." The show will be presented on Saturday, February 23, at four o'clock.

Ed is from Holland, Maine and spent two years at Bowdoin College. While at Bowdoin, he was a member of the Masque and Groan, and the Middlesex computers, a select social group. In "Call Me Madam," he will portray the part of Consul Constantine, the Foreign minister of the grand duchy of Lithu­ania.

Bob lists his hometown as Booth Bay Harbor, Maine. After one year at Miami of Ohio, he joined the U. S. Marines. Immediately after his discharge, he entered Babson. Bob has worked in summer stock and radio. In "Call Me Madam," he plays the part of one Kenneth Gwynn, secretary to Miss Sally Adams.

As in last year's show, two of Lord's most talented actresses will play leads in this year's presentation. They are Kathy Scanlon and Nancy Curzan. Kathy will play the part of Madam Ambassador, Miss Sally Adams. Nancy will portray princesses Maria of Liechten­burg.

With a cast of seventeen, (the largest ever assembled at Babson), "Call Me Madam" promises to be the best ever at H. 1.

CLASSROOM DESTROYED BY FIRE
The flames covered throughout the room and the smoke reached the second floor of the library. Although there was smoke and water damage in the stock room of the basement, only minor damage was done to a few books and periodicals. In the class room chairs, windows, ceiling and walls, light fixtures, the door, the instructor's desk and chair were severely damaged. A complete damage estimate has not been made as yet.

The fire alarm system which is automatic in its operation proved its worth as a form of protection. The system is actuated by thermostat and the alarm is automatically transmitted to the Fire Department in Wellesley.

It must be emphasized to all the students that the things that need to be done to avoid various fires are not unusual. It requires the cooperation and participation of every student in this institu­tion. The cooperation from any further serious fires is to be depended. Fire safety cannot be observed, by the use of so-called "fire proof" construction. The only true way to prevent a fire from burning is to build a fire proof building. It is the responsibility of each student to learn the proper steps that are to be taken in the event of a fire.

MOODY, ALICE - SINGING AND SPEAKING
Alice Moody this year. Alice has taken every opportunity to add beauty to the campus. This year will be no exception.

"She's a smiling creature, a singing girl." This is how one Babsonian described Alice this week. A true Gardenia Girl, Alice has the ability to put a smile on the face of any student.

"She's a delight to be with and I'm sure all the students enjoy her." This is what another student had to say about Alice. Alice is a true example of what a true Gardenia Girl should be.

"She's always smiling, always friendly," this is how another student described Alice. Alice is a true example of what a true Gardenia Girl should be.

"She's always smiling, always friendly," this is how another student described Alice. Alice is a true example of what a true Gardenia Girl should be.

"She's always smiling, always friendly," this is how another student described Alice. Alice is a true example of what a true Gardenia Girl should be.

PHOTOGRAPHY FOR WINTER CARNIVAL

The Student Council has decided to create a monopoly for themselves. The Student Council is trying to avoid some of the problems created at previous Carnivals. They prevent the student from taking out a permit, and then selling the power of the permit to a professional photographer, and to make sure that there is a photographer at the carnival so no student seems to be truly interested in accepting this job.

CREDIT

Some students have taken advantage of businessmen in Wellesley. They buy on credit, and then do not pay. Not only are they creating a problem for the administration, but they are also creating a problem for the Student Council, the second copy will act as a receipt to the students and will write their name and book price on the inside cover in pencil. The students will then fill out in dupli- cate a statement consisting of book title and price; at the bottom of the slip the student and student council member, in attendance, will both sign the second copy, and the second copy will act as a receipt to the students and the second copy will act as a guide to the student council member for placing to a master list and sales next the day. The day following sales the second will make their second hand purchases.

NEW BUSINESS

1. The Babsonian presented their financial status to the Council, they desperately need ads and boys to get the ads. The business manager presented the letter that was being sent to supplying companies. Letters also are being sent to bankers asking for ads subscriptions.

2. There are where the gym towels disappear to.

3. There was a suggestion that no transfers will both sign. The second copy will act as a receipt to the students and will write their name and book price on the inside cover in pencil. The students will then fill out in dupli- cate a statement consisting of book title and price; at the bottom of the slip the student and student council member, in attendance, will both sign the second copy, and the second copy will act as a receipt to the students and the second copy will act as a guide to the student council member for placing to a master list and sales next the day. The day following sales the second will make their second hand purchases.

4. Women in the Dormitories: The social chairman asked the College President if girls could be in the rooms over Carnival weekend — there was a negative answer. The Council is looking into the matter by seeing the President, and if necessary the Board of Trustees.

5. Women in the Dormitories: The social chairman asked the College President if girls could be in the rooms over Carnival weekend — there was a negative answer. The Council is looking into the matter by seeing the President, and if necessary the Board of Trustees. The students have taken advantage of businessmen in Wellesley. The day following sales the second will make their second hand purchases.

Honors System

1. Has any of the students received letters of official capacity opened?

2. The Judicial Committee is meeting and making progress.

3. To prevent the student from taking out a permit, and then selling the power of the permit to a professional photographer, and to make sure that there is a photographer at the carnival so no student seems to be truly interested in accepting this job.

TICK STUBS

BY GEORGE W. EPPERSON

Tick stubs may be redeemed at the next day's assembly. It might be that the student body does not care either way. It might be that the student body does not desire a weekly newspaper, or a yearbook of high calibre. Most important of all , the Student Council discussed last week's editorial. We expected the Babsonian presented their financial status to the Council, they desperately need ads and boys to get the ads. The business manager presented the letter that was being sent to supplying companies. Letters also are being sent to bankers asking for ads subscriptions.

The Babson students? To some the impression was profound and lasting; to others it was dangerous, but there is always a tradition of honor that we celebrate, tradition of honor that we hold as an asset to the granite nation. But most important of all , the Student Council is going to look at the matter by seeing the President, and if necessary the Board of Trustees.

HOOPSTERS AT GARDEN

Tonight the basketball team meets Boston College Preparatory in the Boston Garden as an added attraction to the Celtics. The game will start at 8:15. Last time Heiron played in the Garden a week ago, they won a thriller 74-70 from Boston Tech.

The following night Thursday, the varsity will play Burdett at home. The game will start at eight o'clock and will conclude the week's action of three games.

Advertising Commission Here

In order for the Globe to be a financial success, a specified amount of advertising must appear in each issue. To date, because of various problems in the town of Wellesley, and the lack of men on the advertising staff, we have not been able to meet this quota. If the Globe is to continue publishing weekly, advertising will have to be substantially increased. The commission offered a student is 16% of the amount the paper is to receive. All students who feel that they may be able to be of some aid, please contact Ray Celis.

PUCKERST AtTRACTION

FOR COMING WEEK

This week the Babson Pucksters have a full schedule — three games, two of which will prove to be very tough. The team has been put through drills by Coach Dick Thomas and have ironed out many of the weak points that showed up in their recent victory over W.P.J.

Tuesday the Beavers take the ice against Merrimack in Lynn. Merrimack is a league team and is composed of all top players, many of whom are college graduates and veterans. Merrimack appears to be the easiest team on the bill this week. However, they will not be easy to beat and Babson will have to work in order to make the score in their favor.

Tonight, the Beavers play one of the toughest games of the season, Harvard J.V. has turned in an excellent record and intend to maintain it. Babson scrimmaged this team after only two practices and was overcome by them. This is a local game and the team will need all the support possible from the student body. Consult the bulletin for time and place.

Saturday the Beavers take the long trip to Brunswick which can result in great loss or disaster. Babson plays here again this weekend. Bowdoin recently turned in an impressive victory over an exceptionally strong Colby College team. This week end is Bowdoin's Winter Carnival which will add more spirit and prestige to both teams as a large turnout is expected. This game will be the hardest fought of the season and Babson appears to be the underdog at the moment. However, with a mighty effort and a few breaks they can win...}

AS I SEE IT

By Pete Buchanan

YACHTS IN THE WINTER

When the harbors have on them a thin film of ice, the northeast gales blow with fury, and it is too cold to face the sea, what is the northern yachtsman to do with his large yacht? One can, of course, always to take the mast down and store it. However, they will not be easy to beat and Babson will have to work in order to make the score in their favor.

The first of these opportunities is in the southern racing season, and the second, is to store the big vessel with a Mr. Dick Bertram.

TO THE RACES

February 1 marked the opening of the southern racing season. The first of this season was the Lipton Cup race. This race has its beginning off the Florida coast, the same state that has so much fame because it has by far more rocket launching pads per cape than any other. This racing season of the south offers the northern yachtsman owner an excellent excuse to travel to the coast of Florida. Here the sun shines continuously off a deep blue-green sea.

The yachts, like some student grades, are getting smaller. In the Lipton race there was one 32-foot fiberglass yawl. Maybe the youthmen don't have the money they once had, but they certainly have some speedy and efficient boats. In this first race it was evident that there was and is some shrinkage in the size of the boats, or ships if you prefer, in the A, B, and C classes. At any rate it was good sailing for the first of these races in the south.

THE SHEED

Mr. Dick Bertram is making many dollars off large boating people these days. He regrets, however, that he is not able to sail more often because of his business. Mr. Bertram has an unique marine establishment. Mr. Bertram offers almost every thing to the yachting man he could want: including insurance, repairs, and a good wet dock — if it can be called that. This wet dock, known as the shed, is a large concrete building which is capable of handling many large yachts. The business world has treated Bertram well. The reason for his success is the constant business recession is because of his new ideas.

In all southern ports, whether they be dry or wet, there is present the damages that occur to ships due to shifting of the water. Mr. Bertram solution was better. Put in the galley sink of each yacht a dehumidifier. This keeps the interiors bone dry and fresh. No one ever thought of something like this before. Well, Dick Bertram is happy and is going to expand to perhaps a dry-dock. Probably in the future boats can have their paint scraped off the bottoms by Bertram's company.

TO BE CONTENT

It looks good for the northern yachtsman to keep his boat in the water year round. If he can afford the time — it would seem that an owner of boats this size could — he can race to his heart's content for the six weeks of racing during the southern racing season. Then too, if he cannot race continuously, perhaps Bertram's shed is a good answer to the problem.
Co-eds In Rooms: First Honor System?

There has been a great deal of talk around here about instituting an honor system. The administration has been one of those groups supporting this idea, even to the extent of including a mandatory meeting for the entire student body to attend. This coming weekend, they will have an opportunity to prove their worthiness of the honor system by allowing the students to have a certain time to permit their duties to visit the individual rooms. This co-ed room visiting plan is not entirely new, as it has proven successful in many high grade schools throughout the East, including such institutions as Wellesley, Smith Colleges, Vassar, and many others. The idea is very simple, it involves leaving the door open and an inherent sense of honor on the part of the student.

In many other schools this on and off room guest idea is not restricted to just a few special week-ends, but is a permanent week-end policy of such outstanding colleges and universities as Dartmouth, Williams, R.P.I., Colby, U. of Maine and many more. If these schools were allowed to do it and have proven that they can handle it as well as they have, it’s time that Babson takes its place with the grown-ups.

The administration has been quite favorably inclined towards an honor system, now they have the chance to prove their position to the students body by setting the first example.

Job Clinic — from page 1

...those students interested in the investment field in the Price Club. Mr. Taylor was in the Army Signal Corp, graduated from Yale in 1940, and has been employed by Pfizer, Weider, Jackson, and Curtis for the past eight years. Mr. Prizotro graduates from the University of Pittsburg Business School, has been in Navy for four years, graduated from Harvard Business school, special has, for the past eight months, been employed by Hyman and Stone.

These men will discuss two very important unions: "What opportunities the investment field has to offer, and "what qualities are companies looking for in young men today."

This seminar will furnish you first class information in the investment field and also give you a chance to ask questions which are important to your future. The Production Assembly has been can­celled ever this is your last chance to attend your last job counseling program.
