Bruce G. Fraser

Roger J. Dumas
Richard L. Etscovitz
Edward Flynn Jr.
Alan Freedman

Name: Andy Holb
Date: 4/29/70
Subject: Psychology 1
F-2
9:30 class.

b) Value of New Debts.
1. \( N_1 = [1 + (0.06)(6/12)] = 1.03x \)
2. \( N_2 = x \)

Setting up the equation of:

\[ 104 + 40t \]

This technique is interest for the first 10 months, but the repayment of the old debts.

\[ p_1 = 0.01[1 + (0.06)(2/12)] \]
\[ p_1 = $101. \]
\[ p_2 = 400/[1 + (0.06)(4/12)] \]

Dante's
Dear Babson Student Body,

I, Dr. Henry Kriebel, am in your class in Acct. (subject) and expect to receive the degree of Retired President in 5/20/74 (B.S. or M.B.A.) (Date of Graduation).

I would appreciate your giving, as soon as possible, to the Office of Career Counseling, a confidential statement of my personal assets, ability, and classroom performance. Your frank, objective evaluation will aid me greatly in securing employment.

Sincerely,

[Signature]

Date: 5/19/73

Did you examine your breasts this month, while you're taking a shower, and your skin is still wet and slippery, begin:

1. Lie down behind the other breast.

2. Place your fingers flat, and gently feel each part of your breast. Feel gently for a lump or thickening. After you've finished one side, do the other side.

3. Continue with a thorough check.
