EDITOR’S LETTER

Returning alumni are amazed at the differences in the Babson campus from their own college memories. I’m sure someday we too will be amazed. Babson has changed a great deal in the recent past. We have tried to give you the results of these changes in the 1975 BABSONIAN. Many new buildings and faculty members have altered the campus; and still it remains a harmony of old and new. Looking at each building tells the story of the people and places that are Babson College.

My sincere appreciation and gratitude is heartily extended to all those on the BABSONIAN staff and our faculty adviser, Jo-Anne Kelly, who have contributed their efforts and talents. Special thanks to the photographers who have caught so many instants during this year.

Sincerely,

[Signature]
