Billy Joel
Class of '85

The future is not for us to foresee, but to make, and make better. As graduates of Babson we are prepared to enter the world’s business environment and use it for the advantage of bettering our own individual environments. Although we are now forging our lives in new shapes and directions, our years at Babson shall not be forgotten as we use the knowledge learned in the classroom at our jobs; and seek a continuance of the friendships made throughout our college careers into our professional careers.
