GOVERNMENT
STUDENT JUDICIAL COURT

During the past year Judicial Court has had to hear only one case. We, the members of the Court, find this very heartening. At this time we would like to thank the Student Body for not putting us through long hours of deliberation.

The Babson Chapter of the Society for Advancement of Management continued to be in the forefront of active organizations on the Babson campus again this year. After acquiring a spirited and hard working group of new members, the Society, under the able direction of President Alan Paul, enjoyed many evenings of interesting and informative lectures by management leaders in industry in the New England area. Highlights of the year included the several banquets, and of course our annual trip to the New York and American Stock Exchanges. SAM hopes to continue to uphold the great traditions of the past years, through its new President, Marty Tass, and again achieve national recognition as the leading collegiate chapter in the nation.

GRADUATE STUDENT ASSOCIATION
BABSON FORUM

Though a relatively new organization, the Babson Forum has developed into one of the most active groups on campus.

The Forum has tried to bring speakers on current events and to supplement the Liberal Arts courses. Due to the narrow-mindedness and petty biases of the Liberal Faculty, the Forum has attempted to introduce to the Babson community a variety of viewpoints.

The year opened with Ralph Nadar, the consumer crusader proposing to establish a Federal Commission to Control Citizens (F.C.C.C.). Following the Nadar program, the Forum worked with the Management Dept. to bring Peter Drucker. Mr. Drucker is an author of many books on management. February brought peacenik Dr. Benjamin Spock. The spring term opened with Mary Wells Lawrence, the president of Wells, Rich and Greene Advertising Agency. She was followed by Barry Goldwater's former speechwriter, Karl Hess. The final program of the year witnessed an attack on the Liberal Establishment from the New Left and New Right. Speaking for the New Left was Gerry Rubin, a member of the Chicago 7. Dana Rohrabacker, head of the California Libertarian Alliance argued for the Right.
SPORTS CAR CLUB
Babson Wives Club
The B. O. C. had an extremely successful spring term as a new organization on campus. It is the only organization that can truly claim 100% participation in all activities. Led by President Bill Greenspan, the group left for its initial outing on May 29th. Next morning they rose at 7:00 A.M. (!) and prepared for the actual climb. They had chosen to climb Mounts Lincoln and Lafayette of the Franconia Range in New Hampshire. Thanks to a cleverly laid trap by the Dean, they got lost after 100 yards. Fortunately their chief scout, AP, found the trail again and the rest of the trip was easy. They even managed to catch some rays on top of Lafayette. The members of the expedition were Bill Greenspan, Alan Paul, Peter Feldman and Jon Kurtz. The returning members hope that they can keep the club alive with another active year beginning in the fall.
