Murray Memorial Award Being Offered By ADS

The Coleman Chapter of Alpha Delta Sigma, in cooperation with the Advertising Club of Boston, is sponsoring the first annual Robert J. Mullay Memorial Award Contest for the best advertisement prepared by a New England college student, for the purpose of a contest is to recognize creative advertising activity among college students.

The contest opens on March 14th and closes on May 14th. The entries, to be held at the conclusion of the contest, will be judged by New England advertising agency and teachers or advertising opportunity to appraise students work. Entries will be judged on the basis of originality of the approach to the problem, the copy writing, and the effectiveness as a selling instrument of the copy and layout.

The first prize, the Murray Memorial Cup, together with second and third prizes and honorable mention awards, will be presented at a dinner on May 26th.

The contestant may design his advertisements for any product or service and may utilize any medium so be desired.

1. Any size advertisement may be used, but it must conform to the actual scale of the medium employed.

2. The copy and the name of the medium must be typewritten on a separate sheet of paper accompanying the entry.

3. The entry may send an unlimited number of entries.

4. Entries should be securely wrapped to avoid damage not later than midnight, May 14th, to Brooks E. Hall, Chairman, Murray Mullay Memorial Award Contest, Alpha Delta Sigma Fraternity, Babson College, Babson Park, Mass.

Greater Boston Council Formed

The Greater Boston Student Council meeting held at Babson Institute on Saturday, February 10, marked the beginning of a permanent organization for the coordination of Boston colleges on the eastern seaboard. This is the first such organization to be formed in a major city and the Greater Boston Student Council of the Institute of Technology, Boston University, Northeastern University, and Northeastern University. It has been set forth as follows: "To provide opportunity to discuss problems common to student government in the Boston area; to serve as a clearing house for information; to provide means of cooperating in the scheduling of social events; to aid mutual enterprises; and to promote cultural understanding in the broadest sense among students.

William Mitchell, Massachusetts Institute of Technology; Dr. Raymond Evans, Wellesley College, was elected to serve as Co-Chairman of the Council. Al D'Amico, Northeastern University, is to act as Executive Secretary.

It was announced that the Inter-collegiate Symphony Orchestra, organized by Sam Adler, will present three concerts of the works of classical American composers. The first concert will be given in the early part of April.

The Student Council will broadcast student programs over two local stations was also agreed upon with the possibility of using short-wave to present foreign countries with ideas of our educational life and studies. A committee of representative of the Massachusetts Institute of Technology, Boston University, and Northeastern has been set up to investigate the equitable distribution of available hockey for Boston's colleges.

A recent meeting announced that a Social Events file has been prepared, listing the bands, hotels, rooming houses, and variety acts planned in Boston and their prices. A Social Events file will be available at the all-schools week to be prepared to avoid conflicts. Some projected events are also investigated for future study.

The 67 representatives from 30 schools who were shown the map by Dr. Winkler and thus were served an exceptionally good meal in the Babson Dining Room.

The City of Culture again leads the New England colleges with ideas of our educational life and studies. The Student Council has been set forth as follows: "To provide opportunity to discuss problems common to student government in the Boston area; to serve as a clearing house for information; to provide means of cooperating in the scheduling of social events; to aid mutual enterprises; and to promote cultural understanding in the broadest sense among students."

Commodity Markets Needs Speculation

Mr. William McCarthy, Commodity Manager of Merrill Lynch, Pierce, Fenner, and Beane in Boston told the Finance Club at its recent meeting that the commodity markets could not function without speculation.

He stated that the activities of the speculator cushions the losses of the farmer in a poor selling market and cushions the losses of the eventual consumer in a poor buying market. The government tries to play a just role in the commodity market. Mr. McCarthy explained how the government would close the markets immediately preceding and following the issuance of a governmental report regarding crop conditions and expectations that would affect prices. This makes it practically impossible for investors or fast operators to take any price advantage over the slower, less-informed operators. He stated that in the cases where government insiders had been indicted for fraudulent practices in the commodity markets they had refused advance information on allocations and foreign commodity subsidies.

Mr. McCarthy traced the transactions involved in commodity trading from the planting of the crop to its final use in the mills. He discussed the long-term phases and futures that are used in the raw-sapidity re-vegetation.

Picture Policy Changed By Beaver Editor

The BEAVER, due to its desire to represent everyone on the campus equally and budget limitations, finds itself necessary to change its policy concerning the printing of pictures in its forthcoming issues.

Of necessity, the new policy will be to share the expense of the cut equally; that is 50 per cent of the cost of the cut will be charged for any picture printed by the BEAVER.

Any request made to the BEAVER for a picture to be printed by any organization on the campus including the administration will carry this charge. Faculty members and staff of the Institute will be considered a part of the administration.

Faculty Wife Meets

The monthly meeting of the faculty wives will be held at 3 p.m. with entertainment in the form of a Kentucky Mountain music program. The committee consists of Mrs. Philip Goodhue, Chairwoman, Mrs. Hamlin, Mrs. Alexander McWhorter, Mrs. Frederick Link, and Mrs. Bernard Graver.

Senator Richardson will have special appeal to the students at Babson due to the fact that he was formerly a retail market merchant before his election to the Senate. With this in mind, Senator Richardson may utilize any background for his public life, he will spend the coming week business-man's point of view on the subject. The 20-20 Tie in the Senate.

This 20-20 Tie situation came about in the 1944 elections when 20 Democrats and 20 Republicans were seated in the Senate. The problem arose as to which was the majority party, and each party should assume control of the Senate. It was decided that if the joint final tie was evenly divided and that, for the first year, a Democrat should serve as speaker. If the tie would become a Democrat, it would become a Republican, and the Speaker would become Speaker-in-Chief. Over 100 ballots were cast before a final vote was finally brought about. It was decided that the joint final tie would be evenly divided and that, for the first year, a Democrat should serve as speaker. If the tie would become a Democrat, it would become a Republican, and the Speaker would become Speaker-in-Chief.

Senator Richardson is to serve as the speaker next year.

The 20-20 Tie situation has become the subject of much political discussion in the nation at the present time. It demonstrates one of the weaknesses of our Constitutional Government may be overcome by cooperation and compromise.

Senator Richardson, a Harvard College graduate, has served on the Massachusetts Senate since 1937. Previously he was active in Winch- ester politics and was a member of the Board of Appeals, the Planning Board, and the Town Meeting. He is at present a Town Meeting member.

Dr. Edward B. Hinkley, President of Babson College, will introduce the speaker. All Babson women are cordially invited to attend. Refreshments will be served at this all-campus meeting.

Outing Club Will Face Big N.E. S.C. Teams

This weekend the Babson Outing Club ski team again takes to the slopes in an all-star affair with the member teams of the New England Ski Council for a track in the East. The Paul Revere Ski Area which houses the New England Ski Council. The race, a downhill slalom, is combined with the Cross-Country held on Jackson, New Hampshire's Thorn mountain.

The ski team members are making careful preparations for the weekend. The team is taking a neoprene composite to the bottom of the hill. The team has purchased a pair of seven-foot, six-inch skis, and a pair of ten-foot, six-inch metal skis. Ted Logan is running close to keep his legs in trim; Roy Beaver is putting on a 100-pound weight and is doing short, fast, and long runs to strengthen his legs. Ted Logan has been training for the track meet, and John Mac- kay has been "shooting" track for the old team. The team is making really good progress, and the Outing Club will be honored on Tuesday, March 8, with the Republican Tie, the Honorable Harris S. Richardson. The meeting will be held at 7:30 p.m. in the Cup 'n' Saucer.

Mass. Solon Speaks On Senatorial Tie

Babson Institute will be honored on Tuesday, March 8, with the Republican Tie, the Honorable Harris S. Richardson. The meeting will be held at 7:30 p.m. in the Cup 'n' Saucer.

PMS Leading

Park Manor South has taken the lead in the Pynchon race again with two more victories in the basketball league. South now has a total of 211 points. Bryant has moved into second spot with 328. Off Campus South and Bunting are tied for third spot with a 278 total.

Staff, Students Hit Sick List

Two members of the Institute staff and two members were on the sick list last week.

A student was taken to the hospital when she became the victim of a nervous attack. Miss Delmar, insurance nurse, uncovered the trouble and referred her to a specialist. It is reported that they are both recovering satisfactorily at the Newton-Wellesley Hospital.

Two faculty members were removed to the Baynes Memorial Hospital. Miss Dodge, who was suffering from a nervous condition, was removed to the Baynes Memorial Hospital. Miss Harper, who was suffering from neuritis, was also removed to the Baynes Memorial Hospital. It is reported that Harper is seriously ill.
Our Mutual Enterprise

Cooperation is a word which can cover a multitude of virtues.
When I speak of the necessity for co-operation in "our mutual enterprise" I have a very definite idea in mind, and I hope it agrees with what the word means to you.

When a mass of iron filings are dumped on a sheet of glass they are completely unrelated and un-ordinated. If now a bar magnet is brought near the sheet of glass or paper the filings immediately arrange themselves according to the lines of force running in concentric curves from the two ends or poles of the magnet. The filings are perfectly aligned, ordered, and co-ordinated. This is what we want at Babson Institute. The filings have no individual purposes of their own. They cannot hedge from the lines of magnetic force.

A boat under full sail is to me one of the most striking sights along the coast. Most interesting perhaps to an experienced sailor is the delicate balance of forces whereby the rude and uncontrolled pressure of the wind is harnessed to push the boat through the water at the will of the skipper. Each stay and shroud and fails and spars carries a certain tension and responsibility. The success of the whole enterprise can be destroyed by the failure of a single rope or block. Working together, the various elements of a sail boat create an amazingly efficient yet beautiful entity. This is still not what we aim at--Babson Institute--for the sails and the ropes and the spars do not intelligently control either their own destiny on the voyage of the ship. Their contribution to its success or failure is an unconscious one.

When you hear an orchestra tuning up, discordant, unrelated, haphazard,-scrapes of melody assail your ears, but when the conductor takes up his baton a harmonious symphony pours from a hundred different instruments. He is not ordering them as the magnet, ordering the filings. Nor are they, however gracefully, serving as caretakers, looking for "red tendencies" or "Communist elements" in NSA, for they can, of course, be found, but the only way such "elements" can be kept from any group is to force them out, not sit back and do nothing.

For Babson to join this national students group, would be the best possible attitude for the student group which now seems to prevail here, however, means responsibility and a little work, which I'm afraid, we are actually afraid of. Sincerely,

President Student Council

Proctor Coffin

Communism Vs. Christianity

The Philosophy Club has recently sponsored the club's critique of Christianity, which the President of the club declared that "Christianity is the opiate of the people.

In the community's theory, religious doctrine is the expression of society's interests. The Communists believe that the discrepancy of religious doctrine and the Christian belief of the oppressed class.

The Philosophy Club members answered the challenge by stating that though both communism and Christianity uphold the same choice principled on the difference between the two lies in the community's dehumanization and debility of God and Jesus Christ.

The Philosophy Club will be concerned with "How Christian dare you be?"

If you should visit the American University located in the outskirts of Washington, D. C. you would probably find petite, brunette Barbare Hall. Babe is a junior majoring in English at the University. Brucks Hall, her brother, maintains that her interests are varied and far flung but among the major ones are swimming, dancing, reading, bridge, the Delta Gamma Sorority and modeling. Recently Babe was voted a campus model for "Munich Times," an Eastern college magazine. She has our vote too--any day at all! Christianity upholds the same choice principled on

In The Stands

By BILL McGRATH

Only twelve basketball games remain to be played in the intercollegiate basketball season. The Babson Men's Basketball Team has won 10 of its 12 games, with a loss to Newbury on Saturday. The win over Wellesley was Babson's 100th all-time victory.

A ping-pong tournament will be held on Tuesday, March 15th, starting at 1:30 p.m. The place: Peabody Room. All students who are able to play at that time should do so, and those who come later will play in separate brackets. The first bracket will start at 3:15 p.m. No players will be allowed to play with the same person or any other former opponents.

The Redmen tournament is progressing favorably. At this writing the following men are in the running for the singles crown: Wanfried of OCF, Ross and Copley of Council and Intramural Council as runners-up. The latest victim of the school council was Coleman South, who fell before the mighty PFH team by a 46-17 total. The only man to fall to the hoop for South was Bill Vogel, who doubles as waterboy for the team. The T-Man. as Vogel is known to his friends, just could not find the range it seems. Perhaps he will try a new shot.

In the future we will adopt a policy of having as many names in the plans of these two councils, officials in all sports, and student council as non-voting members. In this way we first entered the school, namely Ingraham, Conze, Gordon, Piragas, Ross and Copley.

CS In 43-17 Win

Coleman South won their second game of the week on Friday by a 64-47 total. The team was led by Bill Rivers, who scored 27 points. From here on in it was just a matter of how the allotment of funds to the Babson Varsity Basketball Team should not leave the campus, but will be awarded a letter and sweater to lead 44-25. From this score the Green and White had surged in the scoring column. Dave waved the crowd with his newly-perfected over-hand hook shot, a study of Ed Killian, swishing the ball through the goal on ten different occasions, plus one added assist.

In the final game of the schedule, played against Oxford last Friday, our boys succumbed to Oxford's record 20 points, and blew a 9-point lead, dropping the game with the final score of 39-84. Stanley had the run with a 6 and 4 record highlighted by the top-heavy score of 63-23, the boys gained sweet revenge, not in the lineup was big Frank Harris, from almost half-way out, by Oxford.

OC Seniors Win Bowling Honors

The Off-Campus Seniors wrap up the bowling season last Wednesday night at the Wellesley Bowl, 27 Chestnut Street. The Seniors won every match in their battle to the crown. Chance had the highest average over the five match series ending the year with a 299 point average. Dvon Allen was second for the team averaging 166 pins per game. Drew Terry qualifying with Russ Briggs with 94, and Art Reuber with an average of 48 were the other members of the team.

Bird Sanctuary Activity Report

The activities of the Bird Sanctuary at the Babson College campus field were varied during the year. The sanctuary, which is situated by Mr. Babson many early days, was found to be very profitable and enjoyable to many bird clubs, museums, schools, and nature groups throughout the area. Mr. John Wilson, Director of the Bird Sanctuary, has just submitted his annual report for 1948 in Babson.

The following excerpts of group activities in the Bird Sanctuary are from the report:

A local group of bird enthusiasts met at the Park early on May 9, eleven persons, for a bird walk. The walk was just getting into full swing, and 48 species were listed including: Cardinal-winged sparrow, yellow-tailed cowbird, Lincoln sparrows, white-breasted nuthatch, red-tailed hawk, Canada warbler, Tennessee warbler, partridge on oats, wood duck, laughing gull (flying over), redstart, a great wave of butterflies near Radio Meadow, meadowlark, and hermit thrush.

The Second International Bird Conference is a large annual conference. The Third Conference is going to be held in July. The Fourth Conference is going to be held in the fall. The Fifth Conference is going to be held in the spring. The Sixth Conference is going to be held in the summer. The Seventh Conference is going to be held in the winter. The Eighth Conference is going to be held in the autumn. The Ninth Conference is going to be held in the spring. The Tenth Conference is going to be held in the summer. The Eleventh Conference is going to be held in the fall. The Twelfth Conference is going to be held in the winter. The Thirteenth Conference is going to be held in the autumn. The Fourteenth Conference is going to be held in the spring. The Fifteenth Conference is going to be held in the summer. The Sixteenth Conference is going to be held in the fall. The Seventeenth Conference is going to be held in the winter. The Eighteenth Conference is going to be held in the autumn. The Nineteenth Conference is going to be held in the spring. The Twentieth Conference is going to be held in the summer. The Twenty-first Conference is going to be held in the fall. The Twenty-second Conference is going to be held in the winter. The Twenty-third Conference is going to be held in the autumn. The Twenty-fourth Conference is going to be held in the spring. The Twenty-fifth Conference is going to be held in the summer. The Twenty-sixth Conference is going to be held in the fall. The Twenty-seventh Conference is going to be held in the winter. The Twenty-eighth Conference is going to be held in the autumn. The Twenty-ninth Conference is going to be held in the spring. The Thirtieth Conference is going to be held in the summer. The Thirty-first Conference is going to be held in the fall. The Thirty-second Conference is going to be held in the winter. The Thirty-third Conference is going to be held in the autumn. The Thirty-fourth Conference is going to be held in the spring.
