Why Babson's is Personal
Investment Service

Your investment problem is as distinctive and exclusive as your fingerprints. Without knowing your individual needs no one is qualified to recommend any security to you.

That is why Babson's Personal Investment Service surveys your estate and then gives you a plan and program that fits you and the current economic situation.

Babson's also gives you broad, risk-reducing diversification. In addition, our exclusive Color-Border Report system gives you day-by-day supervision of your registered securities — you receive immediate and personal advice when a switch is advisable.

And, very important, our plan provides for systematically shifting common stocks into bonds, high grade preferred stocks and cash as common stock prices rise.
