A Financial Advisory Service Looks Ahead!

During 18 years of business and financial forecasting UNITED Service has proved the soundness of its unique method of analyzing, checking, and weighing facts and forecasts from all reliable sources—and then moulding the result into a summarized UNITED OPINION. With recently increased Staff and building, this Boston organization now serves business men and investors in every state in the Union and in 28 foreign countries from Cuba to Japan.

ADDED FEATURES IN 1938

This year UNITED Service is enlarging its Research and Field Survey activities. It offers you the facilities, experienced personnel, and organized knowledge so essential to successful investment management today.

HOW THIS SERVICE AIDS THE INVESTOR

First, by securing and furnishing accurate information; next, by summarizing the UNITED OPINION of all leading authorities; finally, by aiding clients in the selection of individual securities to fit their needs.

UNITED BUSINESS SERVICE

210 NEWBURY STREET, BOSTON, MASS.
Especially for Men . . .

Last year over 200,000 shirts were Lake Waban Laundered. Lake Waban Laundry’s Shirt Department is an outstanding example of production team-work. Its well-trained “crew” can turn out 75 perfectly ironed shirts an hour . . . over a shirt a minute.

This is more significant when you know that there are six distinct steps in the proper ironing of a shirt . . . all requiring expensive, specialized equipment.

As a student of business . . . you will be interested in production figures . . . but you also know that personal appearance scores heavily in making that important “first impression.”

If you have not yet made Lake Waban Laundered Shirts a habit . . . plan to enjoy them now as a new adventure in being well-dressed.

Business Men

use Babson's Reports as a guide to the trend of fundamental conditions. Based upon Newton's Law of Action and Reaction, the Babson-chart helps executives to profit by past experience, appraise the current situation, and prepare for future tendencies.

Besides interpreting and applying basic statistics, the Reports advise on commodity price trends and opportunities in advertising, merchandising, and credit granting. Practical information and advices are also given on labor conditions, living costs and other topics of timely importance.

Investors

find in Babson's Reports unbiased counsel. These Reports are not concerned with attempts to pick winners or play the short-swings. Rather they offer the safeguards of diversification and long-pull planning. Their appeal is to seasoned and conservative investors.

A feature of the Babson financial service is the Supervised Stock List and the Supervised Bond List. These provide a diversified portfolio of securities, carefully selected and constantly supervised. Acquaint yourself with this forward step in investment service.

Quite naturally it is pleasurable to state that the "BABSONIAN" is a product of the Washington Press of Worcester, and has been for several successive seasons.

And, too, numerous other Colleges have also found that our organization is well-equipped to incorporate into their Annuals the effective arrangement of pictures, decoration and typography necessary to make them appealing and distinctive.

A suggestion — When you are ready to start work on your next Annual, consult with us. And, to the Graduates, we extend a cordial invitation to use the facilities of this modern Printing Organization in connection with the new business you plan to undertake.
