An Ideal Protection
at Low Cost

Wherever there are highways you will see the State Farm emblem and coast to coast representation. Automobile insurance with a responsible company is absolutely essential. It may prove as important as your whole future in case of a serious accident.

The Good Earth Turns Gangster!

MOTHER EARTH. Warm, rich, nourishing source of ever-continuing life!

And yet, in the form of dust and dirt and grime, it scatters a machine-gun fire of destruction on man-made things, robbing them of beauty and usefulness.

No one, perhaps, has paid more tribute to the racketeer of dirt than the owner of commercial trucks and vehicles. Who would help him reduce this toll?

Du Pont did. From the same laboratories that produced Duco came a new finish—Automotive Dulux. Its extraordinary wearing qualities, its resistance to dirt, its longer-lasting beauty, make it the outstanding finish for commercial motor vehicles.

This achievement is but one of many others in the history of Du Pont. In their fight against the elements and other forces destructive to finishes, Du Pont chemists have been responsible for virtually all the major developments in the improvement of finishes during the past ten years.

Consider these: Duco for passenger cars. Dulux Marine Finishes for boats. Brush Duco and Paints and Varnishes that provide beauty and protection for the home. Dulux Mill White for mill interiors. Du Pont Finishes for radios and washing machines, dynamos and oil derricks.

Everywhere you go, and nearly everywhere you look, you see a Du Pont finish meeting a specific problem in industry or in the home, doing a service.

A Distinctive
Sports Garment

It is not difficult to make sports clothes that are smart. And it’s easy enough to make them comfortable. But to produce a combination of style and ease, that is the test of a tailor’s art.

You will find distinction without sacrifice of practical service in the outdoor garments we tailor—and at prices that will pleasantly surprise you.
