BUSINESS MEN

use Babson’s Reports as a guide to the trend of fundamental conditions. Based upon Newton’s Law of Action and Reaction, the Babson-chart helps executives to profit by past experience, appraise the current situation, and prepare for future tendencies.

Besides interpreting and applying basic statistics, the Reports advise on commodity price trends and opportunities in advertising, merchandising, and credit granting. Practical information and advices are also given on labor conditions, living costs and other topics of timely importance.

INVESTORS

find in Babson’s Reports unbiased counsel. These Reports are not concerned with attempts to pick winners or play the short swings. Rather they offer the safeguards of diversification and long-pull planning. Their appeal is to seasoned and conservative investors.

A feature of the Babson financial service is the Supervised Stock List and the Supervised Bond List. These provide a diversified portfolio of securities,—carefully selected and constantly supervised. Acquaint yourself with this forward step in investment service.

A Reputation Founded on Reliability

The UNITED Business and Investment Service was organized 19 years ago with the sole object of rendering to business men and investors an accurate, dependable, and comprehensive forecast service.

In the belief of its founders, there was real need for an organization which would not be merely another group of experts publishing their own opinions — but which would analyze, check, and weigh facts and forecasts from all recognized sources — and then render a definite summarized UNITED OPINION.

Through the succeeding years the United Service has proved its value — has gained for itself an outstanding reputation for reliability, accuracy, and profit-making for its users. It now serves more individual investors than any other investment advisory service in the country. If you are not already familiar with UNITED Reports, just drop us a line and we will be glad to send you the Service on trial without charge for one month as a test of its value.
