“Perhaps the most valuable result of all education is the ability to make yourself do the thing you have to do, when it ought to be done, whether you like it or not; it is the first lesson that ought to be learned; and however early a man’s training begins, it is probably the last lesson that he learns thoroughly.”

THE BABSONIAN'S REPORT
PROGRESS AND GROWTH

Six Sections       June, 1950       Vol. 24; No. 1

Set in the style of the famous "Babson's Reports", the 1950 BABSONIAN makes its report to the student body on the Progress and Growth of Babson Institute during the past year. To compile a complete report would require several editions. Thus it is possible to cover only the highlights of a momentous year in the hope that at some future date these personalities, pictures, and words may serve as a stimulus to the memory in recalling years at Babson Institute.

Within the leaves of this volume may be found the students, organizations, faculty, and Administration—in short, the inspiration and purpose for this work. Also respectfully enclosed within these covers may be found some of the traditions of the Institute which have come to have such an integral part in the atmosphere of college life.

The men who are pictured in this book are not only men who are striving for education—they are the future of America. Those who lead now during this preparation for life must continue to be the bulwark of this country in times to come.

These halls of learning hold much more than can be derived through the content of our text books. Of major importance to the students is one course in which no units are assigned nor grade is given. This course is the art of living with one's self and neighbor and the realization of the value of a religious life. Mastery of this subject entails the application of principles and ideals learned through education and practice.

Throughout this book one fact stands forth: the astonishing expansion made by this Institute of higher learning since its founding in 1919. This Progress has been especially rapid in the present postwar era. With her roots strongly embedded in the firm foundation of the past, Babson Institute will continue to prove its greatness as it moves forward in its drive for Progress and Growth.
DEDICATION

BECAUSE you have served us as Advisor during our Senior year...

BECAUSE you have been a constant inspiration to your fellow associates and to your students...

BECAUSE you have steadfastly worked for the betterment of the Institute’s name...

BECAUSE your friendship has been placed at the highest value as a result of your straightforwardness and sincerity...

BECAUSE you have ably conducted the activity and program of your department so that it has achieved the maximum in results...

BECAUSE you have been a true friend and leader to all...

WE, the graduating class of 1950, hereby dedicate this BABSONIAN to you, Mr. Henry A. Kriebel, and herewith inscribe upon this page a small measure of our admiration and respect.

GENERAL MARKET OUTLOOK—The current furor regarding federal aid to education has focused the attention of canny investors on certain business education stocks. The old reliable blue chip stocks such as The Wharton School, Harvard Graduate School of Business Administration, and University of Michigan Graduate School of Business Administration continue to maintain high dividend yields and a reassuring stability in times of fluctuating prices. I should like to call the attention of my investment seeking readers today to a newcomer in the business education field which has come ahead rapidly during the last three years and is looking increasingly attractive to the investor interested in long range developments and a high rate of permanent income. I am referring to Babson Institute Preferred Stock.

HISTORY—Though the Institute was founded thirty years ago, it remained a relatively small operation from the standpoint of personnel and output up to World War II. However, the foresight of its founders had wisely provided for considerable future expansion of plant and equipment which, through wise buying, finally developed into a 340 acre campus with 16 modern buildings. Meanwhile, the company was undergoing a slow but systematic internal improvement of production techniques, yielding a more and more efficient product. A shortage of qualified raw material, plus certain weaknesses in the distribution set-up, kept the total volume of sales small during the years before the War. During 1943-1945, however, the Institute was retooled for war purposes and turned out a surprisingly large quantity of well-trained, able, Navy supply officers, on a thoroughly up-to-date production line basis. A Navy plaque of commendation indicated the high quality of operations at Babson Institute during that time.

POST-WAR DEVELOPMENTS—The retooling for civilian production began with a thorough reorganization of the production line in 1945 and a tremendous expansion of production facilities to meet the backlog of civilian orders. New management plus new personnel on a very much enlarged scale caused the output to shoot up to 400% of its pre-war maximum within a very short time. Because of improvements in production techniques and a more systematic production control, the quality of the product likewise was tremendously increased, resulting in opportunities to supply new markets on a nationwide basis.

FUTURE PROSPECTS—These new markets have been successfully developed by the adoption of vastly improved marketing procedures backed by aggressive advertising and careful research. Up-to-date public relations techniques now operating have brought most gratifying public demand for the new post-war products, though there is a steady demand for pre-war models. The company is in a strong financial position with steadily mounting assets. Turnover in personnel is at a low level. In the increasingly competitive market for trained junior executives, the Babson trade-mark is coming to mean “practical business training” to an ever wider circle of satisfied customers.
Religious Activities

BABSON HOUR

Dividend: unlimited  Yield: unequaled

This product is outstanding in its class. Not only is this monthly Sunday evening service the center of religious activity on campus, but it also affords the investor an opportunity to participate in informal discussions with Mr. Babson and Dr. Hinckley.

Held in the Cup 'n' Saucer, one of the major purposes of this hour is to encourage the student to think for himself and to develop both his Self Mastery and his Self Control.

Of ourselves we can do nothing; with God, all things are possible.

Student Christian Hour

Dividend: untapped  Yield: self-determined

Since its beginning in the Fall term, this investment has continued its surge to the top toward its potentially high position on campus.

This non-sectarian service is held every Monday night in the Chapel in Park Manor. Sponsored and supervised by students, the opening theme for the year was appropriately one of great significance, "Christianity and Communism".

The management of the Student Christian Hour is firmly invested in a capable board headed by G. Dean Scott as Chairman with Dino Casali, William F. Frazier, Edward J. Fuller, and William N. Talmers serving as board members. Dr. Bernard C. Graves, Chaplain, serves in the capacity of board consultant. Student participation is thus felt in the spiritual activities of the campus.

"When our nation was founded, it drew its strength and being not only from great political and social truths, but from spiritual convictions . . . from a deep and abiding faith in Almighty God . . .

The churches call upon you to help rekindle the fires of our faith . . . to make that faith an active glowing part of your personal life . . . even taxing yourself for the spread of that faith. The world hungered for spiritual strength!"

—Herbert Hoover
Founders' Day

The third annual Founders' Day was celebrated on Thursday, November 10, 1949, in Richard Knight Auditorium. Thus it was that the student body, faculty, Administration, and friends were able to take advantage of this unique opportunity to honor the founders. The program this year revolved around the educational and spiritual contribution of Mr. and Mrs. Roger W. Babson:

BABSON INSTITUTE—Over the long run, steady Growth and rapid Progress, Mr. Babson concluded that this constituted an excellent investment and one which is safe in both bull and bear markets.

WEBBER COLLEGE—Mrs. Babson heartily recommended this investment because of its clearly defined foundation in both spiritual and material education.

UTOPIA COLLEGE—This new Mid-Western product shows promise of early maturity according to Mr. Gordon M. Trim.

GRAVITY RESEARCH FOUNDATION—Mr. William R. Essen recounted the principles, aims, and Progress of their long-range investment.

OPEN-CHURCH ASSOCIATION—The Growth of this important spiritual movement and its impact upon the Western Hemisphere were discussed by Mr. Austin H. Fittz.

JOHN E. MILLEA SWIMMING POOL—This gift of Mr. Babson to the Institute in tribute to Mr. Millea represented an investment in both Progress and Growth. On hand to receive the honor was Mr. Millea, a former member of the Babson Institute faculty.

Presenting the harvest of grateful thanks and genuine appreciation to our founders were Dr. Edward B. Hinckley, President of the Institute; Mr. Eugene B. Sanger, President of the Alumni Association; and Mr. Robert C. Shaw, President of the Student Council.

As in the past, the program was recorded in its entirety and made a permanent part of the Babson Institute archives.

The opening and dedication of the John E. Millea Swimming Pool this past Fall has added another milestone in the Growth of Babson Institute and a new look to the campus. It has also marked the culmination of over three years of work since this gift of Mr. Babson was first announced in September of 1946.

After a period of contract negotiations, construction of the pool was started in the Fall of 1948 and was completed in the late Summer of 1949. Although the pool, one of the most modern in New England, was in use as early as September, it was not formally dedicated until Founders’ Day, November 10, 1949.

The second section of the pool which will contain the showers, lockers, and other facilities will be built in the not too distant future.

On Founders’ Day, the key to the pool was given to Colonel Millea, formerly an instructor in Production at Babson and later Dean of the Faculty, by Mr. Harry Gulesian, the architect.
PREFERRED STOCKS FOR PROGRESS AND PROSPERITY

After three years at Babson Institute, SENIORS in their traditional garb of mortar and gown will soon receive their diplomas at Commencement exercises. The pleasant, sometimes carefree life of school is now behind. The Future? It holds a world of problems and opportunities for the men who will accept the challenge.

Many Seniors will no doubt wonder if there will be any practical use for some of their courses. Others will wish that they had applied themselves a little more intently to their studies. Things that once appeared essential are at this time almost insignificant. Some have found that their cup of coffee is now an absolute necessity. Remember that election in which your man lost?—It somehow doesn’t seem quite so important now. Proud of the many things that they have done, but a little disappointed that more was not accomplished, these Seniors are the exports of knowledge of Babson Institute.

Although the Class of 1950 did not organize until their final year, they achieved more in that Senior year than many classes accomplish during their entire period at college. Led by an extremely capable group of officers, exceptional Progress was to be noted in such fields as the Student Placement Committee, Senior privileges, and Senior social affairs.

The following is a chart depicting the Growth and Progress of the CLASS OF 1950 in its years at Babson Institute.

Growth Stocks for Capital Gain

This year, the JUNIOR CLASS displayed the potentialities which the freshman aptitude tests reportedly indicated were possessed by this group. After an election which was marked by the amazing fact that the eventual winner for the office of President was the only candidate who failed to do any active campaigning, the Class of 1951 settled down to an eventful year.

Leading off with a stag affair to welcome the Utopia College students in the Fall, it was apparent that the Junior’s watchword would be “Growth”. Other activities of note included an informal dance at the University Club and a spring picnic. This highly profitable year also witnessed the final ratification of the class constitution.

The officers who guided the Junior Class this year are David M. Moseley, President; Donald P. Butler, Vice-President; Roy A. Seaver, Secretary; and John J. Fritz, Treasurer.

Dr. Raymond H. Wheeler served capably as faculty advisor.

The following is a chart depicting the Growth and Progress of the CLASS OF 1951 in its two years at Babson Institute.

**Forecast: Long-Term Securities**

If the FRESHMAN CLASS can continue to uphold the standards that they have established in their first year, they can certainly lay well-founded claim at the end of their last year to being the most outstanding class ever to graduate from Babson Institute!

In the closest and most spirited election ever held at Babson Institute, the Class of 1952 selected the following officers: C. William Schaefer, Jr., President; A. Glenn Simm, Vice-President; Donald J. Hobson, Secretary; and Robert Faulkner, Treasurer.

With the official establishment of the first Class Council at Babson Institute, the Freshmen led off the year with a very successful stag party. Other highlights of the year included the final preparation of a very comprehensive constitution and several social events. Student-faculty relations were also emphasized by the Class of 1952.

Dr. Wallace P. Mors served as faculty advisor and Sid A. Adair as student advisor for the year.

The following is a chart depicting the Growth and Progress of the CLASS OF 1952 in its first year at Babson Institute.

Extra-Curricular Activity Notes

Perhaps in no field is Progress and Growth more clearly exemplified than in that of ORGANIZATIONS. This year has witnessed the formation of two new clubs, the Babson Forum and the Sailing Club. These clubs, while still in their embryo stages, are clearly illustrative of the student initiative in this most important phase of student life.

All the organizations on campus have demonstrated exceptional co-ordination and ability in this, perhaps their most outstanding year. Both publications have undertaken to enlarge their facilities while clubs and fraternities have sponsored eminent authorities in their various fields to present important, meaningful subjects.

Clubs were primarily established at Babson Institute for two purposes:

1. To allow men of like minds to participate in informal discussions which are often led by outstanding guest speakers.

2. To allow men of like skills to participate actively in competitive activities.

These organizations give the student an opportunity to assume responsibility and leadership. Extra-curricular activities have always been regarded as one of the most important phases of student life—the beginning of Citizenship!

The following is a chart depicting the Growth and Progress of ORGANIZATIONS during the year 1949-1950 at Babson Institute.
Tripartite Governing Activities

The Progress and Growth of the Institute in terms of student participation is vested in three governing bodies. It is the responsibility of these groups to organize and supervise the extra-curricular activities on campus.

THE STUDENT COUNCIL.—Chief among the student governing bodies is the Student Council, composed of the four officers elected yearly by the student body, one elected representative from each class section, and the editors of the two student publications who serve as associate members.

During the past year, the Council, led by President Robert C. Shaw, demonstrated once again the leadership qualities which will one day find this body occupying its rightful position in campus life. C. Earl Gustafson, Vice-President; Herbert A. Aronsson, Secretary; and William R. O'Connell, Treasurer, were also instrumental in the continuing Growth displayed by the Council.

The Council, already cognizant of the full support of the student body, achieved remarkable success in the matters over which it had jurisdiction. Included in this realm is the organization and supervision of all student entertainment activities. The members of the student body will attest to the success of this particular function of the Council which was under the direction of George L. Ayer, Social Committee Chairman.

Enormous strides toward the goal of full responsibility have already been achieved. With the full knowledge of a “job well done”, the members of this year’s Council pass back the torch of responsibility to their successors. May they carry it to the summit of leadership and righteous student authority which has long been sought!

THE CABINET.—The second phase of student government is covered by the Cabinet. This group is composed of the heads of the various student organizations who serve in an advisory capacity to the Director of Student Activities. Functioning informally, the members of the Cabinet bring into group discussion various suggestions and criticisms of student extra-curricular activities brought forth by the members of their organizations.

Although the Cabinet has no concrete administrative authority, it serves a vital function in acting as another channel to concentrate and deliver student opinion to the Administration.
THE ATHLETIC COUNCIL.—A third student governing and policy making body is the Athletic Council. This group organizes and supervises the operation of the athletic program. With its subordinate organizations, it is thus responsible for the intramural and intercollegiate sports activities of the Institute. The continued growth in student participation and general popularity of this program is worthy testimony to the success of the undertaking.

Under the leadership of Joseph H. Philbrick, Jr., the Athletic Council has continued to effectively serve the students. The results of their efforts may be observed on the playing field and in the spirited competition for the Punch Bowl each year.

Babson Beaver

The Beaver became a living publication early in February, 1947, and soon grew from a bi-weekly, into a weekly edition in the Fall term of 1948. In the Fall of 1949, the paper took one more step in service to the students by increasing the size of the sheet to give better news coverage and a better journalistic base. The Beaver joined the Associated Collegiate Press and signed a contract with the National Advertising Service. Incorporated, to give the paper critical service and national advertising, respectively.

As Editor-in-Chief of the Beaver this year, William C. Arnot has made history with the paper. Not only was he chiefly instrumental in changing the paper from a tabloid to a full-size newspaper, but he also was responsible for the high quality of weekly work contributed by his staff which made this paper the “best ever”.

Other notable performances were turned in by R. Stuart Hume, Jr., as Managing Editor; Boies P. Coppinger, Jr., as Business Manager; James E. Alcorn, Jr., as Advertising Manager; and Richard A. Holch, as Associate Editor. The teamwork of the staff was excellent this first year of the larger paper and their efforts made the continuance possible. Special credit is due the advertising staff which turned in a fine job in increasing the amount of advertising to fit the larger paper.

In January, the Beaver staff set up a division under the leadership of “Stew” Hume to edit the Birthday Edition which was exceptionally well received by the campus. Sid A. Adair gave careful guidance to the first year of regular feature articles in the Beaver which included the establishment of the first “Hall of Fame” honoring outstanding Seniors. Another commendable performance was that achieved by Frederic E. Snow of the Feature Staff who served on the Planning Committee for the Winter Carnival as coordinator of publicity for the paper for this event. The paper has the able assistance of Mr. Philip E. Goodhue as faculty advisor.

Containing articles which featured the activities and location of the alumni, demonstrated the accomplishments of the Institute, and concerned campus events, this Beaver will stand as a tribute to those who have worked to make this the best paper in Babson history.
Founded in 1949 by a group of seven enterprising Juniors, this fraternity has continued its upward surge until it is now ranked as one of the top organizations on campus.

The programs this year have featured Mr. Thomas Litum of United World Federalists; Mr. Carl Pearson of Photostat, Incorporated; Mr. Arthur Caruso of McKinsey and Company; Mr. Thompson of Socony Vacuum Oil Company; Mr. Plympton of New England Mica Corporation; and Robert McArthur speaking on Owens-Illinois Glass Company. A field trip to the Federal Reserve Bank of Boston was also on the agenda.

The threefold purpose of the fraternity is:
1. "To advance the relationships between students of business and the commercial world.
2. To qualify for and obtain a charter from the International Fraternity of Delta Sigma Pi.
3. To further enhance and develop a feeling of fellowship among the student body."

The social side of the fraternity's program was highlighted by an especially entertaining initiation and dinner for the new pledges.

The officers of Alpha Chi Epsilon are Robert W. McArthur, President; J. Barret McInerney, First Vice-President; Albert O. Merrill, Second Vice-President; Kenneth H. Robes, Jr., Recording Secretary; Donald H. Partridge, Corresponding Secretary; Arthur E. Read, Jr., Treasurer; and Robert L. Ripley, Membership Officer.

Mr. Walter H. Carpenter is the faculty advisor.
One of the oldest organizations on campus, dating from June 4, 1941, this National Professional Advertising Fraternity continued this year to present outstanding programs to men interested in advertising.

The primary objectives of Alpha Delta Sigma are as follows:

1. “To combine in one fraternal body, students and actual workers in the field including many diversified interests, and regarded by a lay public as the ‘advertising business’,

2. To have college training for advertising given greater recognition, both by college administrations and by people actually engaged in the business of advertising, and

3. To raise, by every legitimate means, the prestige of advertising as a profession, and the prestige of those who earn their living from it.”

For the second year, the George W. Coleman Chapter of Babson Institute sponsored, in cooperation with the Advertising Club of Boston, the Robert J. Murray Memorial Contest for the best advertising project submitted by college students. Over twenty colleges within the New England and New York region participated. At their regular meetings, speakers are the order of the day.

Officers of Alpha Delta Sigma this year include Charles J. McCarthy, President; Boies P. Coppinger, Jr., Vice-President; Richard A. Holch, Recording Secretary; Cushing Lord, Corresponding Secretary; and Winthrop F. C. Walters, Treasurer.

The fraternity also received national recognition when Mr. Bertrand R. Canfield, its faculty advisor, was elected National President of Alpha Delta Sigma and Babson Institute was chosen as the site of the fraternity’s national convention in 1951.

Finance Club

Any organization which lays claim to having achieved the greatest Growth and Progress over the last year must surely share this honor with the Finance Club, for this club now must be placed as one of the top groups on campus.

Limited to a membership of thirty-five, this club has received wide recognition and acclaim as a result of presenting such outstanding speakers as Mr. Cleo Jailette, Chief Instructor of the Bureau of Internal Revenue at Boston; Mr. Roger W. Babson, well-known financier and economist; Mr. Dana Danforth of Spear & Staff and Danforth-Epley; Mr. William C. Kusack, Vice-President and Treasurer of Keystone Custodian Fund; Mr. Horace Chadsey, Vice-President of the First National Bank of Boston; Mr. Andrew Peterson of Charles Rittenhouse, Incorporated; and Mr. David T. Schultz, Vice-President and Treasurer of Raytheon Manufacturing Company.

The Finance Club, founded in the Spring of 1948, has as its purposes the following:

1. "To obtain speakers, leaders of discussion groups, and educational movies on all phases of finance.

2. To develop a closer acquaintance with the actual institutions of finance.

3. To promote friendship and fellowship through outstanding meetings held in a social, informal atmosphere.

4. To become associated with Alpha Kappa Psi National Business Fraternity."

The leaders of the Finance Club who so capably assumed their responsibility this year are William H. Schwan, President; John C. Barbour, Jr., Vice-President; John H. Zook, Secretary; and Donald W. K. Chun, Treasurer.

Dr. Frederick W. Harrison serves ably as faculty advisor.
Society for the Advancement of Management

Founded in the Spring of 1948 to promote the scientific study of management and industry, the Society for the Advancement of Management’s purpose is “to help members obtain a better understanding of problems of management and the manner in which they are solved.”

Having obtained a charter from the National Association for the Society for the Advancement of Management, the society has become another organization on campus which can claim national affiliation.

In addition to the organization’s regular business meetings, the society has sponsored such activities as movies, field trips, group discussions, and speakers. With this well-rounded program, the members are thus afforded a means whereby they can come in contact with leading industrial leaders in the area and the industrial organizations which they manage.

One of the most interesting meetings of the society took place at the Woodlawn Country Club when the topic for discussion was “Closer Relationship Among the Members”. After a brief talk by Mr. Heddendorf, each member of the group was called upon to present a brief impromptu talk on his background and future plans. This went a long way towards furthering “Closer Relationship.” Professor Magoun of the Human Relations, Incorporated, is one of the speakers who has addressed the society this year.

The leaders of S. A. M. this year are Phillip L. Taylor, President; David W. Scott, Vice-President; Edward S. Harris, Secretary; and Victor F. Tomasso, Treasurer.

The society’s capable faculty advisor is Mr. George B. Heddendorf who has led the group in many a stimulating discussion on the problems of management, labor, and job interviewing.
One of the oldest organizations on campus, having been founded in the Winter of 1947, the Foreign Affairs Club has contributed greatly to the molding of a well-informed individual through the media of its movies and speakers.

The object of the club, in which it has succeeded so admirably, is "To promote interest in and further understanding of the economic, political, and social conditions abroad and their effects upon the United States."

Since the Institute does not have sufficient courses in which the student may be kept up-to-date on international events, the club thus supplements the curriculum. In an effort to help the members to obtain the most from the meetings, the club encourages the members to participate by asking questions and discussing the problems presented by the speakers.

The program this year has been especially interesting for its variety. Special guests have included Mr. Rhoads Murphy speaking on present conditions in China and Mr. C. A. Triantafyllakos, the Greek Consul, speaking on the situation in his homeland. Other speakers discussed foreign trade and current international problems. Movies and round-table discussions by the members were additional programs of the club. The annual club dinner brought the year to a successful close.

The officers are Robert E. Hove, President; Graham N. Nock, Vice-President; Dudley E. Whitney, Recording Secretary; David H. Eichar, Corresponding Secretary; and David A. Sinclair, Treasurer.

The club’s faculty advisor is Dr. Carol W. Ford.
Music Club

"The primary purpose of the Music Club is to further the appreciation of music among the students of Babson Institute." With this high ideal as its goal, this club contributed much to the enjoyment and education of all students through the media of its outstanding programs. The Music Club thus emerged this year as one of the truly important groups on campus.

Founded in 1947, the main emphasis of this Club has been placed on presenting outstanding programs in an informal atmosphere. Possessing an open membership at all times, interested students and their guests are thus invited to share in the programs whenever they wish to attend.

The two outstanding concerts for the year were the presentation of Miss Gloria LeClair, soprano, for a return engagement in the Cup 'n' Saucer, and the Zimbler Sinfonietta's performance in Richard Knight Auditorium.

Other programs included a Jazz Concert in which Madame Ignacia Bellakooz made an auspicious debut in this country, the annual playing of the "Messiah", the playing of Beethoven's Seventh Symphony with an accompanying film strip depicting the musical score, and a party at the Boston Pops. The Music Club also sponsored a very successful sale of Babson Christmas Cards. One program which is anticipated with great interest for the future is the proposed plan for a concert series on the Babson campus.

The officers for the year include Sid A. Adair, President; Harry W. Jeffries, First Vice-President; Russell C. Whitaker, Second Vice-President; Roy A. Seaver, Recording Secretary; and V. Emmanuel Gabl, Corresponding Secretary.

Serving as faculty advisor is Mr. Nicholas Ra\-setzki, who not only helps obtain the programs, but also at times becomes the program.
The Dramatic Club was initially started in the Fall of 1947 with ten charter members. Its objectives were, as they are today, two-fold:

1. "To advance the study and appreciation of drama on the Babson campus, and

2. To sponsor, participate in, and promote dramatic activities wherever and whenever possible."

Club Progress was noted during the first two years when the Babson Barnstormers became associated with the Wellesley College Barnswallows, worked in productions at the Wellesley College Theater, and starred in productions with the Lasell Junior College Dramatic Club.

During the Fall of 1949, with an enlarged membership of thirty members, the Dramatic Club added another "first" to the annals of Babson Institute when the first dramatic production ever to be produced on campus opened for a "one-night stand" at Richard Knight Auditorium. The occasion was the production of "Holiday" with Lasell and Babson Dramatic Club members acting, producing, and directing the show.

Productions at Wellesley College have included "Harriet", "Antigone", "Our Town", "Barkley-Square", "Engaged", and "Dark of the Moon". Lasell work in which Dramatic Club members have starred include "The Mad Hatters" and "Holiday". With the Glee Club, the Thespians also sponsored a wonderful performance of the "Barons of Babson" during the First Winter Carnival.

The Club this year is under the guiding hand of J. Barrett McInerney, President, with Richard G. West serving as Secretary.

Mr. James G. Hawk is completing his first successful year as faculty advisor.
Outing Club

The Outing Club was founded in the Fall of 1947 by thirty-four Babson Institute students who were interested primarily in promoting an interest in winter sports among the student body.

The club was formed for "The encouragement, advancement, and promotion of all types of outdoor sports." This has included skiing, fishing, mountain climbing, canoeing, and social get-togethers with other New England clubs.

A member of the United States Eastern Amateur Skiing Association and now a member of the Inter-Collegiate Outing Club Association, the club has thus obtained national affiliation. Through the Inter-Collegiate Outing Club, the Babson Outing Club participates in joint outings with other New England colleges.

Other activities contemplated for the future include hunting and horseback riding. Free skiing instruction is furnished to the club’s members and proficiency tests are given for national rating to members during the winter months. The club is open to all students who have a love for any type of outdoor sport. One of the projects this year was the clearing of Sunset Hill for skiing. Movies and speakers complete the club’s activities.

The officers of the Outing Club are Robert L. Ripley, President; Donald H. Partridge, Vice-President; Thomas W. Welles, Recording Secretary; R. Stuart Hume, Jr., Corresponding Secretary; and Donald P. Van der Wolk, Treasurer.

Mr. Squire F. Burtis, Jr., the Institute Athletic Director, is completing his first year as the club’s faculty advisor.
“To foster all group singing activities at Babson Institute”. This is the brief but important purpose of the Glee Club. Since its founding in the Fall of 1947, the Club has contributed much to gather goodwill for the Institute.

Highlight of the Glee Club’s year was the co-sponsorship with the Dramatic Club of the best performance ever presented at Babson Institute. This is, of course, the “Barons of Babson” which was given during the First Winter Carnival. The most outstanding part of the show were the Babson Institute songs written by Roger Dennison.

The club also performed at Founders’ Day ceremonies, spent a night caroling the Trustees of the Institute and the surrounding girls’ schools, and sang at the Annual Children’s Home Christmas Party given by the Student Council.

The officers of the club are Roger Dennison, President; Robert D. Moragne, Vice-President; and Roy A. Seaver, Secretary-Treasurer.

Dr. Edward B. Hinckley serves as the club’s faculty advisor while Mr. Samuel Wilson, President of the Harvard Glee Club, is the Director.

As their stated aim, “The purpose of the Philosophy Club is to further study and obtain knowledge of the principles that cause, control, or explain facts and events.”

To follow this purpose, the club presented Dr. Stephen Peabody discussing “Euthanasia” or Mercy Killing and Dr. Peter Bertocci speaking on “The Human Adventure in Sex, Love, and Marriage”. Other topics of interest for the year included “Comparison of Modern Totalitarianism with Plato’s Republic”, “If Hierarchy in the Factory. Why Democracy in Government?”; and “Scientific Influence on Philosophical Thinking”.

The club, originated on November 8, 1948, finds it can accomplish a great deal in solving the problems of students in its discussion group atmosphere.

The capable officers of the Philosophy Club this year are David H. Eichar, President; Robert R. Patterson, Vice-President; and Horace H. Moody, Secretary.

The club is fortunate to have Dr. Raymond H. Wheeler as its faculty advisor.
**Camera Club**

Marking their second year on campus, the Camera Club continued to provide both facilities and instruction for those students desiring to further this practical avocation.

Founded in the Fall term of 1949 by Philip B. Heald, the club has continued to grow and has now taken its niche in campus life.

Both members and guests were invited throughout the year to use the club’s completely equipped dark-room in the Coleman basement.

A highly successful open Photo Contest to encourage student participation was one of the main accomplishments of this group.

In addition to Mauricio F. de Camargo who serves as President, the other officers include Allan H. Southard, Jr., Secretary, and Ray H. Rodey, Jr., Treasurer.

Mr. Everett W. Stephens is the club’s faculty advisor.

---

**Aviation Club**

In its second year of reactivation, the Aviation Club continues to command the interest of a large group of students. The purpose of the club is to further understand the role of aviation in the world today and to create an interest in its business potentialities.

One important event for the year was the obtaining of a contract with the Franklin, Norfolk Airport which allowed club members to fly at greatly reduced rates. All those members who do not hold either Commercial or Student licenses are expectantly waiting to solo in the near future.

The club is a member of the Association of North Eastern College Flying Club and sponsors such events as “breakfast” flights, week-end trips, and flying meets.

The President of the Aviation Club this year is Sydney Oakes while Henry L. Boulton serves as Secretary-Treasurer.

Mr. Edward J. McGee is the faculty advisor.

Dining room lines that at times seem to move backward . . . . Championship games on the athletic field . . . . Already forgotten days of existing in the Castle on the Hill . . . . Good and bad assemblies . . . . Meetings in the Cup 'n' Saucer . . . . Those all too infrequent discussions with Mr. Babson . . . . Sparkling play by our team at a basketball game in the gym or that game that was lost in the closing moments . . . . Or maybe it's just a quiet chat with friends in the lounge . . . . Meeting informally with the faculty members and their wives at a coffee hour in the Cup 'n' Saucer . . . . Sitting out that dance or that extra special picture which was supposed to be informal . . . . Games of pool or ping pong in Park Manor . . . . Or maybe it's the first snow of the season or that election rally or the morning after . . . .

These are the things that make the real Babson Institute. Items that comprise that wonderful thing we affectionately call Campus Life. Taken so much for granted, it passes into the obscurity of another year, except through your memories and Campus Highlights.

The following is a chart depicting the Growth and Progress of campus activities during the year 1949-1950 at Babson Institute. The solid line indicates CAMPUS HIGHLIGHTS while the dotted line indicates the stress of examinations and application to school work.

Babson Queen

As the inauguration of the most gala weekend in Babson Institute history, Miss Mary Barnes of Little Falls, New York, was chosen 1949 Babson Queen at the Winter Formal held at the Statler Hotel on February 17. The Queen's escort was Graham N. Neck.

The Queen attendants were Mrs. Ernest R. Watjen, the guest of Ernest R. Watjen, and Miss Ann Lord, the guest of Campbell MacNeill. Judging of the contest was the difficult pleasure of members of the Hart Modeling Agency of Boston. The Queen was sponsored by the Foreign Affairs Club while Mrs. Watjen was the Finance Club's candidate.

Queen Mary then began her reign over the First Winter Carnival Weekend. After an eventful evening, the Queen began the next day by attending classes which were open to the public. Completing a specially prepared lunch in the dining hall, she next toured the campus to view the various Open Houses before helping to judge the snow sculpturing, won by Park Manor. She also watched the Babson Varsity edge Northeastern in an exciting basketball game. In the evening, Queen Mary first viewed the Babson Variety Show, "The Barons of Babson," and then danced to music which included the hits songs of the show.

Swimming in the Millea Pool and viewing the Giant Relief Map and the Newton Room the next day brought to an end Queen Mary's reign and a wonderful Winter Carnival Weekend.

Follow-up of Sports Activities

A most important phase of activities offered by Babson Institute is the voluntary program of ATHLETICS. One of the primary precepts on which this Institute was founded concerned the importance of physical exercise without interfering with the academic program.

The Athletic Council and its subsidiary groups direct the athletic program. The only limit to the program is the extent of student interest. This phase of campus life is divided into two sections—intramural sports and intercollegiate sports.

INTRAMURAL SPORTS—This phase of activities could more properly be called the “Punch Bowl League”. It is divided into three divisions:

Team Sports—Major: Touch Football, Basketball, and Softball.
   Minor: Ten Pin Bowling, Candle Pin Bowling, and Swimming.

Tournament Sports—Major: Tennis, Badminton, Ping Pong, and Golf.
   Minor: Horseshoes, Pool, Squash, and Handball.

Meets—Cross Country and Skiing.

The Punch Bowl for 1948-1949 was awarded to Bryant Hall with 830 points. The other teams and their order of finish were Park Manor South (714), Off-Campus Seniors (628), Coleman South (611), Park Manor Left (331), Off-Campus Junior (271), Park Manor Right (248), Off-Campus Freshmen (217), and Coleman North (148).

INTERCOLLEGIATE SPORTS—The achievement of intercollegiate sports during the past several years has been one of the outstanding examples of the Growth and Progress of Babson Institute. Sports such as skeet, golf, basketball, ski, and tennis have gone far to promote the name of Babson Institute throughout New England.

Intercollegiate sports which are emphasized are those which have a carry-over value in later life. Also, this participation with other college teams promotes a friendship and understanding that remains unparalleled by any other activity.

The following is a chart depicting the participation and interest in ATHLETICS and their Growth and Progress during the year 1949-1950 at Babson Institute.

Intercolligiate

GOLF—Since its first match in the Spring of 1948, intercollegiate golf has continued to gain stature until it is now recognized as the most outstanding intercollegiate team at Babson Institute. During its first two years, this group established the enviable record of 17 games won, 1 lost, and 2 tied.

Last year’s team defeated Dartmouth, Holy Cross, Rhode Island State (in a return match of the only loss ever suffered by the golf team), Tufts, Suffolk, Rensselaer Polytechnic Institute, Harvard, and Boston College. The two ties were suffered at the hands of Manhattan College and Boston College. The defeat of Boston College (precended by the tie), the official golf champions of New England, made Babson Institute the unofficial New England champs. The record of last year’s team thus reads 8 wins and 2 ties.

The schedule for the Spring of 1950 includes matches with Dartmouth (2), Rensselaer Polytechnic Institute, Holy Cross, Springfield, Rhode Island State, and Harvard. Another championship season is expected with the return of many of last Spring’s lettermen.

The manager of the golf team for 1949-1950 is Boies Coppinger.

BASKETBALL—The most popular intercollegiate sport at Babson Institute, the basketball team completed its second successful year in the familiar surrounding of the Peavey Gymnasium.

In compiling its record of 7 wins and 7 losses for a .500 average, the varsity showed wins over Newton College (2), Burdett (2), Oxford, Tufts Junior Varsity, and Northeastern Freshmen. Losses were sustained from M. I. T. Junior Varsity (2), Curry (2), Lowell Textile, Northeastern Freshmen, and Harvard Freshmen. Highlight of the season was the second game with the Northeastern Freshmen which was played as a feature attraction during the Winter Carnival Weekend and saw Babson Institute emerge victorious by the score of 60-54.

The manager of the basketball team this year is Leonard Brooks, assisted by Charles Fagan.

SKEET—One of the founders of New England intercollegiate skeet, this team continues its reputation as tops in its field. Founded in 1947-1948, skeet was the first intercollegiate sport at Babson Institute.

The final standings for 1949 saw the skeet team finishing behind Army and in front of Yale and Harvard. This final match took place at the Intercollegi-
ate Championship Match at the Lordship Gun Club in Stratford, Connecticut.

In matches thus far this year, the team has had a good record. At Lordship in the Fall, they finished third behind Army and Harvard. In a home-and-home series with Army, they showed great promise both at West Point and at the Mayflower Skeet Club, although they lost both games.

The president of the skeet team this year is Tom Weller.

SKIING—Weather once more played the determining role in the activities of intercollegiate skiing. Harpered by lack of snow during the first part of the season, the ski team was thus unable to participate in any meets until the middle of February.

A member of the New England Intercollegiate Ski Conference, skiers met teams such as Springfield, Boston University, Lowell Textile, Brown, Northeastern, Tufts, Boston College, Holy Cross, New England College, Rhode Island School of Design, Clark, and American International College.

The 1948-1949 season marked the appearance of this team on campus. Since that time, it has shown steady improvement. This year, skiers finished third at the Thorn Mountain Meet behind American International College and Boston University. At Intervale, they finished seventh in a field of ten, and at Ascuney, the skiers were again seventh in a field of nine in a meet which was won by Boston College.

Bob Ripley is the ski captain for the year.

TENNIS—Founded in the Spring of 1948, intercollegiate tennis is another sport which is a recent addition to the campus. This sport definitely came into its own last year when an undefeated season was completed. The victims were Suffolk (2), Tufts Freshmen, and Tufts Varsity.

The schedule this year is even more impressive and gruelling. In addition to two rematches with Suffolk and one with the Tufts Varsity, the schedule includes matches with the M. I. T. Freshmen, Harvard Freshmen, and Boston College Freshmen. The majority of these games are to be played on the opposition's courts.

Although only two lettermen from last year's team remain, the possibility of another successful season seems excellent. When the proposed additional tennis courts are built, tennis may well emerge as the sport through which Babson Institute may gain national recognition.

The tennis manager for the year is Arthur Anderson.

Intramural

SWIMMING—Conquering all opposition, the Park Manor South swim team emerged victorious by a margin of 34-22 over Off-Campus Seniors in the final meet held in the new Millea Swimming Pool. This marked the opening chapter in a title race which is destined to become one of the most important and popular intramural activities on campus. Winners of the three preliminary meets were Park Manor South, Off-Campus Seniors, and Bryant.

FOOTBALL—Probably the best coordinated intramural football team ever to compete at Babson Institute, the Off-Campus Seniors completely dominated play, emerging with a record of 8 wins and 0 losses. Bryant, which finished a strong second in the league with a record of 7 wins and 1 loss, met the eventual winners early in the season and were set-back with a 13-0 loss. Not only were the Seniors undefeated, they were also unscored upon.

TOURNAMENTS—The Spring of last year saw the appearance of the first tournament winners. They were Arthur Anderson in tennis, Jim Hunt in golf, and Bill McGrath in horseshoes. The horseshoes doubles champs were Bill Colman and Ray Greer. The only Fall tournament had a double winner when Bud Tietje and Jack Maker crossed the finish line in the cross-country in a photo-finish tie. The Winter term saw Tom Sfikas, victorious in ping pong singles, capture the ping pong doubles crown with Fred Lenz as his partner. The badminton doubles championship went to Dean Ingraham and Jim Bryan while Dean Ingraham also fought it out with Herb Spencer for the badminton singles title. Bill Winstead became the newly crowned squash king and Dick Lavore was the pool champ. The handball crown went to Sid Adair. One of the outstanding results of the tournaments was the large participation in all events. This increased the competition and resulted in greater interest on the part of the student body.
Sports

Bowling—The Candle Pin title was won by Bryant with Off-Campus Juniors, Park Manor Left, and Park Manor South making a close race of the league. An exceptionally powerful Faculty team also came close to winning the title by tying Bryant 2-2, but subsequent losses at the hands of other teams proved to be their downfall. The Ten Pin League finished in a tie between Park Manor Left and Bryant with Park Manor South just one game behind. Candle Pin bowling took places in Wellesley while Needham was the scene of the tight Ten Pin race.

Basketball—In one of the closest races in intramural history, Off-Campus Juniors and Off-Campus Seniors sped through undefeated seasons until their last game of the year. There these two powerful teams met in a spectacular finish which saw the Off-Campus Juniors emerge victorious by a decisive score of 34-22. However, the extraordinary come-back of the year must be credited to Coleman North, a team which failed to win a game last year but this time almost won the “gold-ring”.

Softball—Park Manor South, defeating runner-up Coleman South in the last game of the season by a score of 4-3, took the softball honors last Spring by completing an undefeated season of 8 wins and 0 losses. Tying Coleman South for runner-up honors with records of 6 wins and 2 losses were Off-Campus Seniors and Bryant. The outstanding players for Park Manor South included Ed Preiffer, Al Burnett, Bob Depray, and Ed Harris. (Team not pictured.)

One of the most important problems faced by a young man in his late teens is the choice of his life's work. The United States Bureau of Labor Statistics reveals that eighty-seven out of one hundred gainfully employed persons work at some phase of business.

Business needs men who have both a strong preparation in such fundamental business toolsubjects as Accounting, Distribution, Economics, Finance, and Production and a broad cultural background in liberal arts subjects. The Babson course of study gives a man this strong preparation in business and liberal arts areas.

Small classes taught by successful businessmen, field trips, the case study approach to business problems, the use of motion pictures, intensive educational and vocational counselling with students - such procedures develop men with a vocational purpose, well prepared to assume immediate business responsibilities upon graduation.

Training men for business is Babson's Business.
