Mr. Babson Talks at Finance Club

On Thursday evening, November 9, the Finance Club of Babson College held an informal meeting at which Mr. Babson discussed the financial problems of certain current business situations.

Miss LeClaire Gives Concert

Wednesday, November 14, will mark the return of the most popular artist presented by the Music Club last year--Miss Gloria LeClaire. Her first performance at Babson on March 1, was greeted with great enthusiasm by all present. This year her concert is under the joint auspices of the Club and the Music Club. The time for the concert is 8:00 p.m. in the Cup 'n' Diner with the usual air of informality which has become such tradition at these concerts much to the delight of an audience which is amazed, yet to turn them in to cards, may be seen in various displays the Faculty Wives next week at times wishing to purchase these cards are invited to buy them.

Babson College announces the name of her accompanist, Miss LeClaire with this $500 scholarship to a student in this country. Eleanor Steber, world-famed diva of the Metropolitan Opera, will be in Boston and will come to present Miss LeClaire with this 600 scholarship. When notified of this award, Miss LeClaire stated, "There is no such thing as being in love and having a concert at the same time." The Management, hoping to capitalize on an opportunity, ordered in 1944 the two biggest, grandest, most modern Atlantic Coast Fisheries was stuck with the war was over and the bottom dropped out of the people. The purpose of last week's Interviews was to present a new and improved facade to the world, to be in action last week when its five members had a "dry run" interviews with Babson, to discuss his wartime experience, it was discovered that he has an enviable record, having spent time in the South
ing, preferably away from New England. The newly elected Junior Class officers made their debut at the first meeting of the Junior Class which is to be held on November 16 at Ken's in Framingham, for the meeting. In closing, the Glee Club will sing "The Star-Spangled Banner." Mr. Babson, who is flying in from Chicago for the occasion, of Utopia College.

 commit to the presentation from the work for Mr. Stephens' communication, it was discovered that he has an enviable record, having spent time in the South...
Stock Market Analysis
Of Fresnillo Company

In a recent issue of the Beaver, a selection of high-yielding stocks was introduced to the student body when the Fresnillo Company, selling to yield dividends at about $3.75 percent, was recommended. The company owns silver, lead and zinc mining properties at Fresnillo, Zacatecas, Mexico. The Fresnillo Company was originally organized in 1500 and was continued until 1930. When it was closed down and not operating, it was purchased by Mr. C. R. Montgomery, who produces silver ore containing gold, also lead and zinc. The extraction of silver is the principal profit producing procedure. The company is currently operating and the following statistics are tabulated:

<table>
<thead>
<tr>
<th>Silver Ore</th>
<th>Recovered Ore</th>
<th>1948</th>
<th>18,059</th>
<th>1947</th>
<th>18,006</th>
<th>1946</th>
<th>17,593</th>
<th>1945</th>
<th>16,645</th>
</tr>
</thead>
</table>

Fresnillo produces for approximately 3% of the total Mexican silver production. The Fresnillo Company is one of the leading prospect holders of silver ore deposits and the demand from silver investors is great. Silver production is probably rising, it is expected to be considerably higher the coming year and the company may be handling considerable silver ore and be able to supply silver in large quantities at a reasonable price.

New Montgomery Leads Glee Club

In an Institute which is noted for a faculty with many diversified interests, one of the most versatile instructors is Mr. C. R. Montgomery. Not only does he teach Business Organization but he is known as the Dean of the Business and Mathematical Faculties. Mr. Montgomery grew up in a very educated and talented family. His father, Mr. John D. Montgomery, was Director of Student Activities as well as the head of the Department of Government. The names of many famous men in music and politics are associated with the name Montgomery, too. Mr. Montgomery graduated from the University of Michigan, where he was instructed in the technical aspects of his profession. His brother, Mr. John D. Montgomery, is a known engineer in Michigan.

The news of Mr. Montgomery's ability in his field has traveled far and he is a tremendous help to the student body. His knowledge of his subject and the ability to communicate it to his students are outstanding.

The Montgomery Glee Club is planning to play the role of an orchestra in high school in order to give his students one of the best opportunities in the world to make an impression in the musical field. Mr. Montgomery is conducting a chorus group at some future time.

All those planning to attend are advised that at the last Babson concert, the "Standing Room Only" sign was displayed on all last-comers. Refreshments will be served at the conclusion of the program.

Letters To The Editor

Dear Sir:

Now some all them complaints on the food, fellows—could be some of you have been living in the wrong country. This was in school in the U.S. and as a matter of fact I have been in college, and before that, I have no comparison to the food we are getting.

Anonymous Chawoun

The Glee Club is also planning on sponsoring with the Music Club the annual Christmas Concert at the School Auditorium on December 15th, 1948. A series of lectures on "Christianity and Communism" and using John Mackay's book "Creative Society" as a basic. We would appreciate your attendance to the series of lectures because it will certainly contribute to the understanding of the Christian religion.

New Members are heartily welcome.
Late Sports Releases

The Class County pose was won by Park Manor South whose runners Maker and Tanje led for first place ahead of a pack of the high schoolers. At their time, 11 minutes, 2 seconds, Woods, of Bremen South, placed third; Berger, of Bryant, placed fourth; Bever, of Park Manor South, placed fifth.

Beginning next Monday, swimming classes for beginners only will be held in the Millea Pool on Monday and Wednesday afternoons from 1:30 to 2:30, and on Tuesday and Thursday evenings from 7:30 to 8:30. Because of the instruction period, the class will not meet until 7:30.

Mr. Babson —

(Continued from Page 1)

Parenthetically, Mr. Babson interjects the reflection that a well-known investment trust had bought 30,000 shares of Atlantic Coast Fisheries three years ago at 8%. Investment trusts, he said, are very impressive.

DON'T LISTEN TO EXPERTS

Interject the reflection that a well-known Bost-on investment trust had bought 30,000 shares of Atlantic Coast Fisheries as an example, Mr. Babson drew ten conclusions for successful operations for short-term investments or speculation.

Babson's policy in financing operations, he said, is like a balloon with a life jacket attached. If the company is successful, the holder may convert his bonds to stock and participate in dividends and price appreciation. If the company fails, the holder has a prior lien on the assets.

Golfers Plan Spring Matches

An informal business meeting of the Babson Golf Club was held on Thursday of last week to elect officers and to arrange its plans and schedule for the coming year. The result of the voting designated the honors to "The Broad- brand and Steve Cupertino, electe Cap- tain and Manager respectively.

It was announced that, although there are six returning veterans from last year's excellent team, more golfers of good caliber are needed to supplement this group. It is expected that the best of the men now engaged in the Intramural Tennis will be chosen for this purpose. Matches have already been arranged with Holy Cross, Dartmouth, and B. P. I., and invitations have been extended to such premium teams as Yale, Princeton, Army, and Boston College.

Last year's club of future Bob Jones' and Ben Hogan's was accredited with acquiring more prizing for the Institute than any other club on campus. This was the result of their defending Boston College, the team crowned as New England Intercollegi­ nie Champions. So, for those of you who can establish yourselves as adequate "tee and green" men, why not join the best—the uncrowned champs of New England Links.

"Congratulations Mr. O'Hara, your paper on the Darwin Theory was excellent."

Babson Aviation Club Develops Flight Plan

On Monday, October 1, the Babson Aviation Club held a meeting in the North Lounges of Park Manor. President R. R. O'Hara and Secretary Henny Boulton informed the members of the very favorable conditions obtained in the contract signed with Mr. Finke of the Franklin, Norfolk Airport last week. The contract terms, reported in a recent edition of this paper, give all club members a fifteen percent reduction in flying rates.

Various suggestions were made by the members in regard to the clubs future plans. Among the more pertinent ideas presented were: that speak­ ers should be acquired to inform the members of the latest developments in flying and their practical application for business purposes, and that aviation films, perhaps war pictures, should be obtained.

Outing Club To Use New Boston

At a meeting of the Babson outing Club in the Cup 'n' Saucer on Monday, November 7, it was announced that, although student enthusiasm for the club will be once again the given the use of the 30-acre tract of land in New Boston, New Hampshire. This area offers not only ski slopes, but plenty of room for hunting, fishing, hiking, and other outdoor activities. Overnight accom­modations are available in a revert­ ved barn which is now equipped with electricity, heating, and cooking facilities.

A group of Outing Club is going up to New Boston on Sunday, November 26, and any outdoor enthusiasts who wish to familiarize themselves with the oppor­tunities available may contact Bob Ripley or Don Partridge.

Club members enjoyed a short abit­ ing movie after a business meeting at which plans for a mountain-climbing trip and the clearing of Sunset Hill were discussed.

Skeeters Bow To Army Fire Power

Two Babson skirt teams shot 61 out with the Army last Sunday, November 7, at West Point. Shooting unfamiliar, and admittedly difficult fields, the First Team lost with a score of 419 out of 500 against Army's 461. The Second Team went down 327 to 457.

Shooting for the first team were: Bob Cruickshank, Field Captain, who broke 75 straight, and dropped only one out of a hundred; Tim Weiler, president of the Skeeter Club; Bob Shaw, Don Andrews, and Francis de Omer­ berg. Shooting for the second team were: Ray Robey, Myers Narrsott, Chuck Cummer, Chuck Lord, and Charles Protie.

"Opportunity for revenge will present itself on November 26 when Babson shoots against Army, Yale and Har­ vard at the Lighthart Street Club in New Haven. This is the annual Inter­ scholastic event meet in which Babson placed second only to Army last year. Army has improved considerably this semester and the recent match offers some hope that Babson can at least equal its previous record.

THE BABSON WEEKLY

It has come to my attention that of all activities assumed by a student the most difficult and least comprehensive is that of studying. We have all come to the realization that studying in certain forms, such as forms crowned with bamboo poles and upheld by slender supports, is one that requires but a small bit of what I like to refer to as "brain acceleration." It is more an instinct brought about by the relative ability of the eyes to shapes and fig­ures.  

I have outlined a set of questions to be answered in an effort for those who are interested to arrive, logically of course, to their own conclusion.  

1. Can you pick up a book and have the dust off it with true vigor?  
2. A schedule of evening hours, which student employees will find their problem a little more pleasant.

Snack Bar

Under the new schedule, the Snack Bar is now open to serve you from 8:00 A.M. to 9:00 P.M., and from 11:00 A.M. to 10:00 P.M. Make it a point to patronize your Babson Snack Bar regularly.

THE BABSON WEEKLY

Freshman Rally Rocks Coleman
Tuesday evening, November 8, brought to the Coleman Map Building a some remittance of the old fashioned campaign block parties. Candidate Bill Shaffer, coeditor for the presidency of the Freshman Class, threw a crowd of over two hundred boys and girls who danced in the streets from eight to nine thirty.

Coleman Hill, galley bordered with Japanese lanterns and an occasional red fire, resounded heartily with canned music, campaign speeches, firecrackers, gongs, and even while outside of Wellesley gits were tossed to the party by a fleec of convertibles.

The coming pep rally concluded what was probably one of the most ag­gressiveness political campaign ever waged to the campaign in its campaign to the success of Shaeffer's campaign.
