Babson Forum Plans Debates

There were three debates this year in the Babson Forum that attempted to find an answer to the question: "Who Killed Bill Mechanic?" The questions were: Does Society Perpetrate the Gunman? After the问世 of the question, the Babson Forum held a debate to answer the question.

In the second debate, the students were divided into two teams: Team A and Team B. Team A presented the argument that society is responsible for the gun violence, while Team B argued that individual factors are the primary cause of gun violence. The debate was moderated by a faculty member from the Department of Political Science.

The final round of the debate was particularly intense. Team A argued that society is responsible for gun violence because of the lack of gun control laws. Team B countered that individual factors, such as mental health issues and criminal history, are the primary cause of gun violence. The debate ended with a tie vote, and the students were encouraged to continue the discussion in their own time.

The discussion held in the Senior Class meetings will present the following program on February 27: PART 1

Junior and Seniors Unbeatend

The undefeated Off-Campus Juniors survived their toughest test of the current campaign when they defeated a scrappy team from Coleman South. Most considerably crowded was the magazine "Undergraduate Club" of Park Manor South which only allowed men brought down that "music from hearses." Refreshments were continually served to the dancing students or those leaping at the candle-lit tables about the transformed Cop 4 Seaver. Park Manor South band took second in the snow sculpture with the giant clammer that faced out toward the library.

The faculty were contributed greatly to the weekend by their presence as cheerleaders and hornists at the formal dance and at the dormitory parties. Various enterprising young men could be seen constantly running back and forth with refills for the bounteous buffet. Perry Schuster and Bill Arnot were the best qualified to joining the waiter's union.

Snow shoe decorations were the easiest and quick elephant of Coleman Hall and the Snow Queen of Bryant Hall.

This weekend will remain in the minds of those who wished to participate in the events. It will be the clue of future classes as to whether this even will become tradition or will just be forgotten.

Again the upswing is entirely different from the downswing and this time he sounds more like Mr. Krupa than anything else. The drums are even brasher, the cymbals deal as it usually is in Krupa's band; also there is a sax solo that sounds a lot like Krupa's. Nevertheless he does a better job then probably Krupa would have done if he tried it himself.
