Proposal Would Cut The Weekly Beaver To 6-Monthly Beaver Reducing Deficit In Half

Highlight of the Student Council meeting on Tuesday was the following proposal presented by Sid Adair, Editor of the RAISON BEAVER: "In light of recent deficit figures, the Student Council has had in providing funds to meet the student needs. This decision was made in order to cut the costs of the newspaper."

The proposal, according to Mr. Adair, is a result of the deficit that has been facing the newspaper for some time. The newspaper has been facing financial difficulties due to a lack of advertising and a decrease in readership. In order to save money, the newspaper decided to cut the frequency of the publication from weekly to bi-monthly.

The Campus Caste

Dr. Boxton: Awaken!

Dr. Boxton, the campus chaplain, was recently awakened by a student who had fallen asleep in his office. The student was found to be sleeping on a stack of books, with a pen and a pencil beside him. When Dr. Boxton asked him why he was sleeping, the student replied that he was too busy with his studies to wake up.

The student was then given a few minutes to wake up and attend to his studies. Dr. Boxton then continued with his work, and the student was left to ponder the meaning of his dreams.

ROY SEABER

"... Mr. Secretary"

Roy Seaber has been a representative of the Student Union at the West Region Conference and has been instrumental in the student's cause. He has been a strong advocate of student rights and has fought for the protection of student's rights.

In his speech, Roy Seaber stressed the importance of student participation in the decision-making process. He urged the students to take an active role in the governance of their institution and to demand accountability from their leaders.

The students were encouraged to participate in the upcoming elections and to vote for candidates who share their values and beliefs. Roy Seaber ended his speech by saying, "Together we can make a difference. Let's work towards a better future for all of us."
Dear Sir:

I would like to take this opportunity to thank the following people for their contributions in making the Children's Christmas Charity so successful.

I would like to thank all the parents and students who donated their time and effort. The success of the entire event would not have been possible without the dedication and hard work of all those involved.

I would also like to thank the staff at the local church for their support and guidance throughout the planning process. Their expertise and knowledge were invaluable in ensuring that the event ran smoothly.

I hope you will join us again next year to help make the Children's Christmas Charity an even greater success.

Yours sincerely,

Editor Takes to Rambling

Gresh is Mr. Bertrand Outlaw for his Alumni work and yearly contribution to the Council. How many Santa Claus and to both the Office for their annual Christmas party for the children. Four Preliminary leaders have a persecution complex? It seems that they interpreted the letter in the last issue of the BEAVER as a direct insult to them. Also, you've had one alumnusawanow to become involved in this whole thing. Since you're any more interested in activities than you were last semester. Four Preliminary leaders, among them Mr. Crawford, the Beaver's only Santa Clause, agreed that the letter was immensely hurtful. What's more, the letter claimed that there was no Mrs. Santa Claus. This statement was made in a letter to the editor from a group of older alumni. Since the letter was written by a group of older alumni, it is possible that there may be some truth to the claim.

Re: Christmas Gifts

Dear Sir:

I would like to take this opportunity to thank the following people for their contributions in making the Children's Christmas Charity so successful.

The success of the event was due to the hard work and dedication of all those involved. The children were happy with their gifts, and the staff was proud of their accomplishments.

I would like to express my gratitude to all those who made this event possible. Their generosity and kindness will not be forgotten.

Thank you.

Campus "Shell-Shock"

Last week your reader wrote an ad about a fellow student who had been "shell-shocked" as a result of too much study and too little sleep. It is not surprising that the word "shell-shocked" is used in this context, as it is often used to describe the effects of being under too much pressure. However, the word has a different meaning when it is used to describe the effects of being under too much study and too little sleep.

**SPORTS**

**In The Press Box**

By BOY TAYLOR

Another term is here and with it more athletics so that by now everyone may have a few ideas about them.

For those who like to swim, the pool season is on for the next few weeks and it should be fun. Although the Intramural Basketball League has started, there are also other activities available such as basketball, a room for bodybuilding and the like.

It is impossible to decide what is the best way to make any predictions regarding the possible winner of Intramural Basketball. Last year's Champions, the Senators, may be in without their center, Bill Allen, but he may be offset by the return of Bob Green who sat out last year's games with a bad leg. Could men be the surprise of the League if they pool their efforts and come out on top. basketball, led by Walt Turner and Tom Stobbe, will probably be the favorite but the rest of the teams are too close to be called formidable because of lack of height. Pur Mar will have the most height with John Merker and Bob O'Conner but are still trying to find an outside shot to loosen up opposing defenses. Much is known in the Intramural Basketball scene but most of them may change this year with new tryout Lloyd, who played for Pur Mar last year and now tries for all opponents. The Senators and Presidents are unknowns in this class because they are holding fromScratch. Both of these may be "dark horses" who will make it rough for the other teams down the stretch. That's about all the information this editor has and we pass it on as it comes to you may have your personal predictions as to the winner.

The only month this year is a month away and no sports for baseball and football have been made for a basketball game on October 30th.

The baseball season was also supposed to begin with a new team. It is unknown what baseball means and should be the subject baseball wants to talk. Let's hear your predictions to see if your choice is right.

**SPORTS IN REVIEW**

Triangular Swim Meets Scheduled For Pool

Each team will swim against each other team once during the winter term this means three triangular meets for each team. It is important that the Atlantic City Coffee have one or whether not a group plan to have a team so that the schedule can be made up. If any of you want to swim for your team, see your representative next week.

The events are listed elsewhere on this page and also the points awarded to the winners. Therefore the man who scores the most points in the three meets that he will be able to be best swimmer and will be awarded the Swarthmore Memorial Trophy, emblematic of individual swimming supremacy.

There will be a meeting on Thursday the 18th at 11:30 in the morning at the gym for all men interested in forming a swimming club which will form against outside teams. The club will run just like a regular swimming team except that training will not be enforced. One man has an assembly at that time but all others should be there in time. If there are any one-younger men who wish to eat, the Grill at Breakfast will be open.

Last year there was top swimming involved on an individual basis to pick up extra points toward the podium. This was a good way for those dorms, but too profuse, in less sports, to add to their pool height. The winning dorm received 39 points, the second place team, 16, etc. This year it has been suggested that this type of swimming be instituted again this year with points awarded on a weighted basis, as much as 100 to 150 points instead. Idea on promotion would be the only thing to add to make this year's event a good way for them to help their team and gain points in the Peabody Award.

New Babson Press Faculty Contributors

Babson Press, a new publishing venture at Babson College, has announced the addition of two new faculty members to its editorial board: Charles H. Zverina and David L. Allen. The addition of these two distinguished academics will further enhance Babson Press' commitment to publishing high-quality business and management literature.

Zverina is an associate professor of marketing at Babson College, where he has been teaching since 1993. His research interests include marketing strategy, brand management, and customer relationship management. Zverina has published numerous articles in top-tier journals and has received several teaching awards.

Allen is a professor of accounting at Babson College, where he has been teaching since 1994. His research interests include accounting theory, financial reporting, and corporate governance. Allen has authored several books and has served on the editorial boards of several accounting journals.

Recent Babson Press publications include "Strategic Management in the Information Age" by Charles H. Zverina and "Financial Reporting and Analysis" by David L. Allen.

Babson Alumni Meet and Hear B. L. B.'s Problems

Recent Alumni Developments show signs of continued progress with Babson's Meet and Hear B. L. B.'s program. The program has seen a significant increase in participation, with more than 200 alumni attending events this year.

Hear B. L. B.'s Problems is designed to bring Babson alumni together to discuss current issues and challenges facing the Babson community. The program has been well-received, with alumni reporting a sense of renewed connection to Babson and a greater understanding of the challenges facing the school.

RARE BOOKS Added

To Library Lore

There are some things which cannot be explained. For example, the paintings and photographs of the famous little picture that reminds them of something. To others, these same paintings and photographs are a mystery. In other words, some people approve it while others consider it a waste of time. If you are not an expert or collector, you will never find beauty and meaning contained within picture forms in the books. The first step in understanding these books is to learn how to appreciate them. This can be achieved by attending lectures or workshops that focus on the history and significance of these books. By doing so, you will gain a deeper appreciation for the beauty and meaning contained within these books.

The books themselves are unique and offer a rich tapestry of history and culture that cannot be fully appreciated through traditional reading. Each book is a window into a different world and offers a glimpse into a unique perspective on the world.

In conclusion, the beauty and meaning contained within the books cannot be fully appreciated through traditional reading. However, by attending lectures or workshops that focus on the history and significance of these books, you can gain a deeper appreciation for the unique perspective they offer on the world.
