AT LAST—A BUSINESS ENCYCLOPEDIA THAT CAN'T GET OUT-OF-DATE!

Business has gotten down to hard-pan. The day of easy profits through old, rule-of-thumb methods has passed. The men who will make new profits for their firms and fastest progress in their firms are those who are reevaluating their own experience, weeding out the methods and ideas which have fallen short in the crucible of these times, and are now seeking to widen their knowledge of all businesses, in addition to their own.

Such men are rebuilding the present into a sound foundation for a prosperous future. Realizing now the inter-relation and inter-dependence of all lines of business, they are hastening to broaden their vision, and to keep pace with the procession of new developments in every business field.

For these men leaders of today and leaders-to-be of tomorrow has been prepared a new business encyclopedia that can never grow old!
