Blue Key Initiates

Three New Members

BLUE KEY NATIONAL HONOR SOCIETY recognizes and promotes undergraduate men and a faculty member, John R. Eustace, Bill Floretti, Lon Peak, and Clinton Peterson were selected for membership by a unanimous vote of the Blue Key members on campus. Each new member will be recognized at the traditional ceremony, scheduled for 12:30 p.m. on Tuesday, January 18, in the Newman Center. Those present will be entertained by the Music of the Remains.

Admissions Revised:

Mr. Frank Winch, II, a 1963 graduate of Babson and now Director of Admissions for Babson, has sought to influence Babson of a continuing flow of top quality students, and although he has been here only a few years now, the result is already noticeable. The end of the second year of his new program, 1964-1965, yielded a 60-65% increase in applications for admission.

Rush Program Under Way:

Eligibility Requirements Listed

From the first day of this winter term till midnight of Sunday, January 17th, the three fraternities on campus, Alpha Kappa Psi, Delta Sigma Pi, and Alpha Delta Pi, will hold their annual winter rush. Altogether there are 166 students eligible for this rush period, and an effort will be made to increase the opportunities in participating in the social and business activities of these fraternities.

Judicial Court Refurdoent Passes Student Easily

On January 4, 1965 the Judicial Court referendum was passed by the student body. Of the 536 votes cast, 469 were for, 27 against, giving a 97% majority, which exceeds the 2/5 majority required, demonstrating the overwhelming support that our Judicial Court has with the Babson community.

School Assembly

On January 18

There will be an all-college meeting on Monday, January 18 at 10:30 A.M. The purpose of the assembly will be to acquaint the student body with the plans for and the present position of the proposed Student Center.

In October of 1963 the Student Government Committee, headed by Paul Collins, presented a plan for the construction of a Student Center in the present position of the Music of the Remains. The plan included improvements for the development of the following facilities:

- Better music room
- A more attractive and comfortable lounge
- Extra restrooms

The current plans would better satisfy student needs.

The Student Bar would be supplied with keg dispensing equipment to allow students to order beer, wine, and other non-alcoholic beverages to their doors.

Newspaper and periodicals. A Mail Room with local personal mail boxes and a tellers window for the use of the check cash. A large Social Room for class or School functions such as dances.

The center would also include study cubicles, a Quantoniac machine, a Student Book store, and smaller meeting rooms, and rest rooms.

The entire cost of the project would be about $10,000. Contributions to date have been less than $2,000. According to Mr. Stephen, one of the greatest complaints that students have against the administration is that "there are always being done in the Rush way possible." With $500, the committee can only do $20,000, and they expect to receive a better environment from the student body because of the necessary lack of finish and quality in the Student Center. The student body has accepted the responsibility for this project and yet one student has no more than a pledge or a pledge towards this fund.

Marketing Association Plans Open Meeting

The Babson Chapter of the American Marketing Association (AMA) will hold its open meeting on Tuesday, January 19, 1965, in the FolCory, All interested students are cordially invited to attend. The agenda includes a movie, a speech on advertising, a question and discussion session, and a formal meeting with the members.
TO VISIT OR NOT TO VISIT?

"December 3, 1964...The President announced today that he had accepted, with regret, the resignation of Assistant Provost Robert L. Kriebel to take effect at the end of the 1964-65 academic year." The publication of this letter brought a shocked reaction from students and faculty alike. "We have been treated unfairly," said one student. "The whole administration seems to have been treated as if we were in high school. Thirdly, he believes that it is very nearly time since the visits are announced well in advance.

Three essentials of a good teacher, which a division head would look for: knowledge of the subject, organization of material, and the ability to communicate with the students. Mr. Kriebel stated that a division head does not have to go into the classroom to check for these three essentials. The degree which a teacher holds, however, can very well answer the requirement of knowledge of subject matter. In an interview, however, he was a Ph.D., and has a book published in the near future. Furthermore, he would be willing to give a series of public lectures for those seeking to learn from him. If one wishes to know the material being studied, in most cases the syllabus or exams covering certain topics will be available to those who wish to know more.

It is exceedingly dangerous because the visitation program could be misused. The classroom is a sacred place in which truth and knowledge take priority, and must be protected from interference if the best kind of teaching is to go on. In these words Mr. Kriebel expressed his opposition to the visitation program. Mr. Kriebel does not wish to leave Babson Institute. He is, extremely loyal and devoted to Babson. He expressed concern for the students here. He stated that his resignation was the result of his nonacceptance of the program, not of other reasons. And as Mr. Kriebel put it, "If all fairness to Dr. Keight, he had said that he did not wish to change the policy. "If you want it, fine, I can not control it," he did not ask to have it changed."

Now it all boils down to this, President Kriebel has his principles and intends to defend them by enforcing this policy. Dr. Keight's has convictions and purports to defend them by leaving. We're not defending the President's principles nor are we supporting Kriebel's convictions. What we are doing isany situation, is pro or con, as opposed to 72 last fall; of the juniors 36 are on term pro and 38 are on special pro. In 27 years, this is the first year. For the seniors, the statistics are 70 this past term and 48 last year on term pro, 17 on special pro. As opposed to 14 last year.

A look at the bright side of things informs us that the Dean's list now being compiled will be released sometime next week. A bit of advice, in the form of a humorous quip, to those on probation was given by Dr. Carpenter, "When evening comes, look up."

PROBATION PANACEA

"There is something rotten in Denmark," the old friend Meeks, "I've come to say farewell. "This was Meeks's last trip to 180, but he has no reason to worry. A total of 244 students are on probation and another 50 students were dropped because of a poor academic standing. Percentage wise this means that there were 126% more failures this year than last year and 245% more probation cases. The school average is 2.31 down from 2.35 last fall. Why what is responsible for this sharp decline? Have we been treated unfairly? Says Registrar Stewart L. Stokes, Jr. "Not one of the students I've talked with feels mistreated."

This past term may have been more difficult than in the past. Indeed, the curriculum has been stifled by the elimination of several courses, and the greater emphasis put on others. Whatever the reason, the responsibility still falls to the hands of the student body. Babson is a progressive school, it is one of the few to develop a self- accelerated curriculum. In this curriculum the student covers three years worth material in two years, and has a "spare" time that they enjoy. As a student at Babson, "spare time" does not exist. The result is a conflict of interests. The tendency to "play a little" is a strong one but in the accelerated program it cannot be done.

Though the attrition rate is up from last year, it is still low with respect to the past. Of the fifty failures this year 38 were freshmen, 20 were sophomores, and 11 were seniors. This is a rise of 72% over last year for freshmen, 35% for sophomores, and 67% for seniors. Percentages for probation are as follows: The visitation program is quite possibly a trend, with the number of students in 27 years now reaching 48 last year on term pro, 17 on special pro. As opposed to 14 last year.

A look at the bright side of things informs us that the Dean's list now being compiled will be released sometime next week. A bit of advice, in the form of a humorous quip, to those on probation was given by Dr. Carpenter, "When evening comes, look up."
Eight Outstanding Students Elected to Who's Who

In the final week of last semester, the administration announced that eight seniors had been elected to WHO'S WHO AMONG STUDENTS IN AMERICAN COLLEGES AND UNIVERSITIES, the organization for which Roger Ernico, Howard Korman, Gary Reynolds, Barry Freedman, Peter Smith, and Malcolm Cook.

Rejection by WHO'S WHO AMONG STUDENTS IN AMERICAN UNIVERSITIES and colleges means that the student was, first officially recommended to the editors of Psychological Abstracts where he attends and, then accepted by the organization. It is a form of recognition conducted by campus committees and usually involves an unofficial, student-administrative participation. Nominations must be signed by a member of the faculty or administration by another member designated to verify nominations and to attest to the reputation and character matters of the college. Members and committee members remain anonymous unless released by local campus committees. Nominating committees are requested to consider the student's scholarship, his leadership, his campus and extracurricular activities, general citizenship, and his promise of future usefulness. There is no competition for the title, which is the fulfillment of the nominating nominations, as their curricula and records must so far too greatly to permit accurate comparison. The student participating is assigned a separate guide as a form of concentrated representation of the student's character and achievements. All of the same is true of the outstanding college and its activities. Students who have been accepted for recognition are notified directly by WHO'S WHO AMONG STUDENTS IN AMERICAN UNIVERSITIES and colleges and are required to submit their own biographical material. The entire school year is required to complete the publication and print the publication, each new edition usually released during the following summer.

The creation of one national body of recognition for college students that would be democratic and devoid of dual initiations for or other cost to the student was conceived about twenty-nine years ago. Then came two years of research, correspondence, travel and interviews with college administrators, personnel managers and students and undergraduate organizations to determine whether there was a need for such an organization as WHO'S WHO AMONG STUDENTS IN AMERICAN UNIVERSITIES AND COLLEGES. Endorsement of the plan and the corresponding venture; thus the publication was first printed for the school year 1894-95.

If women remain unrepresented, there is a largely voluntary servitude.

Look From the Outside

American College Students Lacking in Social Manners

By MOORE ELGHANAYAN

Why are young people so impolite, and what can be done about it? "Man is the creature of circumstances, driven into his English philosopher of the 19th Century Sir Thomas Hoblings, who laid down the basic rules for politeness and courtesy necessary for a civilized community.

In his remarks Sir Thomas tries to explain why people have complete control of their own characters, but are very multiplicitious in the context. This is in fact the atmosphere around them and their circle of influence. The more familiarly one's nearness, the more closely the state of the last three months, that Impoliteness seems to be a way of life for the American youth. Previously, I had studied in England, and in one of these places I have seen no such kind of people as in America. Words fail me to put forward by argument, and perhaps I could clarify myself by my action. As you know, when the freshman class had to attend a lecture where there were students in my class who were sitting with their legs turned to the rear, and their feet in front of them, and who were busy with the class. This is, of course, not very great, since these people did not sit in the same place and were not in the same place and did not make the same kind of noise. But these people, I thought, would be more strict about how they dress, and how they behave, and most of the parents should move their children and teach them how to be polite.

A GUEST EDITORIAL

By Dr. ZURBIUS

When you're hit by a bus the company's liable. But do you do wrong when you run down by Bible? What is the recognition? What can be done when graduation is held up by Hum, 941?

You could holler and shout till your voice was hoarse, but in 22-802 for all the time. But sometimes you can't cause your average isn't thug. Perhaps all should ask the medical WHY, WHY is there Bible? What is the reason?

SKI WHERE

The Girls Are

New Hampshire's ski slopes are where the boys are. Of course the girls if your fancy runs to the fair sex.

Take King Ridge at New London, for example. The attention of ski make is very great to be distracted by a comedy Gally Junior College girls, since its campus is but a hilly section in this girls' ski area. In fact, C.J.C. owns a piece of the development, and what's more, its students gets all, ed, credits for skiing there.

As New England College at Hanover lies within the shadows of the presidential, and Sunapee and Sugarloaf are just up the road "alpine" from N.E.C.

Bellmound College at Center Harbor, with its magnificent Gunstock, Gunstock-Gilford with its famous Pony Pisto 51 School and Bright Doctor College lies within the shadows of exciting Cannon Mountain, Franconia Notch, a quick run, too, from Plymouth Notch, the hub of these areas plus Ternus Mountain and Hainesville Valley.

New Hampshire areas are so.

For the benefit of the students of the greater Boston area simply because it's only about three hours' driving time to the Granite State's northernmost ski areas. A couple of gals, Gunstock and Rittman, may be reached in just over two hours' travel.

Expressways reach almost to the threshold of several area and New Hampshire is widely regarded as the country's winter vacation center.

Information about the 25 major areas may be obtained by writing to the Ski Editor, Division of Economic Development, State House, Concord, N.H., 03301, and after the Winter Guard. A companion piece, "Winter Holidays," lists more is true, on the major areas, and the advertising of hotels, lodge and restaurants.

Some of these publications available are "At the Charlotte Vacation Centers" in Boston, Cleveland, Montreal and New York.

Skiing sometimes we are baffled to force those who are one-and-a-half-wished to the half-wished, because we appreciate only a third part of their will.

-Henry Thoreau

Sex ???

ROCHESTER (CPS) — The I.F.C. at the University of Rochester has passed a resolution outlawing "sex" in any fraternity house or (non-house) lounge." The resolution adds the council does "not want to legislate on the morality of any individual fraternity house or lounge but must prohibit such acts in fraternity houses and lounges" because of possible injury to reputations.

The code, the student newspaper, the Campus Press, was passed in an attempt to move the university toward a code of conduct for uniformity in social standards throughout the campus.

Student variance continued concerning the administration's opposition to the so-called "room rule" which prompted the I.F.C resolution, but one student commented: If you take a girl in your room, you should be able to entertain her any way you want.

What Will I Do? Questions, Questions...

By Robert Finley

EXEC Features Writer

After graduation what will I do? Will I work or go to graduate school? What type of job do I want? How do I go about applying for a job?

These are questions which a senior should have already asked himself and questions which a junior should now be asking himself. One can make the above decisions easier by visiting Miss Elizabeth Kebby, head of the Babson Student Placement Office. She has a file on many graduates and jobs, and she will show the file on any specific area of interest one may have. She will then conduct a search for the right job and tell you what the requirements for the job are. If one is in doubt about what job is best suited for him, he can ask Miss Kebby to file on how to choose a job.

Although one can learn a great deal from the files, he may still lack some knowledge concerning a job, an application for a job, or an employer. Miss Kebby answers many of the prospective employer's questions by setting up a schedule of employer tours and job interviews. During these visits, the students meet with companies for the job in which the student is interested. At present, seventy companies are coming to Babson to interview students.

To further help the student, Miss Kebby sponsors annual job surveys for the seniors. These programs are designed to aid the student in finding job interviews and in filling job application forms correctly.

If after filling out the Babson Job Data Book, filling out application forms, and telephoning several companies, one still wishes to find a better job, he need not consider himself the only one in the same situation, and he need not give up job hunting. Miss Kebby and her staff will conduct a letter campaign for the student to get the job he desires. Not only is this one of the most successful ways of finding a job, but also a means of saving the student's time because he does not have to write the letters. These letters contain the student's qualifications and a recommendation for the job and are sent to companies which have jobs open in the field desired by the student.

Although Babson via Miss Kebby contacts many employers, many employers simply phone Miss Kebby and describe a job and ask if there is a student at Babson who can fill the position. Since the placement service is available to all alumni, Miss Kebby can supply the name of a Babson alumnus to a Babson student who is not qualified for the position.

For those students who are going on to graduate school, Miss Kebby can help the student in planning the graduate school board examinations which are required by many graduate schools. Miss Kebby will help the student in choosing the school which will be of the most benefit to graduate school for a particular student. A student's record is included in the benefits of graduate school for him. As one can see, Miss Kebby's job is quite difficult and requires tact, patience, and cooperation with the student. Miss Kebby has been doing this job for over fifteen years. She came to Babson after graduating from Wellesley College in 1947. She has become one of Babson's most valued employees and a great help to the students. Whenever a student has a problem, the student should give the placement office a chance to help solve the problem.

In conclusion, the Brothers of Delta Sigma Pi are strongly encouraging the eligible freshmen and juniors of these classes to attend this event at the Cambridge Boat Club.

In the United States, education, as distinct from earning a living as a profession, is a highly controversial matter in which the student trudges to get through it. (Edgar Z. Friedman)

Swimmers

Continued from Page 8

in George Washington and they have received permission from the administration, but what is needed is more permission. Bob Hanes, a member of five of the squad's nine swimmers, is the only one of the nine performing in the meet.

In addition to the swimmers, the squad includes seniors Rich Dansen and Paul Wicpskis, who are swimmers now preparing for diving. This is due to the loss of the team's number one diver because of academic reasons. The junior on the squad is Terry Clark, who is a member of the diving team. The seniors who are freshmen round out the squad Dave Smith, who swims the individual medley, placed first in this event against Holy Cross on the 50 and 100 yard freestyles; Bruce Williams, who swam the 50 and 100 yard backstroke, and Carl Smith, who placed third in the 50 and 100 yard freestyle events; Bruce Williams, who swam the 50 and 100 yard backstroke, and Carl Smith, who placed third in the 50 and 100 yard freestyle events. The team's time distance man in 100 yard backstroke. He will be swimming the 50 yard freestyle event in the meet and the 50 and 100 yard backstroke events.

Delta Sigma Pi is conducting an open meeting every Friday afternoon at 3:00 P.M. in the forum room. Delta Sigma Pi is the national fraternity of the Alpha Sigma Pi Open Meeting.

The Brothers of Delta Sigma Pi wish to extend an invitation to all eligible freshmen and seniors to attend their Open Meeting to be held Thursday, January 18, at 7:00 P.M. in the forum room. This is the third meeting they will hold this year and the last one before the winter term.

Heartiest congratulations to Donald A. Schwab, who is the new graduate of Babson, on receiving the Jeffrey Zach Award for mem- ber of the year. The award is granted to the Alpha Sigma Pi Outstanding Senior Award.

Congratulations are also in order for our new chalices. They are President, Timothy L. Martin, Vice-President, Francis DeMambro, Secretary, Bruce A. Donnelly, and Treasurer, Douglas F. Hood. Congratulations to these men, we are sure that they will do a fine job.

The Brothers of Kappa Alpha are also in charge of the Alpha Sigma Pi Outstanding Senior Award.

Board members are:

President, Timothy L. Martin, Vice-President, Francis DeMambro, Secretary, Bruce A. Donnelly, and Treasurer, Douglas F. Hood. Congratulations to these men, we are sure that they will do a fine job.

In recent months there has been a great deal of activity in the financial scene. Stocks, due partly to the high prob- ability of depression, have dropped to the lowest level of the past few years, and the raising demand in the economy is characteristic of the period of the early 1940's. The British balance of payments deficit is caused by the low gold price, and the British exports are far from being competitive with those of the United States. The British are making efforts to stabilize the balance of payments, but they are not likely to be successful, particularly as early as February. This has created a problem for many of the world's major currencies— including the dollar.

The position in the quotas for the International Monetary Fund is based on the world's standard of gold, and the dollars that the United States has to trade in the IMF are approximately 200 million dollars. The dollar is the world's major reserve currency, and the dollar will be used as a basis for many of the world's monetary exchanges. The dollar is the world's major reserve currency, and the dollar will be used as a basis for many of the world's monetary exchanges.

**Alpha Kappa Psi Has Busy Season**

This is the busy reason for fraternities, when all the Brothers are trying to familiarize the potential pledges with the advantages of fraternities, ALPHA KAPPA PSI is in session, and urges all eligible students to attend the open meeting and acquaint themselves with the Brothers and the activities of the chapter.

ALPHA KAPPA PSI is a professional business fraternity, the first and oldest of its type. Gamma Xi Chapter is active in both the professional and social activities of the University. The advantages of being affiliated with this esteemed fraternity are combined with the traditional leadership, scholarship and philanthropies of the active local chapter.

As President, Brother Jeffrey Graham was elected to the office of Master of Initiates, a position on the chapter’s Executive Council. This is the only office vacated by the graduation of members last term, and as a whole the fraternity did better than its average for the overall student body. This is attributable to the mutual aid given to other members during periods of stress.

Last term’s events were typical of the constant activity that is indicative of our Fraternity spirit. Social events included parties at Brother Graham’s residence on Insley Beach, several parties during Fall Term in the Hotel in Mellows, the Belmont Lion’s Club, the Fall Term Banquet at the King Philip’s in Wrentham, and of course the unforgettable, most successful Phoenix Hall Inauguration.

Many of you attended the Winter Wonderland dance at the Sidney Hills Country Club last Saturday night. This is just a sample of things to come on ALPHA KAPPA PSI’s social calendar. Winter Weekend will bring more parties, a pining ceremony, and a banquet. Spring Term means Masquerade Day, Weekend, and the annual Steak Exchange Trip to New Hampshire. In between these events there will be parties and other activities too numerous to mention.

The professional program includes a joint meeting of A.K.Psi and a meeting of the Alpha Lambda Delta, Professional Meetings, field trips, and research projects complete our exciting program.

Besides national publications such as the KAPPI, Brothers of the chapter receive the GAMMA MPS LETTER, a Chapter publication with news and announcements to brighten up your weary spirits.

ALPHA KAPPA PSI participates actively in intramural sports in the content in order to exhibit our athletic prowess, show our spirit, and enjoy a good game. It is no matter whether you win or lose that counts but how you play the game, no good sportsmanship is paramount.

Brothers of ALPHA KAPPA PSI are also active members of the campus community. Great pride is taken in those Brothers who hold offices in other organizations, for it indicates a versatility and active life. Many important positions are added last term in an already impressive list of Brothers.

The chief attribute that distinguishes ALPHA KAPPA PSI is FRATERNITY from other organizations.

**Admissions**

Continued from Page 1

The annual Banff Film Series will begin this Friday evening and continue on a weekly basis throughout this term. These films are open to the entire faculty and student body and it is hoped that many of you will take advantage of this program.

The premier of the series at Knight Auditorium at 7:30 P.M. will be a showing of THE UGLY AMERICANS, a popular production featuring Marcel Brando and Sandra Church. This color film has been adapted from the best-selling novel of the same name by William Lederer and Eugene for the Centennial.

In order to see one of the most timely adventures of our day U.S. Ambassador to the Kingdom of Saudi Arabia is faced with the task of quelling Red-infused riots and restoring order to this war-time, divided nation. The producer-director in Asia explodes in this elaborate and exciting screen production. These films are part of the Student Activities Program, and are presented free to all as long as a few simple rules are followed. Violation of any of these requirements will cause the series to be discontinued, in the midst of a show if necessary.

There will be NO DRINKING or possession of alcoholic beverages at any of the events. An extra copy of these rules will be distributed to all who attend, especially considering the presence of faculty members.

**No Imbiping**

---

**Frat Game**

score, Gode took a short pass for the extra point.

On the next kickoff Delta Sig recovered a fumbled ball scored in two plays, Florence hit, Ward made a fine block with two men on him at the 5 yard line. On the next play Delta Sig scored through a huge hole made by O'Neill and Mace and scored untouched to put Delta Sig on top 7-0. Peter Cooke rounded right end led by Weiner for the extra point to end the scoring.

The two most exciting plays were yet to come however, John Rothenburger caught a screen from Joseph over thirty and ran at him with 5 Delta Sig before Paul Hirsch made a diving flag grab at the ten yard line.

Delta Sig proceeded to hold for three plays and then Penot attempted to flip a field goal to put AK Psi in the lead. On this attempt O'Neill broke through to smother this attempt.

There were many outstanding plays by both teams. The all star play of Rothenburger and Dunn was outstanding for AK Psi, The Delta Sig defense was great led by Cliffe, O'Neill, Underdorfer and Kormann. Florence, DuRant and Barefoot were outstanding on offense.

As stated previously, organization seemed to be the big difference in the game. AK Psi put up a gallant fight with given proper credit. It was a fine display of sportsmanship and comradery by both teams and all who watched were impressed by this phase of the game.

---

**Sometimes progress amounts to a hill of beans**

How do you fight starvation in the hungry parts of the world? Start with a show . . . or a couple of dozen in one of the 46 countries where the Peace Corps works. Start with a small plot of land help. Start with a baby. Start with a scouring chicken and fatten it up with a proper diet. Start with a handful of people and teach them all you know about farming. There will be NO DRINKING or possession of alcoholic beverages at any of the events. An extra copy of these rules will be distributed to all who attend, especially considering the presence of faculty members.

For more information, write: THE PEACE CORPS, Washington, D.C. 20526 Published as a public service in cooperation with the Advertising Council.
Babson Downs AKPsi 32-0

On Saturday afternoon, November 21, 1964, the Babson version of the Hose Bowl took place on the athletic field as two undefeated powerhouse teams met to decide the winner of the Independence Day football game. The second décor of eight of the top 11 players, whose scholarship was largely furnished by the Board of Education, was the respondent. Coach Tom Smith has acquired enough new boys who have great potential. Freshman Bill Bogler will certainly prove to be a big asset to the team once he gets in top physical shape.

The big 6’3/4” center has made his presence a pleasant surprise to the squad. Bob King, a 6’5” forward, and 6’3” Karl Toot should also be a big help to the squad. King has already proved himself with a fine point effort against the alumni. King has a fine baseline drive, a good jump shot, and he is a fine shot blocker. Another freshman who should do a good job is Gene Wilson. Gene is a real good center and should develop well.

Other new boys on the squad are senior halves, Mike Flahage and Mike Elle. Mike Flahage and Mike Elle.

Saturday’s game was a study in all the way down the wire. Finally, in the fourth quarter the ever-vigilant guard Ron Noon took over the offense. After having hit all but one of ten half points on long jump shots, Noon began to drive for the backcourt and he hit his last field goal and five of six from the line, giving him 12 points. His effort was timely.

Coach Tom Smith was an all-star selection and his total of 40 points, John Adam was also an all-star selection.

The alumni was led by Bill Linnig, Linnig, a former big boy for the Babson, he showed off his tremendous speed and shooting ability to good advantage with 20 points. The forward forward showed fine teamwork - something that has been lacking at Babson for a long time.

Swimmers to Face Norwich; Probation Hits Squad

The first meet of the year for the swimming team is scheduled for this Saturday at the Norwich University pool in Norwich, Vermont, led by Captain John Lundy, the team has been practicing very hard since November.

Swimmers to Face Norwich; Probation Hits Squad

The first meet of the year for the swimming team is scheduled for this Saturday at the Norwich University pool in Norwich, Vermont, led by Captain John Lundy, the team has been practicing very hard since November.

Even though there are a few good swimmers on the squad, the outlook for the season is not too encouraging, as a score of 6 is the season record of the team. At present there are four swimmers on the squad, due to the size, the team has to forgo some events and each swimmer is only allowed to participate in two events plus one relay. Last November there was a fairly large turnout, but many of the boys felt that they couldn’t help the team and quit. It was Captain Lundy’s opinion that these boys could have definitely helped the team but they quit. Regardless of the fact that there is certainly a lack of interest on the part of the swimmers, there are some possible reasons for this that could be poor seasons in the past, sparsity among the student body, and afternoon practices during practice. The team does have a fine coach.
