FOUR FRESHMEN WINNERS 1964 "PLAYBOY" ALL STAR POLL

Weekend Agenda Sparks in Future

When Maynard plays there is little doubt he will be in top form. For Saturday evening's semi-formal event the Baham Student Government's Social Committee has contracted a most sensational group. They are The Isley Brothers. They have a long list of recordings and an even longer list of past engagements. Such acts as "Twist and Shout" will be sung that evening, the 5th of February at the Hotel Continental in Cambridge. To insure constant entertainment for the audience and an occasional rent by the Isley Brothers two bars will supply excellent dance music.

An enjoyable afternoon may be had by attending the theatre guild's production of Little Abner. Every one is working hard to make this the greatest year yet. Tickets for the whole Winter Carnival will go on sale in a couple weeks and are expected to be knocked out. Tickets for individual events may also be purchased at this time.

So for a well rounded fun filled weekend attend all the events of the Baham Institute Winter Carnival.

Dean's List

(Based on 3.10 or better Term Average, for Fall Term, 1964. And no more than one Cplus."

All other grades must be B- or better."

VOLUME TWENTY NUMBER NINE

BABSON PARK 57, MASSACHUSETTS, WEDNESDAY, JANUARY 20, 1965

DEAN'S LIST

Maki, Hideo
Mau, John G.
Mears, Thomas J.
Oak, Alan D.
Olson, John L.
Ottnar, David J.
Rothman, Morris N.
Vinson, Ronald O.
Vincola, Lyman D.
Wald, Robert, W.
White, Gary C.
Wilkinson, George W. Jr.
Wildin, Jeffrey R.

Also on Dean's List for last term.

EDITORIAL

"Evolution for revolution, the policy of our government." This, according to Dr. Robert L. Keighley, Professor of Government, has been the policy of our government and provides the main topic for his new book.

"RUSH CONCLUDES"

For two weeks those students lucky enough not to be caught in the grade jungle of full term have been wined and dined by the three fraternities and at long last the pledge classes have been formed.

Beginning with ADE rush party of the senior Fraternity and ending with the Delta Sig blast at the Cambridge Boat House the rush period was totally competitive and most often very competitive in several years. All three frats as well as rushers adhered to the rules very closely and decisions were made in the best possible atmosphere.

Leading the rush for Delta Sig were Peter O'Keefe and the Cooper who did a tremendous job in netting a total of 50 pledges. ADE was led by Paul Warburg and received a total of 34 pledges. ADE, under the leadership of Tim Shaw, received 19 pledges. All three classes represent a wide variety of interests on and off campus. Once again the caliber of persons remaining in the fraternities has proven the value and strength of the"
AMERICAN MANNERS

America what she is today. There are, undoubtedly, many fault in American youths, as Mr. Pleydell points out, and moderation of certain rather impulsive actions would be a better thing, but on the other hand, European standards of behaviour seem to me sometimes to come very near into this as it would take little effort of their "polite- ness" there is always a wall of American "manners." Very rarely does a person have experience have a down to earth, friendly and sincere conversation. This formality, to the extent of being a feeling of unsuitable- ability type of atmosphere, would be the last thing I want them to have. I am just wondering what I concluded of my experiences in both European and American society. With a little knowledge, what can happen American "politeness". The "social drinking," "oh, everybody," "down-to-earth" type of atmos- phere. I wouldn't trade it for anything, would you old man?

Yours sincerely,
Percy Chang

Wall Street Week

Although 1965 was a year of strong advance by most stocks, there was no sign of any break in this general upward trend. Two most issues, recently depressed by tax loss selling, showed a considerable rebound in 1965. An outstanding example of this is SPERRY RAND (14 1/2). This company has been in the process of heavy selling pressure last year and has been increasingly bought in December. The bottom seems to have been reached and SPERRY RAND now appears to be an attractive com- mitment at this time. Earnings on the current year should exceed $1.10 for 1964. Projected earnings for 1965 are $1.20 and for 1967-1969 $1.80. The cur- rent position is only 51 1/2 times the current price. Although this is a high position, there is no over- nance in 1965. Another favorable development is that the Ultravac division should break into the black sometime next year after posting sizable losses in previous years. This division during the past has put a sizable drain on SPERRY's profits. Other divisions in the company are recording ade- quate profit with the exception of the Defense Division which is being "marred improvement.

SPERRY UNIONS INTERNATIONAL PETROLEUM (8-3 S.E.) has interests of petroleum drilling, and in past years has expanded into laid development. The company has been ex- hibitioning a program of exploration and favorable fin- ance selling, accompanied with a considerable rebound in 1965. An outstanding example of this is SPERRY RAND (14 1/2). This company has been in the process of heavy selling pressure last year and has been increasingly bought in December. Dr. Handler Receives Fellowship

City of Light is an appropriate name, especially if you arrive in Paris at night. There is a certain breathless beauty about the city. All the monuments are lit up, parks murmuring. I understand that they leave these on primarily because of Christmas. It’s sort of an European substitution for Christmas lights. They don’t have one large tree that can be seen from my jet as it taxies in for a landing. However, I mustn’t digress. All of the highways are lighted by means of mercury vapor lights. These stretch on as far as on as far as your eyes can go. The fog lights appear as arrow heads for below us.

I will not try to recount the rest of my week in Paris as we have seen through my own American eyes. There is so much strange and foreign things that we have seen. We have seen so many things which things which we have here are lacking. There and yet there are so many things which which we ourselves lack. We are so bored here. We are satisfied. You know, France isn’t as serious an affair as America.

At the airport the P.A. system is talking away in English. A man asked a stewardess “what are they saying?” I told him that the air traffic must wait, the stewardess version is next. The English version is not quite the same as the translation at the ticket counter. I couldn’t understand what the other passengers were speaking with such thick accents. I found this true throughout my stay there.

Naturally, France being France, so one shows us what we are to do once we’re off the plane. We follow the crowd and we end up in a large, well-lit building, the only one, Paris Museum. Frond. The luggage seems to be arriving. I slowly take my bag and wait to see what everyone will do. They all roam to the office of the...
Time Out....

With RONALD NATHAN & DOUGLAS TENDLER

Hats off to Tom Smith who has rebuked the Babson basketball team after having lost ten players, including many key lettermen. Thus far, the team has won two of their three games. With students support, we hope that Babson wins their remaining winning ways.

The Red Sox are now looking for a new pitching coach, since veteran Stottlemyre left them to accept a job with the New York State Athletic Commission. This should be a big blow to the Sox, who have been having pitching difficulties the past few years. Many boys on the staff including Wordsworth, Wilson, Morehead, and Pete Churn were counting on "The Barber" for expert help.

Last week, Red Sox Manager, Billy Herman, predicted that his ball club could finish fourth next season. We personally feel that Bill is a little over optimistic, in the box for no finish in sixth place. In order to finish higher in the standings, they would need a strong effort from newly acquired pitcher Dumas Dembet, a hardy Gary Geiger, and a strong performance from rookie first baseman Tony Tony Newton and Bobby Gunson, whose bats may not offset the offensive punch of the Red Sox.

Congratulations to the New York Jets who lead both professional football leagues in total number of quarterbacks. They have six, including $40,000 bonus boy Joe Namath and $200,000 rookie John Hauser, too bad they all can not play at once. Oh, but what a bench!

The Bruins and the Celtics are having their usual seasons. The Celtics are just fantastic. There is no team in professional sports that can match their winning prowess. At this time they are on a thirteen game winning streak. The Bruins are having trouble, which is common for them, but the optimism is to outdo the Celtics in home attendance.

It is not likely that Philadelphia's "O"ers coach, Dolph Schayes, is happy with his newest team member - Will Chamberlain. During the first few days Dolph has continually criticized the play of Will. Big step with film, if Will does not cut out after this year, as expected Philadelphia could give the Celtics a little something to think about in the future.

It is too bad for the New York Knicks that they will not have the services of all-star forward Bradley next season. The Princeton great will pass up a professional basketball career to further his education. He has been selected as a Rhodes Scholar. It may be that the Knicks will draft him away -- looking to the future when he does complete college.

Leave Friday February 5th, free. That night the Babson Basketball team will be playing their arch-rival, Nichols, at the Boston Garden. The Babson game will begin at 8 and will be followed by a Celtics-Royals game. This doubleheader treat is something that shouldn't be missed. So, write or call the Boston Garden for tickets soon.

Rumors have it that former Yankee announcer, Mel Allen, is attempting to secure a position with WEEV radio to broadcast intramural softball games this coming spring.

but of different composition. In some, there were no prizes in terms of old France and in other towns, there were. If they don't understand their own currency, how can they? This is designed to give them something to aim for. I'll have more on this later.

Getting back to my ad, I give the driver one large five franc piece and a smaller one to the stationmaster. The driver shakes and with my shaking, drops my paper. I have no idea what happened. My ad is not there. I don't know what happened. I don't care. I just want to get this over with. I'm going to Paris to pick up some new working papers. I have no idea what happened. My ad is not there. I don't know what happened. I don't care. I just want to get this over with.

We have to buy tickets in order to take our trains. The tickets are thrown out of the window by the conductor who pulls the handles. And some people talk about our country having two over- specializations and overcrowdedness. Well, the tickets are exceedingly overcrowded. They have two classes, first and second. Each of these are divided into subclasses. There are specialists for home, and families, and others. There are also specialists for commuters. Just the same, the regular ticket costs about $0.70 and the excessive ticket costs about $0.50. This strikes me as being quite a bit more expensive than I expected. The quantity discounts are nonexistent. Next year there will be some French facilities and stores.

Carnival

Continued From Page 1

The show itself, "L'Auberge," is a colorful and exciting experience for any audience. The actors, the costumes, and the music all work together to create a delightful atmosphere. The audience is a glimpse of what life was like in the 18th century. Many of the events, such as the famous carnival, are still popular today.

The production will be accompanied by a real live band. There are also additional shows, which are available for purchase. The band features some of the best musicians in the business, and their music is sure to get you up and dancing.

The tickets are free and open to all students and members of the faculty.

Babson Beats Saint Francis

Bows To Nasonn College

Ron Nathan, a 6 foot junior from Hartford, Connecticut, scored 32 points last Tuesday when Babson a well-deserved 72-58 victory against Saint Francis College. Big Carl Toldt aided by hurling down 17 rebounds, until Bobby King pumped in 16 points to force the Hooperats their second straight victory.

Nathan has become the backbon of the Saint Francis cupboard. His 16 points a game calls all the signals both offensively and defensively. He is continually to be the club's leading scorer. He scored a record 16 out of 84 in his latest effort with 8 field goals on the way to victory.

The game was close all the way. Saint Francis pulled ahead early in the game but couldn't hold on to it. Babson continued to slip away and came up with a 1-2 point margin. That will keep them in the game. In fact they held Saint Francis to 3 points in the first half. But, Junior Handy Polo and Bobby Gunson were too much for the free throwers. Babson was outscored by Saint Francis by 3 points in the first half, but held on to their lead and scored a 20 point victory.

The next game Saturday the players will travel up to Springfield, Massachusetts to battle a strong Nasson College Quinet. Babson was recently outscored by the Quinet from the outset and they quickly fell behind. Babson had a strong performance by a number of defenses (both of whom defended for the first half) and for the first time in the 18th century, a phenomenal exhibition of shot-making. The Quinet players all moved around the floor, looking for their shots. The result was a big win for Babson. On Saturday, the Quinet is now up to 7-0 on the season while Babson is 16-4. Ron Nathan once again Babson's leading scorer with 17 points while Bobby King had 14 and Ted Leifer had 15.
