While the attendance at Monday's meeting session of the IAM conference was down, the general mood of the delegates was positive. The decision by the government to withdraw from the IAM conference seems to be a general consensus of the membership. The presence of the government's representatives was minimal. The hour-long session was attended by approximately 200 people, representing various unions and companies. The session was characterized by a lack of interaction and a general sense of disinterest. The main points discussed were the implications of the government's decision on future IAM conferences and the potential for renewed efforts in negotiations. The atmosphere was somber, and there was a general feeling of disappointment among the delegates.
THE UNION WILL BEEF UP!

Incident at the Laundromat

The Gloucester Times January 29

Recently the washing machines at our Laundromat were out of order for a couple of days and the Mrs. ordered us to the Laundromat to get the laundry washed and dryed. A little incident took place there that seems to be worth noting.

It started with a young girl giggling at the cigarette machine. The machine had a young woman standing and giggling some more. Then he made a move and she started pumping quarters into it. He turned around with a big grin on his face and announced for all to hear, "At last I beat the machine."

A customer went over to investigate. He put a few quarters in, but when it came down to it, he gave it another try and got a few more quarters out of it. As most cigarette smokers know, if you want to buy a pack of cigarettes, you have to spend more than $5. The machine at the laundromat was broken. But the烟草 taboo - the customer who put his money in the machine was saying something to the distributor of his profit.

What struck us was that nobody was trying to sell cigarettes. They were doing everything wrong. They were all morally normal, they seemed to not care about the people whose only thought was they had been given a chance to beat the "system." They took delight in finding a machine that wouldn't take their money.

We find that incident symptomatic of our times. 65 cents a pack of cigarettes, and cadets have resigned after being caught cheating. (More may resign before this editorial gets into print.)

There are more than 3,000,000 cadets in the U.S. Army, and it appears at least 100 (one report, 300) resig

Another program on the Club's agenda is to visit high schools in the Boscon area and discuss with high-school students, (Negro and White) the educational opportunities offered at Babson, some of the Club's members will work with the Northern Student Movement. Those working with NSM will give tutorial help to those children reported by NSM of needing it.

As a long-run program for the Club plans to have a series of panel discussions in which prominent people in the field of social work will be asked to participate.

The Club meets every Wednesday (day evening in the North Lounge (the old faculty dining room) at 6:30 p.m.)

Not too long ago, Peter Schaffer called a meeting for all those interested in participating in activities designed to advance human rights. In the past few weeks the original group has expanded into a regular Campus organization; The Babson Students for Human Rights.

The group elected Justin Wehrme, president. Mr. Beaneirs has proposed many programs for action and has delegated three committees to coordinate the programs. Mr. Beaneirs accepted the position of faculty advisor for the organization.

The President, reported that Dean Cavanagh has shown favorable sentiments toward the new organization, and a charter would be issued in the very near future. Mr. Cavanagh is 10687 the behind the programs of the organization. He stated that Jonas will discuss with the Club issues concerning admissions to Babson by qualified Negroes and other qualified applicants.

The Club is planning to have Rev. B. H. Black, a local minister, speak on his current experience as a civil rights worker in the South.
On Friday the interfraternity rivalry resumes with the second of three finals for the coveted athletic jock. Delta Sigma Pi will try to garner the second win of the three against Alpha Kappa Psi. They defeated AKPsi in football during the fall and will try to attain the same this winter in basketball.

Last winter Delta Sig defeated AKPsi in a very close, scoreless game. Delta Sig was in front all the way but every time they would pull away, AKPsi would close the gap. This year’s game also appears to be a make or break. On paper, Delta Sig appears to have a definite edge but in a game with the spirit and enthusiasm which this game commands, anything can happen. Delta Sig will probably be led by last year’s high scorers, Al Gode (20) and Brian Barefoot (19), and AKPsi will have to lean heavily on Rodney Polen (20) who set a school scoring record this past season when he scored 41 points in a game. Dick Joseph also played a vital role and should supply some additional points.

The starters for Delta Sig will probably be Gode and Hovis for guard, Barefoot and Jere Bell at the forwards, and Dilladesso at the center. Gode and Joseph are the starting guards, and Bell is a starter on the varsity basketball team. The sixth and seventh men will be Mike Onelli and Bill Fierzen backed up by Ed Selden, Guy Reed, Bill Sleddie, Ronnie Uetz, John Atwood and Alistair Cook. This team is big and strong as they average about 1’71 at 210 lbs.

AKPsi should try and employ their superior speed and Joseph and Gode steal will surely keep them running. Forwards will be John Hotthumberger and either Davis Wilson or Steve Zagorn. Polen will be under the control of the full guard played on the varsity and Joseph was a star from the 1963-65 season. Substitutes will be Tom Nad- olowich, Bob Moroits, Art Wilson, George Gillander, and Tom de- smet.

Coaching Delta Sig will be Bob "The Bear" Castor who is also an assistant. He knows probably the best all-around fullback in the country as a great asset to the Delta Sig team. He is the creator of the code-ledge against "The Bears" for fullbacking in the future playing.

Both coaches will be present at the game and the gym should be full. It will be a fitting- kick-off for the upcoming NCAA and NIT tournaments of the season.

The members of both fraternities will fill the stands and the student body to attend the game is sure to be to a premium. The EXEC wishes to thank all those who voted for two final rounds and may be the best one (it usually does).
