Babson College.
A four year excursion into the depths of unreality.

A beautiful campus secluded from busy towns honking horns busy city life and the real world, Babson stands alone quite akin to a blind man searching for water on the Sahara Desert.

Babson College.
It is a small school with a tight student—faculty relationship. Only at Babson in beautiful country-like surroundings can you learn to dislike a professor right from the onset.

Lasell Spread in Time...

as Babson goes unnoticed

With liberal policies and liberal ideas only at Babson can you take part in a peace march and be branded a Communist.

A four year experience teaching all future businessmen the "tricks of the trade" so that they will feel at home when they take over their father's business the day after graduation.

Babson a co-ed school of Business Administration, with twelve girls and 300 boys. Only at Babson is a female attending dinner major provocation for a riot.

With grand ideas and a Master plan Babson promises new buildings years before you die of old age.

Break free from your chains. Learn the only life, the life of a businessman. All you need is a high-school diploma, proof that you are alive and three-thousand dollars a year.
Ladies and Gentlemen,

I believe that this paper can both serve a purpose for the Benson community as well as print and maintain reputation. There has been a large expression of discontent with the past issues of the paper. I agree with this discontent and though no-one was willing to write about it.

However, let’s review the situation. The facts are this: there are three people who produce your paper with the part time effort of a few volunteers. These people are Bob Link, probably the best of all, the third one, can’t do much writing or print really because it is enough of a miracle that they get the paper out at all. How would you like to add the hours from Wednesday, one p.m. to Thursday, seven a.m. to your pressing schedule? Yes, I know, busy. I know that by every Wednesday night, these three have to do what they do, so you complain about the paper, you have the bill with you.

I propose to help Peter, Ladd or Bob Link. I intend to give them a mess a staff to work with, and the needed organization and enthusiasm they deserve. I have talked to enough people to realize that we need a change in the paper. This change will be recognized, but remember the three men who kept the paper going because they deserve to have the final say. We will put out a paper for Benson, but it will still be a “liberated” paper.

I will invite any interested people to contact Peter, Ladd, Bob or myself, for further information about helping us.

I remind you that if every person you are a spectator there would be nothing to look at.

Getting It Together

by JOLITE SULCUMA

Girls in a business school are one additional proof of the world of today. Same without by request wet or dry. To the editor:

The Pall Weekend at Benson was a very accry success for those who attended. Many students did not drink much because the prices were not too bad. I would like to point out that the administration is, in fact, open to the suggestions of the students. Prices were lower in the bars present in the area. Socializing is fun, but it is inadvisable to get too drunk. It is important to learn about the social values of the school.

Agility is a social disease that affects everyone. At Benson, it has reached epidemic proportions. The increase in student body numbers has led to the creation of a new student group dedicated to combating this epidemic. The group, called the Agilists, is working to raise awareness among students and faculty about the dangers of agility and to promote healthy alternatives.

The group's founder, Mr. Benson, has published a weekly newspaper, The Agilist, to provide a platform for discussing the issue. The newspaper is available for free at the school and on the school's website.

Your support is crucial in assisting the Agilists in their mission. Please consider subscribing to The Agilist today. Together, we can make a difference and help create a healthier campus environment.
Drinking

On October 14, 1969 the Student Government Committee on Alcohol Consumption on Campus submitted a proposal to President Kriebel for the permission to consume alcoholic beverages at school sponsored functions, and for dormitory parties on a bring your own bottle basis.

The law firm Bingman, Dean, and Gold was retained by Student Government to review the legal implications of the proposal. The proposal was passed by the Administration. The main point in question concerned the schools legal position in the case of a minor becoming intoxicated at a school event and then causing physical damage either to property or person. In this instance the courts could rule that the school is liable on a third party basis as they (the school) are responsible for the activities of students at school sponsored functions.

The proposal was rejected for the above reasons involving the liability of the school. Other questions were raised concerning negligence, the local ordinances of the Town of Wellesley and the manner in which the alcohol would be handled.

At the present time the law firm retained by Student Government is contacting other schools in the area.

COMMUNITY THEATRE
Wellesley Hills
CE 5-0497
Fri, Sat Sun, at 6:30 & 8:00
Other Days, at 8:00
NOW ENO TUESDAY, NOV. 4
