Dedication

In recognition of the support and dedication the Trim staff has shown over the years, the Babson Players would like to dedicate this production to Norma Doucette and her fellow workers, whose smiles brighten our day.
NO CURTAIN. A small budget. A great lecture hall but not a great theatrical stage. No wings for prop storage. The list goes on....These are but a few of the obstacles that the Babson Players face performance after performance, semester after semester, year after year. Why, you then ask, should we bother with the hours of rehearsal, the bruises from missing the nail and hitting the thumb while constructing sets, the unrecognized work that goes on behind the scenes? Each member of the cast and crew has their own reason; a laugh from the crowd, applause, seeing their name in the program; and yes, the cast party. However, interwoven in all these reasons is one common bond—belonging to a hard-working, extremely dedicated group that strives to achieve a single purpose. A sense of unity is created, and from this unity excellence is bred.
