DEDICATION

This play has been dedicated to Earvin "Magic" Johnson, superstar guard for the L.A. Lakers and current member of the President's task force on AIDS. We salute his bravery and courage in making public his personal struggle with the HIV virus and hope that his efforts will make a difference for others.

It is important for everyone, especially our youth, to recognize the realities of the world we live in. Magic's contributions will increase awareness, and serve to catalyze national efforts to overcome the disease.

OUR MESSAGE

No curtain. A small budget. A great lecture hall but not a great theatrical stage. No wings for prop storage. The list goes on... These are but a few of the obstacles that the Babson Players face performance after performance, semester after semester, year after year. Why, you then ask, should we bother with the hours of rehearsal, the bruises from missing the nail and hitting the thumb while constructing the sets, the unrecognized work that goes on behind the scenes?

Each member of the cast and crew has their own reason; a laugh from the crowd, applause, seeing their name in the program; and yes, the cast party. However, interwoven in all these reasons is one common bond - belonging to a hard-working, extremely dedicated group that strives to achieve a single purpose. A sense of unity is created, and from this unity excellence is bred.
