

*The Future Method of Investing Money: Economic Facts for Corporations and Investors*

By Roger W. Babson

Published by Babson Statistical Organization, Boston, 1914

<http://babsc.iii.com/record=b1089168~S0>

This book emphasizes the major features of buying and selling, teaching about *when* to buy rather than *what* to buy in the market. Babson gives advice about financial cycles, the kinds of stocks to buy, and safe investment plans.
