

The Future of Nations: Prosperity, How It Must Come; Economic Facts for Business Men

By Roger W. Babson

Published by the Babson Statistical Organization, Inc., Boston, 1914

<http://babsc.iii.com/record=b1089327~S0>

Babson writes this book “for the benefit of the busy manufacturers, merchants, and investors who wish brief concrete statements of our economic troubles with suggestions for possible solutions” (from *Preface*). The book aims to offer peaceful solutions to suffering, allowing for healthy, practical competition among nations without war and the unnecessary, tragic sacrifice of lives.
