Stake Welcomes Freshman, Spend Time Fruitfully

A hearty welcome to all of you. We are glad to have you with us.

You are broadly instructed to each of you in a letter during the summer, our sole objective at Babson is to provide you with the opportunities to realize the best possible education for a career in business. Your whole college experience, both inside and outside of the classroom, is planned with this objective in mind.

Paul C. Stake, Jr.

Orientation Improved

The Orientation Program is once again under the direction of Dr. Charles B. Romant. The program will be designed to provide the New Student Sign-In at the Knights Inn. All events will take place between today the 16th and Monday the 21st.

The program promises to be better than last year according to Dr. Romant. The ratio of student advisers to new students is about ten to one. These Student Advisers, of which there are many and globe members with the leadership of Bob Vann, a senior who has completed the program, is the student chairman of the New Student Orientation Committee and Steve Wolfe in the chairman of the Map and Globe Committee.

On Friday the new students will have an opportunity to meet their faculty adviser that will be guided by the individual faculty adviser and the ratio of faculty advisers to new students is about eight to one. Rotman will coordinate these seminars, but for the most part the format will be set by the individual faculty advisers.

At 10 a.m. tomorrow Babson will be hand to the 29 transfer students who are new to Babson. All other transfer students will be handed out in their way as the new students.

Holmes Returns After 25 Yrs. To Babson

Mr. Bernard Holmes of West Hartford, Connecticut will be returning to the undergraduate program of Babson after five years in the business world. Mr. Holmes returned to Babson at a time when degrees were not as common as they are today. He will be returning for one term of residence, in which he will pursue a Bachelor’s degree. He plans to go on for a Master’s degree at Babson.

Mr. Holmes is the president of the faculty business, T.B. Holmes and Sons. In the fall he plans to attend to the business of his own and his brother. In the twenty-five years since he was last here at Babson, Mr. Holmes has had a great deal of experience. He has been trained to fly in the Civil Training Program at Camp X, Minnesota. He has taught flying in the Civil-Lea Planes in Cleveland, 1925, and has been going to night school at the University of Hartford. All these things he did while working in the family business.

Dr. Charles B. Romant

advocates. The faculty advisers will continue to serve as an adviser throughout each of his student’s three years at Babson.

The faculty adviser is one of the primary integrating factors between the high school and college. He plays a most integral part in assisting the social transition of the new student into the Boston college community and in helping meet some of the needs of the whole student while college.

The Map and Globe Committee consists of twelve carefully selected members of the Class of 66 ‘67 and will act as a service organization and will assist the Class of ’66 in the organization of their activities during orientation and throughout the academic year. This is a specific time during this orientation week before you are registered for the fall semester.

Remember, your adviser’s guidance may not be as useful as he is to you now. You may have the desire on your part to make this a successful and enjoyable experience at Babson.

The Administration of Babson College has jurisdiction over the faculty as evidence by your students are to be of the highest standard. It is not the job of the faculty to tell you that you have an enjoyable and rewarding experience. The faculty will not be required to do this.

Dr. Henry A. Kriebel

By Babson’s Pres. Kriebel

Welcome to Babson Institute! After all the problems of obtaining admission to college it may seem somewhat of an oystery to look at yourself at last having achieved that milestone. The idea is to let you know that the “Freshman Letdown” and I cannot caution you against it. While it is true that being admitted to college is a goal for many young men today, it must be remembered that the only possible goal for the incoming student must be set on the next Intermediate goal which is, in a broad sense, to obtain the maximum benefit from this opportunity which has been afforded you.

Dr. Charles B. Romant

To Learn How To Learn

Heresy in college is fascinating in its ability to generate its own way around a campus. Babson is no exception. This week the freshman will hear:

"I heard that this accounting teacher flunks at least fifteen guys a term." "Statistics is Im-possible." "Management Is a butt." "Bible is a ridiculous course." "In that the upperclassmen will not come near the campus until next week, it is difficult to believe that those rumors came from any accurate sources. Nevertheless, before this week-end is even underway, the incoming class will have an ostensibly clear and objective picture of the terror teachers, the exam courses and the rules that can be broken.

The fact of the entire matter is that Babson employs about forty qualified, demanding professors. "Are there courses that are difficult to pass?" The answer to both is unequivocally yes. But this should be paramount in the minds of a wary freshman.

"Your stay here at Babson will not and should not be a constant series of examinations. The grade you must pass, Grades will be a very specific indication of your academic achievements in class, including the work that goes on in the area of study with the same attitude, That is, that the grade will sort of, permanently record the work that has been done. The real value of the course will be manifested in the increase in ability of the whole person. A student, like a brawler, does not have to boast or show credentials for that which he has done or that which he has accomplished. This will show up in the man.

"Often the work will be demanded of the student on a daily basis, sometimes there will be none of this learning and return procedure so familiar in high school. "Oh, You mean a butt." Well, possibly that, but seems to be somewhat of a misnomer. Most often those courses which do not demand a daily regurgitation of material will present the most problems. In these cases, the hours which might be better spent in a free type of study are spent on the Lassalle campus or in the Framingham theater. The curiosity which is not kindled daily becomes dull and insurable.

Study is a habit and nothing more. If it falls short of this, the grades will fall in a similar pattern. You will of course be tested periodically on what you have assimilated as your own knowledge. Twain once said that he never let his education get in the way of his learning process. A Babson student should have the same attitude. Overall, concern with exams will actually greatly stunt your mental growth here at Babson, If the facilities are properly used by the students of the incoming class, as they will easily achieve their particular goal here at Babson. That goal is to learn how to learn, Possibly that sounds redundant, it is not. From the Babson environment and its environs you will take into business the quality and grasp the ability that you have learned to that which you will learn.

Student Development
It's Off And Running

Two years ago the Student Government started the first steps in making the new Student Union which is now underway. The site of the union is in the center of campus, a three-story building, located next to Mr. Stephens, Vice President of the Institute, the modified plans for the student union residence complex and the student union have all been completed by the end of the month. The mail room is already completed.

This fall with the increasing student population the need to eliminate some of the congestion will be solved. This individual study space will be available from the back of the union. This setup should eliminate the trash which so easily made its way to the open mail boxes of past years.

NEW MAIL ROOM IN STUDENT COMMON

The original goal for the Student Union was $80,000. To date, according to W. H. Leir, the fund drive has raised only $25,558.

"I am happy to say that we have already surpassed the $25,000 mark," Leir said. The students agreed with administration, although the goal is not reached, there is a small group of the Student Union can be developed. It was agreed to proceed first with the reading and lounge room, study bar, social hall, radio-television-Hi Fi rooms and placement office (part-time jobs) because there is a serious need for these facilities, especially to accommodate our non-resident, day students.

The first fraternity, Delta Sigma Pi came up with the quota amount of $5,000, so they will have a meeting room in the Student Center. Alphabeta Sigma is approaching the quota amount and should be able to raise it by the deadline. On Monday, March 22 we were the first to raise the deadline of May 31, 1965, but this has been extended indefinitely.

The whole area is to be done on a neutral motif, the cost of atmosphere is an all, so whatever we have identified, says Mr. Leir, "the cost of atmosphere costs money, and nautical atmosphere costs even more."

"The cost of nautical bric-a-brac has of course been forced upon the demands of hotels, motels, and restaurants in the area which are going in for such decor.

Mr. Stephens is attempting to give the students all the effects that they asked for, but the budget is out back a great deal. Of course with the present amount of about $80,000, Babson could have a makeshift. This type of atmosphere is a trifle down-home. This is not what it wants, and it not what is expected from the students place to give them. Through such techniques at better lighting and color courses he said that the proposed cost of lowering the amount of quality, ceiling, is that the materials are not being used properly with the desired decor. So instead of removing and replacing it he is seeking methods to make it fit. These and other techniques have been taken a decided cut of time and effect on Babson, He has been over the course of the summer, He has even consumed parts of his salary, to a great extent on this project. All that is now necessary to complete the atmosphere is a great deal of it, about $45,000. So let's write home to the folks and tell them of the dilemma.

LETTERBOX

EDITOR: I wish to inform you that the present condition of my bank account makes it imperative for me to send you a check in response to your request. My present financial condition is due to the effect of the Federal Laws, State Laws, County Laws, Incorporation Laws, Real Estate Laws, Securities, and other laws, and now a limited sales tax and increased income taxes, and when I am dead they expect an inheritance tax. In addition to these laws, I am requested and told fine design of the new law to do business and to organize the Enterprise fund of every farmer and every one of the unsuspecting public. Through various laws have been passed, and I am unable to do the things I requested and broke until I do not know what I am, where I am, or why I am.

These laws compel me to pay a merchants tax, amortized tax, excise tax, gasoline tax, inheritance tax, personal tax, personal tax, capital tax, excess tax, light tax, water tax, cigar tax, school tax, liquor tax, and now a limited sales tax and increased income taxes, and when I am dead they expect an inheritance tax. In addition to these laws, I am requested and told fine design of the new law to do business and to organize the Enterprise fund of every farmer and every one of the unsuspecting public. Through various laws have been passed, and I am unable to do the things I asked and broke until I do not know what I am, where I am, or why I am.

The Government has so governed my business that I do not know who owns it. I am surprised, expected, expected, unexpected, eaxamined, informed, required, necessitated and obligated until all I do know is that I am supposed to provide an inexhaustible supply of money for every farmer and every man, every one of the human race, and because I refuse to doate to all and then go out and beg, borrow and small sea in to give him, am assaulted, chased, discussed, boycotted, talked to, talked about, bad about, and robbed until I am just ruined. The only reason I am clinging to life at all is to see what the hell is coming next.
WINING
AND
DINING
By David Wisensate
Boston is generally recognized as one of the best dining cities in the
United States. The diversity of restaurant options, all of them
serving high-quality food, make it difficult for anyone to
choose the best places to eat. Here are some suggestions for
local favorites:

KREBEL- one actually tells you to stop, you may, without realizing it, run
beyond the bounds of good citizenship and good common sense in your
behavior. I'm sure that people will caution you, but in the final
analysis, the decisions about your contact at school are very much
your own and you will have to live with the consequences of your
actions.

I am sure that one of the things that has impressed upon you has been the
danger of gastrointestinal disease. This is a real danger. There are
many men who have admitted to college who never graduated, but
I wish to assure you that in our judgment each and every one of you
has the capacity to benefit from our program here. If this were not
so, we would not have granted you admittance to our program.
You may still prove yourself, but I am fully committed to the
effectiveness of the Student Cabinet. Our program is designed to
help you achieve your potential.

STUDENT COURT
The Student Court is one of the members of the Young Presidents' Association
addressed our student body and talked to them about the factors which led to his
achievement of the presidency of his firm at a relatively young age. He stated
that the time he went to work for the firm he wanted to position himself as
a president so badly that he could almost taste it, if you want to
grammar in his situation, so badly that you can almost taste it,
you will and nothing will stop you. One final word about you, Mr.
person sitting on the chair, and I use this phrase because with
you there is a person, not a statistic.

The size of the school and the way in which it is organized is such that
you should be able to feel a part of the entire school, not merely a
part of the student association, and this is a particular section.
It is quite true

WINING
AND
DINING
By David Wisconter

Boston is generally recognized as one of the best dining cities in the United States, so discrimination in selection of your restaurants can surely result in pleasurable dining. The many diverse first-class restaurants of this city offer opportunity for you to make your choice according to your mood, your food preferences, and the condition of your pocketbook. What I am going to do in the following issues is direct you to the choicest restaurants, the most fascinating atmospheres, and certainly some of the best dining experiences you could ever enjoy.

Ken's At Copley - Delicatessen extraordinary

This inexpensive, interesting, and extremely popular night-spot is fun for the frugal. The stirring decor entices you to enter a dreamland of blueberry blintzes, a palace of potato pancakes. If you strike the maitre d' s fancy, you are whisked past tables on the lower floor, up the spiral staircase to a dramatic balcony and dining area from which customers can see and be seen at their flattering best. A charming, but highly unforgettable waltzroon softly requests your order (and believe me, these girls are COLD). Within minutes generous portions of your favorite foods are before you, several of their reasonably priced delicacies are blintzes (95 cents), potato pancakes (99 cents) parsnui (many ways at many prices), and many other delicacies. Ken's is especially popular for late, late snacks. Excellent food at inexpensive prices.

549 Boylston Street
Copley Square
Hours: 7 a.m. - 10 p.m.

Public Spea

Mr. Venmon Scott would like to take this opportunity to encourage all freshmen to take the greatest possible advantage his Static Public Speaking course.

At one time the course was broken up into two separate courses: Static Public Speaking and Persuasion. These two classes are now combined into a single course.

The objectives of the course, according to Mr. Scott, are "to help the student lose the fear of himself rather than his fear of the audience." In attempting to "break the ice" first, Mr. Scott helps the student relax and develop a good rapport from the beginning. He says that speech is a subject they have been practicing all their lives, but now they try to polish the edges and the student more proficient in handling his thoughts verbally.

According to Mr. Scott, few have had experience in public speaking or in debate. Even those with experience will benefit from the organized forms in which the
Boston is a city of "Firm," "Ivories" and "Freedom.

The characteristic Boston Public Library was started (1873) by the Boston Improvement Association (1870), and the famous Boston Symphony Orchestra (1881). It was, too, that the first railroad (1829) was opened to the public, and the first subway (1885) was built in the city. This early work in public transport, a true masterpiece, is a clear indication of the city's commitment to progress and development.

The Boston Tea Party was another significant event in the city's history (1773), symbolizing the protest against British taxes and the beginning of the American Revolution. The Boston Tea Party is a popular tourist attraction in the city today, attracting thousands of visitors who come to learn about the history and significance of this event.

View From the Common

Central Artery/Mass Turnpike Navigation

The Common is a public park located in the heart of the city, providing a green oasis in the midst of the urban landscape. It is a popular spot for picnicking, walking, and enjoying the outdoors.

Central Artery/Mass Turnpike Navigation

The Central Artery/Mass Turnpike is a major highway that runs through the city, providing convenient access to the surrounding areas. It is a vital part of the city's transportation network and plays a crucial role in the movement of people and goods.

Boston, the city of "Ivories," "Freedom," and "Ivories," is truly a vibrant city with a rich history and a bright future. It is a city that invites you to explore, to learn, and to experience its unique culture and traditions.
Where the People Are . . .

Damp, Dark Depths of the City
THE EVE ON ART
by Bruce Water

- DEGAS IN TOWN

This coming school year I have the pleasure of introducing you to a new type of art into the E.V.C.E., and onto the Babson campus, I will be reporting on the art that is on display in and around Boston. This has taken me to a number of different presentation sources from the many sources of art here in the Hub area. I have written to 67 galleries, museums, libraries, and art associations trying to find out what there is to see around the city about nine months.

The biggest difficulty is the Babson student and his interest. Most of us are motivated towards business, so art and "culture" do not seem to be the greatest interest. This being the case, it would seem that my efforts are wasted, for do not believe so, if only every thing that I have done with the help of the better art shows in town we will be better off than we were before. This is why I am doing this work. If anyone is interested in taking art, I would be very happy to do so. Any interest, should be reached for enough for my task.

The month of September offers many varied and interesting shows and people. Special shows around several names like Edgar Degas, Hogarth, Hassam, Stillgeist, Picasso, O'Keeffe, Louis and more. The first two are the most famous and thus perhaps of primary interest.

The Museum of Fine Arts (479 Huntington Avenue) will have a display of the famous Edgar Degas in Japan. This is due to the end of September. Degas, a French painter, is best known for his painting of dancing women. He was very interesting show, Museum has the display open Tuesday 10:30 to 5:30, closed Mondays.

There will be a show entitled "Hogarth and Co." by P. M. Ponton Primer (800 Massachusetts Ave., Cambridge). The show is from the Neoclassical school (around 1825-1870). In England he portrays a "New Nation" in his paintings, the touch of satire. This too could be an interesting show. Ponton Primer is in Cambridge is the place.

ARTIST AT WORK

The art form of special interest will come on the weekend of the 25th and 26th. On Saturday the 25th there is a SideWalk Art Sale at the Cambridge Art Association. This should be an excellent opportunity for those of you who need something to hang on your walls. Prices are supposed to be low, and you just might discover a treasure. Give one a try, it could really be worth it. The show should be located around 185 Eliot St., Cambridge. The other event of interest is on Sunday the 25th at the DeCordova Museum, which is 45 miles from town. From 10 to 5 p.m., Forty new England artists will be on display (85 people) demonstrating how they work. ThirdChance, a group composed of artists, draftsmen, jewellers, the makers of things, will be among the fascinating works in art. I hope I will see you there.

Other September shows are as follows: Paperbridge Booksmith in Wellesley, a one-man show by Irving Amen. Boston Public Library has a carte-man show by Bert Coeyman, this will be in their Rare Art Museum. Brookline Library will have a watercolor show through October. On Saturday the 25th is the Cambridge Art Association also with a student show starting September 15th. Another interesting show is the DeCordova Museum.

MODERN ART

The Museum of Fine Arts has two additional good shows besides Mr. Degas. There is a group of American artists who are most influential in bringing modern art to the United States. This did in the late 19th century. Thus, there should be a good show and you could gain much insight into the development of modern art and it should be there. There is also an excellent show of photographs from the private collections of the cameraman, Alfred Stieglitz.

All work guaranteed, at reasonable prices.

Boston and Cambridge Offer Wide Variety in Folk Entertainment

Protest, country and western, city blues, Delta blues and even the Dylan sound can all be heard on any one of the coffee houses of the city.

This area has long been one of the major centers of folk music in the country. It is the pioneer of the coffee house movement. The Club 47 on Mt. Auburn St., Cambridge, is the place. The club still offers the best in diverse forms of folk expression, protest and fun. The club gave birth to the fame of Joan Baez and Simon and Garfunkel. Here, for the reasonable price of $1.00 one can tune to listen to both the local and the folk artists of the folk world.

One night's heavy sound of Sip James' "How the Shark Was" sharply contrasted on the following night by the light but unforgettable penetrating sound of Tom DiSanto's "Cats with dripping ears."

The Unicorn Coffee House on Congress Street in Boston caters more to the intellectual scene than any of the other folk spots; Josh White, Dave Van Ronk, Judy Roderick and Phil Ochs. As these singers are more renowned than those in other coffee houses, the cover charge may run as high as $2.50. This is a bit high, but much of the entertainment is well worth the price.

The King's Rock although quite far out on the North Shore often is worth the trip. The Rock is a barn type setting and attracts some of the finest folk performers. Tom Paxton singer and songwriter ('Ramblin Boy', 'What Did You Learn In School Today' etc.) and Tom Rush appear here frequently.

Symphony Hall, John Hancock Hall, and the Opera House all have auditoriums for Folk Concerts throughout the year. Though the coffee house effect is lost in these halls, a great number of people can watch the national folk figures, Mimi Grein, John, the Boston agent, arranges almost weekly engagements of national celebrities in one or more of these halls. These prices generally give a bit higher than the coffee houses but more often than not, there is more than one celebrity at each concert.

Orientation Crossword

ACROSS
1. W. Bahsen, founder of Bahsen Institute.
2. A freshman course dealing with sociology.
3. The name of the new dining hall at Bahsen which opened last year.
4. Last name of the President of Bahsen Institute.
5. This dormitory also houses classrooms and the science laboratory.
6. Name of the woman who is in charge of time part placement at Bahsen.
7. This building contains the registrar’s office.
8. This tourist attraction at Bahsen is open all day and lighted part of the night for visitors.
9. First word in the name of one of Bahsen’s sister schools.
10. One of the oldest buildings on the campus, this dorm can be found up past the gym.
11. Married as well as undergraduates live in this complex of houses.

FIVE NEW PROFS.
JOIN BAHSEN STAFF

The dean of faculty, Dr. Carter, announced the appointment of six new professors to the Bahsen Institute faculty. Of the new members three are full time, two are part time, and the sixth is a teaching fellow.

1. Jack S. Zincher, the new professor of Business History, will aid Mr. Forbes in the English department. He will teach British literature in section 1 and 2.
2. Mr. Zincher received his B.A. from the City College of New York and his M.A. from the New York University.
3. He is currently working on his doctoral thesis in the field of English. Mr. Zincher started his teaching career on the high school level. In September of 1961 he began teaching English at an assistant professor at Ohio State University. He then taught at Brooklyn College until this past June. He is married and is the father of two children.

Down
1. Professor of Psychology at Bahsen and professional psychologist.
2. Several of these areas provide space for students who drive.
3. First word in the name of the campus-level facilities organization here at Bahsen.
4. Building was name after Sir Isaac Newton and houses a reproduction of his study.
5. One of the dorms in the quadrangle. This contains the Forestry.

FRESHMAN EXPECTED
TO BOOST VARSITY SPORTS

by DAVID MOOR

The athletic department of Babson Institute extends greetings to all incoming athletes and announces that the 1958-66 class will bring many successful teams.

What does it take for a team to be successful? Basically, sportsmanship, enthusiasm, and team spirit are the essentials. Add to these a general school interest, and the college team will be on the winning side.

Babson has had some rough years in the past, however, the athletic department believes that with more interest and participation this could be one of Babson’s most winning years. It is hoped that the Freshmen will add the needed incentive to the overall spirit of Babson. It is further hoped that this spirit will lead the needed boost to give a winning year in every sport.

What does Babson have to offer you in the area of athletics? What facilities are available for interested students?

Peavey gymnasium is an excellent starting place, for it offers the student a wide range of activities in all forms of body-building and competition. Besides containing the very refreshing sixties swimming pool, the gym has a basketball court, a game room and a squash and handball court.

If ever you become disinterested in watching a varsity swimming meet or varsity basketball game there is always the pool room with its three pool tables and two ping-pong tables. Upstairs in the small gym consist all the apparatus known to gymnastics. Here you will find a trampoline, high bar, balance-beam, flying-rings, ropes and even a punching bag (provided some over-enthusiastic upperclassmen has not wrecked it).

There is also the indoor golfing nets for rainy days.

This summer the gym was entirely refurbished inside. Mr. Smith, Director of Athletics, hopes that the incoming students as well as the upperclassmen will treat the gym with the care that it deserves.

This simply means no shoes on the court, proper use of squash racquets and safe handling of all apparatus.

All athletic supplies are generally provided by the school, and therefore should be treated with respect. It is your gym so what it looks like and the fun it offers is up to you.

Surrounding the Peavey Gym there are two large fields which handle the various outdoor sports like softball, soccer and intramural football. The fields of the school are used for the time of the year by the community as well. The above are the campus facilities, but Babson is fortunate in that Wellesley Country Club is home ground for both Golf and Honeywell Courts in Wellesley for tennis.

As you can see, if Babson does not have a certain facility or field right on its own campus, it is readily accessible close by.

What are the major varsity sports at Babson? All the varsity sports are represented. Babson has a tremendous intramural program, with all the usual activities. As well as off campus take part in this program. Various teams are sponsored to compete during the year in the following sports: tennis, football, basketball, volleyball, swimming, ping-pong, squash, golf, bowling, and cross-country. The team at the end of the year with the most points receives a trophy which is displayed with pride in the gym.

The intramural athletic program not only provides exercise for the student, but it is also an excellent way for building school spirit among all the seniors.
