A Welcome From The President
BRIAN BARFEOFT
PRESIDENT OF BABSON COLLEGE
Welcome to Babson! You are entering one of the world’s preeminent schools for business education. Not only will you receive a first class education, you will also find that you’re now at a place where students come first and where opportunities await you on many fronts.

What does that mean? From your very first day, you’ll acquire and use skills that will prepare you to enter the business world, and to succeed in whatever you set out to do. These skills will be learned in business courses, but you’ll also find that your liberal arts courses will be valuable in both your professional and personal lives. We hope you’ll take advantage of the full range of course offerings while you’re on campus. Of course, don’t assume that your college experience is just in the classroom. We offer more—much more—and we hope you’ll take advantage of it! There are over 50 different student clubs and organizations on campus. So, try not to

MANNY MARTINEZ
SGA PRESIDENT
Welcome first year and transfer students to the Babson community! You have arrived at Babson College at a very exciting time in our history. In the coming weeks, Brian Barfouet will be inaugurated as our 11th President. Your student government association’s voice is becoming stronger and stronger and the best is yet to come.

First year and transfer students, now that you are here at Babson, become actively involved and participate. Join student organizations which complement your interests, and if there are none, SGA will help you create one. Attend club meetings, support your friends, and show Babson pride. The new soccer campo is on the upper fields looks great, and was built for the students’ enjoyment.

Utilize the many resources and offices on campus, whether they be academic or non-academic. Enjoy the many campus activities board events, which are events organized by students for the students. Take control of your social life, just like you soon will with your academics.

During orientation, make an effort to meet as many people as you can. Getting to know the students around you will be your classmates, roommates, the ones who will challenge you, and best of all, your friends. Attend as many events and seminars as you can, you can only learn from them. Go out and experience what the office of class deans has prepared for you!

To the rest of the student body, welcome back to what will be a semester to remember. I hope you all had a relaxing and fun summer. Over the summer, SGA worked with Babson administration to improve several things.

Roger’s Pub was given a facelift, a new manager, and it’s looking great. More good events for the pub are also on the agenda. There is now a Saturday shuttle service with Saturday night movie nights.

A Guide to Off-Campus Dining Opportunities

DJ SCHEPPER
CONSULTING EDITOR
Sometimes, you just don’t feel like eating at Trin. For some reason, you just don’t want a cafeteria to fill you up and you feel like something more, well, like food. The Babson/Wellesley area presents a number of options for students looking to taste something more gourmet.

Here are a few of the options that will be open to you for most of the next four years.

DOMINOS 223-9920
Open until 4 am on Thursdays, Fridays, and Saturdays, Dominos quickly becomes the late-night food-ordering haven for most Babson students. With a wide selection of the ever-essential cheap pizza commodity, Dominos caters to the needs of many.

The prices are low, the speed is reasonable, and the late-night delivery makes this the perfect choice for your regular eating options.

NICK’S PIZZA 223-8944
Nick’s offers a wide variety of foods with quick service. The pizza is not quite as good as Dominos, but the rest of the food is some of the best in the area. Nick’s delivers to Babson up until 11 PM, usually 7 days a week. They offer a menu with soups, and breads, calzones, pastas, and pizza, of course.

If you want a greasy food, such as mozzarella sticks and chicken strips, Nick’s provides wonderful options. The food, as a whole, beats Domino’s, but waits can often seem unbearable.

DRAGON CHEF 449-8480
The Dragon Chef provides some of the best and most affordable Chinese food in the area. It’s open in Needham everyday until 1:00 A.M. with a large variety and better than average food portions.

A lot of food at a small price has kept many going back. If you want a heavy dinner, try the Chocolate Bombs. It’s certain to drive everyone crazy.

VINNYS TESTAS 508-665-5787
One specializing in extremely large portions, Vinnys’s new focus is more on quality Italian food. Vinnys Testas has always had great Italian foods, but its portions are what have made it desirable.

A lot of food at a small price has kept many going back. If you want a heavy dinner, try the Chocolate Bombs. It’s certain to drive everyone crazy.

Vinnys’s is on Route 9 next to

to miss the Student Activities Carnival on Friday, September 6th at 2:30 on the Park Manor Quad. Every club and organization on campus will be there and they will be recruiting new members.
And don’t forget athletics. Babson has twenty-two var-
sity athletic teams that play more than 100 home games a year—and boast a home winning percentage of 70%! Also, check out our seven club and intramural sports, and stop into the Webster Center where you’ll find open gym hours and excellent facilities.
You’ll want to participate in a lot of activities, because the world of business is about people—people and campus clubs and organizations as well as ath-
etics are where you’ll get to meet and know many of your classmates from different backgrounds. I think you’ll find that this is time well spent: you’ll make lifelong friends while gaining experi-
ence that will be a real advantage when you graduate. My final thought to you is this: start today to familiar-
ize yourself with everything Babson has to offer. Don’t wait: explore the great oppor-
tunities you have on campus. Take advantage of all that’s available to you. Get to know faculty and staff; they are re-
sources for you if you need advice or support. Seek them out—they’re here to help. And if you want to start something new, you’ve come to the right place!
So, you’re here to learn and you’re here to enjoy the Babson experience. I look for-
ward to meeting you and your classmates on campus this fall. For returning students, I hope that you are ready for another year of challenges, accomplishment—and fun. I wish all of you much success in the coming year.

ies at a nearby movie theater. The shuttle will even provide transportation into Boston early during the day and at night. Sodeskox has also en-
sanced its selection of foods and beverages in Trim and Reynolds.
For this semester, social life is our main focus and we won’t give up. Last semester, with your help we were able to give this campus a new at-
titude. Remember the Roots concert, the Celtics and Bru-
ins’ games in Boston? It can only get better!
To the class of 2003, which I am proudly part of, this is our year to shine and leave our imprint on Babson’s his-
tory. Let’s unify, be responsible, and enjoy our year.
This semester will be one of change and excitement. Babson athletic teams are bound to have one of their best years ever. Also, very soon there will be a new SGA execu-
tive board. SGA asks that you all continue to contribute and enhance the Babson Col-
lege experience.
SGA is always open to your suggestions and ideas, and we sincerely look forward to them. Together with your active participation, we can accomplish a great deal more than we already have. Have a great fall semester!

Options Exist for Off-Campus Dining

to Chockey Cheese, about 10 minutes from campus.
White Mountain Creamery

is a great option for options as well.
White Mountain Creamery serves some of the best ice cream around, period. With a number of choices always freezing the-
creamery, the creamery provides a wide variety of frozen treats for their customers.
Its daily homemade treats in-
clude flavors like cookie dough, chocolate mousse, and pina colada. It is sure to satisfy your sweet tooth any time you are getting a craving for non-Trim, actual dairy, ice cream. White Mountain Creamery can be found on Washington Street (route 16) in Downtown

Wellsley.

Paparazzi 255-7474
An upscale Italian restaurant located just off route 16, Paparazzi provides excellent food, if you are willing to fork over a bit of money. The real paraphernalia is excellent. I would recommend saving new, I eat right when you really need a good meal and you do not care about spending the extra money. It is certainly worth every penny, but Domino’s can satis-
fy your tastes just as well.
Our parents are in town, Paparazzi is one of the better choices in the area, if you can’t get into the Blue Ginger.
Vidalia’s Truck Stop 4 3 1 - 0011
Good service and a quick sit-
down meal highlight this themed diner right on Washington Street in Wellsley.
The food is always good and the menu provides great variety. If you want quick and good service, at an affordable price, Vidalia’s is usually a reliable option.
You can get everything from a hamburger and a milkshake to pasta and a beer. These are just an example of some of the local options for food. By no means have I exhausted the list of possible choices. But as you go on, you’ll slowly discov-
er the places you like and you will keep going back for more. Trim certainly will not always provide the most delectable food, so be on the lookout for another food safe haven.

Make the Most of Everyday You Have While Here at Babson

DJ SCHEPEKER
CONSULTING EDITOR

You were probably once told that high school would be the best four years of your life. But then again, you have probably also been told that college is the best four years of your life as well. So that begs the question, which is more right? I guess in the end, between the two you enjoy eight of the best years of your life, but it can only be that way if you make the most of it.

Babson College presents each student with a wealth of opportunities. Over the next four years, you will be given every chance to succeed in every possible way.

You and/or many of your classmates will be able to strive in an athletic field. You can choose to become a student leader or mentor and help those who come after you as they enter Babson. Many of you will hold leadership positions with campus organizations. And all of you will strive academically to be the best you can be.

But how do you know if your time at Babson is truly fulfilling? The best way for you to be happy and you to succeed is to make the most of every minute at Babson. Don’t ever let a day go by where you are not truly enjoying yourself. I won’t lie to you, the workload here at Babson is tough. But every time you read something new or do some kind of work, you will be enriching yourself for the future.

Aside from work, however, don’t be afraid to get involved in the community. Babson is a great place to attend school because the people make it a great place. If you have a specific interest that Babson doesn’t yet cater to, start your own organization.

Last year, first year students help to organize an ultimate Frisbee club, an improv comedy troupe and a club ice hockey team. At Babson, nothing is out of your reach. Don’t be afraid to spend every minute satisfying yourself, just make sure that when you leave Babson with your degree in four years that you have made the most of every opportunity you’ve been given.

Sometimes you may be overburdened, but don’t be afraid to relax. Sometimes you need time to yourself, don’t be afraid to take it. Sometimes you need to get away from things, appease yourself at these times. But always remember the end goal.

The people here at Babson are dedicated to making sure you succeed in every way. They will provide you with every door that has been opened. But now you must walk through the door into a new phase in your life, and attempt to capitalize on the opportunities you have.

Follow the paths others have helped forge for you, they have helped to achieve the culture that has been created at Babson. These paths will help you to develop and help you to succeed, but also help you to enrich yourself.

We all hope that the rest of your four years here at Babson, I promise they will be the best four years of your life.

WeCare: Providing A Healthy Welcome

BRUCE TOFIAS
MD COLLEGE PHYSICIAN

The freshmen are coming! The freshmen are coming! This is Boston and those words resonate well in this city and its suburbs. It is not revolutionary...but almost. There is a little stir of excitement in all of us involved with college life. As freshmen, many of you are leaving home for the first time and are sure to face new and challenging things. We all hope this experience will be positive and growth enhancing, and with some attentiveness, that can be the case.

I am the college physician, and along with loving my job, I am crazy about college kids. You are energetic, inventive, and are fertile ground for the learning available in a college setting. Take some time when the initial stimulation of this new environment quiets down, and plan how you can safely grow at Babson. If you have not read it yet, consider reading “Making the Most of College” by Richard Light. It provides some terrific insights. Clearly, much of what you have come here for is “book learning.” Take this part seriously. Your professors genuinely want to see you succeed. With some efforts at time management and a commitment to academics you may be pleasantly surprised how nice accomplishments can feel.

Ah but academics is only a part of what college is about. The rest of our community offers a breadth of social non-academic life that screams to be entered. It is loaded with pleasures and pitfalls. Choose wisely.

At the health center in Hollister Hall we are intensely interested in this other side of the college. A caring staff of nurses, nurse practitioners, physician, health educator and receptionist are at your call (X 4287). We want to help you be happy, healthy, and secure with your transition.

Traditional health care is readily available, from looking after the common cold or sports injuries, to eating concerns and sexual health and education. If you want to know something about health and wellness we are committed to you. And if we cannot provide the resources, we should be able to find them for you within the Boston community!

So my simple opening message is that WeCare. This will be a familiar theme throughout the year because we do care about you. I hope you will come by the Health Center to meet some of us, even just for introductions. The freshmen are coming and the graduate students and upper classmen are as well, and we are glad.

Best of luck for a safe, happy, healthy and successful year.
A Senior's Perspective on Life at Babson as an Incoming Freshman

ANDREW BOYSEN
Lifestyle Editor

First of all, I would like to offer a hearty welcome to the incoming freshman class. Having already spent three full years at Babson, I am qualified to give you advice on how to succeed at Babson. Since I am sure nobody else will give you advice of this nature, be sure to read carefully.

My first bit of advice is time sensitive. When you arrive you received a student handbook with all the rules. Some of you have already read away already, and the rest of you were probably about to, but don't throw it out. Read it. If you know all the rules of the Babson College you will know exactly what you can get away with.

Another thing that can make your life at Babson College more successful is AOL Instant Messenger. This program will help you keep in touch with your friends on details of assignments, deal with your group members in PME, share files with friends, and plan parties on short notice.

There is a whole category of advice relating to eating at Babson College. You will begin to notice that shortly after visiting Trin dining hall you will have to visit the bathroom. This is called the Trin Cycle Time. There is nothing you can do about it, so don't worry.

If you want to slow this problem, eat healthy in Trin. Just because they have all that food doesn't mean you need to eat all that food. Last, but not least, never eat alone in Trin, because that is kind of weird.

My next bit of advice also relates to your personal health and safety. During some of your classes you may feel like jumping out of a second story window. I don't want to say that this is never worth doing, but be assured that the hospital visit, cast, and a new eye will cost a little over $1000 in 2000 dollars, and the school will require you to go to counseling to talk about it. When you compare the costs to the benefits, most of you will find that it is not worth jumping.

There are also a few things that can make your life at Babson College more enjoyable. First of all, do not spend all your time on campus. Go to plays, museums, and concerts in Boston so you do not feel like you are wasting away artistically. Also, go out to eat on a regular basis, or cook from time to time.

Several restaurants I can recommend are the Cheesecake Factory for birthdays, and Moet's for end of semester steak dinners.

Even if you don't go out, be sure to celebrate every birthday with a party and cake. It makes life a lot more enjoyable. Also, dress up for all costume and theme parties, and be sure to skate at the ice skating parties, or else you will not enjoy yourself as much as others. A party is what you make of it.

Also, take advantage of other opportunities for fun, such as big ball bowling, being a Casino night dealer, joining the Babson Players, watching if not joining the Babson Dance Ensemble, going on SGA sponsored events in Boston, listening to the Seth and Jeff show, grilling out in the grills provided outside of many of the dorms, and of course joining and reading the Babson Free Press.

Another thing that will make life at Babson College more fulfilling is getting to know your professors, and spending time with them outside of class. Most of them are great people, and your life will be better if you get to know them.

The same is true for the professionals at ITSD. They know their job, and treating them poorly is never a good idea. You will know if they don't appreciate your goodger if they hang you up on you, or roll their eyes when you walk into the room.

Be Sure to Expand Your Babson Resources

Whether they are your professors, classmates or classes, make sure you make most of them that you possibly can.

Expand every resource and opportunity that Babson offers you, because you will never have another chance like this in your lifetime.

Something that you must do during your time at Babson is take advantage of your professors. Make sure that you get to know your professors by meeting with them outside of class. How else will you know how to improve a paper, or what you can do to raise your test score, unless you ask?

You might even be surprised by a professor who shares similar interests with you, or one who can supply you with advice. Some of the best advice that I ever was given, to join the newspaper, was from a professor of mine.

Simply put, at Babson you must be prepared to work. An education at Babson goes hand in hand with a fair deal of work, so step up to the task. If you want good grades, you are going to have to work hard to earn them, and don't forget that.

Make the most out of your classes, because you will be surprised how much your newfound business expertise may help you. By the time you finish your sophomore year, you will be able to have in depth business conversations with people, which will really help you when applying to internships and jobs.

A key to success at Babson is class participation. Participating in your classes will not only show professors your interest, and boost your class participation grade, but also help you absorb more material.

Make sure that you also take advantage of the diversity on campus. There are so many people from different cultures here at Babson, they are all eager to time to get to know them.

Something that everyone will keep hearing is the importance of joining clubs. You can learn a great deal, and meet people with whom you are compatible. Even better, you could spend your time well, instead of watching television or getting off.

Whatever you do during your years at Babson, do not believe any rumors that you hear about school. Make up your mind, form your own opinions and experience things for yourself.

Remember, these four years open up a world to you. Expand your horizons.

Do you ever wonder if there is a God?

Do you want to meet fellow students on campus?

Do you want to develop a relationship with God?

If you are looking for a place to find answers to these questions, join us for the first meeting of Babson Christian Fellowship.
