Babson Globe disaster causes heavy damage

Disaster struck the Babson campus Wednesday evening when the Globe stop Coleman Hill fell from its axis, rolled down the hill and demolished McCullough A tower.

Following the destruction of the dormitory, the Globe, and gaining momentum, crushed several cars in the Hollister lot and came to a stop.

According to Babson Police an ax was found at the base of the axle. The ax was taken to the crime lab located in the rear of the security shack. After a thorough dusting for fingerprints, Sgt. Ray Reynolds told the Free Press that either the assailant further wore gloves, or he was simply unable to find them.

McCullough A Tower which houses 36 students has been written off as an unexpected disaster. The students displaced by the disaster will be temporarily housed in tents on the soccer field said the Office of Student Housing.

One displaced resident, "If the Globe hadn’t destroyed the dorm, it would have fallen down anyways. The cracks in the walls have been there for some time.”

The Babson sugarly speculate that who ever did this desecratory deed must have wanted revenge from the school for some prior run in. A list of enemies of the college is now being compiled by the investigation squad, consisting of Officer Ray Reynolds.

It has been learned that so far several people are on the list. Mentioned was Teryl Braly, former student owner of the on campus vending business. His contract was revoked when he failed to live up to certain stipulations. Nothing has been heard from Braly since, but it is known that Babson isn’t in his good graces.

Also on the list was Wayne Neal who was an associate of Braly while operating at Babson.

The three fraternities on campus are also being considered. It has not been ruled out that this may have been a "plunge project" said Reynolds, "the Globe or Roger’s bell as some dormant individuals call it, may have been chopped down by some intoxicated students in the name of their fraternity.

With the Globe now sitting in the middle of the Hollister lot the administration is unsure how to deal with the problem. According to the Office of Student Activities a questionnaire will be given to each student. The survey will ask students whether they wish to keep the Globe in its landing spot. Fortunately the Globe landed right side up making this possible; b) how far away to a junk yard; c) reinstall it atop of the hill; or d) forget about it. Once the survey has been tabulated the office will not make the results known.

So far for now the Globe sits in the lot with a 24 hour security guard. Said Ray Reynolds who was guarding the Globe last evening, "you can’t be too careful with it, it may start rolling again if some one just pushes it.

Armed with Macs, Reynolds believes he will be able to deal with the situation. The Globe has been ticketed 44 times by security for parking illegally.

Babson police to star in campus TV role

A new police dramatization series entitled "Cushman 54, Where are you?" will air on network television this fall, according to Babson Police Chief Robert Drapeau.

The series will co-star Lieutenant Don Park, and myself," said the Chief, "Officers Reynolds, Cheatham, Lewis, Lucid, Paleado and three other department personnel, as well as various members of the Babson community in different spot roles.

The show will be set on the Babson campus, and will show the day to day rigorous routine a college police department faces.

"Basically," said Drapeau, "We’re aiming to show the people of the nation what a college police depart ment is like. We’ve all been mandated departments portrayed on TV but now we want to show how a college force operates.

The idea of a T.V. show centered around the Babson Police Department was first mentioned to Drapeau last year.

It was Babson Public Relations Director Rick Poznai’s idea. He contacted network heads in New York and the rest is history.

"I had no problem selling the series," said Poznai, "it was a real cliche, almost as easy as Beaver Day.

Filing will begin as soon as casting, and other preparations are completed. "We’ll be using the Babson Police as well as Babson students, administrat ion, faculty and staff," said Poznai.

Chief Drapeau and Lieutenant Park will play undercover detectives with the rest of the department will be uniformed officers.

"Don’t and I are breaking out on Sunday because we’re looking forward to this," said the chief.

Tucker–Allman Brothers concert creates uproar

A mistake has embarrassingly led to the scheduling of the Marshall Tucker Allman Brothers concert for the same weekend reserved for Founders Day and Parents Weekend.

"We had no idea anything else was scheduled for that weekend when we agreed to it and now we’re in it for the good," said Social Committee Chairman Gary Lee.

As the weekend events grow in number the question has been raised by many in the community that one of the events should be cancelled.

One student, Bill Shannon has started a petition aimed at cancelling Founder’s Day in order to free up the schedule. Said Shannon, "I don’t possibly see how I can really get into the music and still be the son my parents expect to see that weekend.

At the time of publication he had already collected 800 signatures.

In other student government business the issue of smoking reared its head for the 14th consecutive week.

To smoke or not to smoke remains on of the more hotly contested issues while debating, the lines are clearly drawn the key smokers, approximately half of the representatives fill the room with exhaust.

Said one smoker: "I’d rather fight than switch," Vincent Stattman moved that a committee be formed to study the issue. He was later named chairman, foreman and secretary of the one man committee.

Debra Amidon, Dean of Housing, told the representatives that three Woodland Hill dorms would be converted to fraternity and sorority houses at the end of the year. The decision was a result of housing committee meetings held throughout the past semester. We’re really quite excited about the implications the move will have for the fraternities and sororities on the campus.

Because of scheduling difficulties the location for student government meetings will again have to be changed. The following suggestions were aired by the representatives.

Prices were higher today...
Dispatch the Pineapple Press Cushman, Dano

But thanks to all those dollars, and cents in the former Babson account, it was easily affordable.

And I might add, that the Free Press is now history. We’ve all withdrawn from school and are now headed towards the University of Hawaii.

We’re planning an overthow of the school’s newspaper, the Pineapple Press. We’ll use the former Free Press funds to help us along. Wish us luck!

Anyone wishing to subscribe to the Pineapple Press should write our circulation manager, Steve Mapare, Hawaii Five-O.

Should you call us at our toll free number, don’t be alarmed if you hear some frantic “Book him!” on the other end. He gets his other role confused.

Aloha!

The Flaming Dumpster

The Dumpster Dilly of the Day goes to all you Bozos and Butchly boys out there in Brandon.

The Flash to Swamp Breath: If you don’t start using Listerine I’m gonna lace your onions on your toothbrush.

The Billboard survey shows that Whattamattax L is the largest recycler of B.S. in the entire nation.

The Babson knife-throwing club is looking for volunteers.

The qualifications include bad eyesight, no fear of blood (especially your own) and the ability to grip and throw a dart.

There once was a girl named Lorretta Who went over to Aspen to play.

Along came a spider

She didn’t understand her.

And she blew the poor bastard away.

What goes gobble, gobble, cluck, cluck and flaps when extinct?

Babson students raise stink following bean supper at Trim Inn

Wednesday's touristean Bean Supper was a tremendous success, according to the Campus Manager and Sigma Papa of Trim Dining Hall.

"I've never heard so many people air such positive opinions," said Metzler. "Absolutely no one held their views back."

The bean supper was held, after Message was received of serving another bean product, due to the rain causes.

"The coffee was getting too expensive," said April. "We decided to give the students another bean kind of bean to make up for this," he said. "I figured it would be a success, and apparently it was."

The Bean Supping swimming team and Basketball teams were both victorious, over Wednesday and according to both coaches, the bean supper might have been the reason why.

"Everyone said they had never had such a bean like, such delicious beans," said basketball coach Bob Hardtwell. "They were remark- ability low, truly outstanding."

"Most of the players were forced to shoot down to the basket, said basketball coach Bill O'Neal. "They were jumping high."

Swim team action

Head nurse Nelle Bishop at the infirmary reported that all beds were occupied on Monday evening.

"There were a few cases of intesti- nal disorder, but most of the students just wanted to sleep a whole lot," she said, "just to get away from their roommates."

According to Metzler, the possi- bility of further bean suppers remains open.

The Lively Farts

Flatulence contest to be held at Trim Inn... pre-contest dinner to feature Great Northern Beans. Anyone interested in participating is urged to finance down with your floats and register with Dick Meisner. Entries must be in no later than 3:00 p.m. E.E.F. April 1, 1977. (Roasts will be provided at the door)

An International Jokes Night will be sponsored by the BSOF Friday night, April 1, at Knight Auditorium. Any sick, ethnic humor or otherwise is welcome so bring in all those dirty stories you've been saving and let's hear them. Prizes will be awarded for the best jokes in each of the nine categories. Awards to be made by Dr. J. Shuman.

The Babsonian Playwrights will be putting on yet another play this spring to complete this season's performances. Hemorrhog Haives is a play about a sensitive, controversial issue in Princeton City. The city is built around an industrial Sandpapering Company whose powerful directors have controlled the tissue market and forced the citizens to use Wipe-Outs. "A subject which really touches home," said the critic of The Local.

Friday, the first of April has been designated as Reggy Ann and Andy Day, for no reason in particular according to publicity director B.S. At 7:30 breakfast will be served to be immediately followed by presidential procla- mations on the virtues of not having rainings. There will be a tour up Bay Hill Drive culminating at the Globe where Babson's famous sculpture will be unveiled by the dolls and photographed for posterity and the Pats Wall of Fame.

Car 54

Continued from Page One

Officer Luppo will star as traffic control Engineer while Ray Reynolds will head the body of the vice squad.

"I'm counting the days until filming," said Reynolds, "I'm really enthralled."

Drought will be in charge of Diplomatic affairs on the program, handling major campus programs, and functions.

"I'll be in Cushman 54 leading forum speakers and mixer per- formers in motordrome style, and will be driving the President to the concert," said Reynolds. "As well, as depositing Bill Cookhill in a bank."

Lieuatant Park will star as head of student affairs security.

"I'll handle crowd control at athletic events and mixers," he said.

Filming will take place at various locations in the upcoming year, and many of the segments being shot during the normal "work course" of events, according to Puznak.

"Everyone should just act normal," he said, "just pass along as usual."

The series will also go out in the past history of the Babson force, present- ing memorable events such as the burned student takeover of the president's office, the handling of sexual events, and the non- mortal immolation of male to the officers.

"We'll have to practice for some of these to create the right atmo- sphere," said park.

Anyone interested in trying out for a role in the president's office takes a penchant to encourage growing their hair, practice singing love and peace, and in general act like one of those hippie-types.

Unlike other police series, "Cush- man 54 Where are you" will present real names. No names will be changed to protect the innocent, for in this case none is innocent.

So brush your teeth, comb your hair and smile you're going to be a star. Right here on the Babson campus.

This is a recent Babson grad trying to commit suicide by unscrewing his head.

Concert

Theatres, many fine shows are being offered. Our current favorites include "The Man," a dramatic project by Logan and Saber, "The Man Who Wanted to Know" and "The Parent Trap" of the Smiths.

A heist action romance over the current, there are many, many, currently living on campus. One student representative asked a vic- tim of the illness where he was at, both have been burned down. The parent replied, "I forgot." A committee was formed to find the person's car.

One representative proposed that all representatives follow Parliament- ary rules of order during government meetings or be shot at sunrise. The committee was formed to look into the possibility of purchasing buzzas- tock.

A vote was taken on a proposa, that representatives could no longer vote to abstain on crucial decisions. The vote on the issue was 1-yes, 2-no, and 2-3 abstentions.

The Social Disease Committee an- nounced that a concert scheduled for next Saturday has been cancelled.

2000 Student Union, 3rd floor, at 8:00 p.m.

A new program called "The Man"

This program will be the first of a new series of concerts that will be held at Babson. The series will be held on the third floor of the Student Union and will feature a variety of musical acts. The concerts will be open to all students and will be a great opportunity to enjoy some live music and to relax with friends. The first concert is scheduled for next Saturday, so mark your calendars and don't miss out on this exciting new event at Babson! For more information, please contact the Student Union Office. Thank you for your support and we look forward to seeing you at the concert!
Babson must quit N.C.A.A.

The school as well as the nation was shocked to hear yesterday that Babson must stop competing in the N.C.A.A. Division Three league in all sports. Athletic Director Bubba Olson made the announcement before a national press conference.

Babson has been in the Division Three competition level for the last 30 years but has only gained national recognition over the last ten when they have won every N.C.A.A. National Championship in all major sports.

For that very reason the N.C.A.A. has had the school under tight surveillance for the last three years. In closing scrutinizing covert operation of the N.C.A.A. has agents of the F.B.I. and the F.B.I. on campus posing as student athletes. However A.D. Olson has always managed to keep an agent from a student when all those agents put straight A’s on their accounting and finance tests.

Up to this point many people believe that the secret to Babson’s success is the fact that Olson has had a Salem Witch put heads on the teams that Babson plays.

Others believe that Olson has purposely had the opposition’s uniforms destroyed so that they either forfeit the games or be played in the mud. All I can say to that is we have all seen what can happen to players when they play hockey or baseball without any protection.

Despite all the proof mentioned above all Mr. Olson had to say is that he has “no knowledge of any of these actions being done by any Babson personnel.”

Unfortunately for Coach Olson and fortunately for the taxpayers of this country the government agencies found a weak link in Olson’s operational system.

Three weeks ago the head of the Babson B Club, John “Radar” Rogel was kidnapped by the Student Government officers. Radar after being told that he could not go to the bathroom, or have dinner, or watch the television, or become a C.P.A. without having the United States Government was silent for three weeks. Unfortunately he had a small bladder and he lacked the information out.

The secret of all those successful seasons was not the witch or the sabotage, although they played a considerable role, but an innocent looking “salt” tablet created in the dark laboratory of “Boots” Rybolt.

Harmlessly looking this tablet contained several secret ingredients such as N2O, H2SO4, N02, NO, NO3, NO2 and a little speed that made the players play “out of their minds,” and left no trace in the human blood system.

Enjoy everyday medical officials took blood samples they could not find any trace of drugs. Rybolt likes to make it known that he will market the secret of this amazing test for a “Modest Price.”

The last anyone has seen of Olson he was being taken away by several people in white coats and mufflers he was “innocent.” In retrospective I have to say that Olson was a great A.D. and his favorite saying will be on the lips of us all for years to come, “It does not matter how you do it as long as you win.”

What if Dana Hall said NO?

Picture Trim

Dina Hall as a residence hall, unbelievable you say! Not if Dana Hall told Babson to stick it. Eight Babson students presently occupy luxurious Dana Hall facilities.

Move them on campus and imagine the utter chaos created by the situation. Eighty screaming people at the door of Student Housing make the job tough to take. With this potential powder key no wonder the Dean of Housing is never as old as Dean Paul C. Staaak. Jr.

Babson is a college that practices conservative management, to the max. Certainly Dana Hall housing is the cheapest alternative. Investment in bricks and mortar may not bring returns in the future the Administration believes. But don’t they also tell us that Babson is a college of the future.

In the future it is unacceptable to house your students on the roofs of Canfield and McCullough. For the college to succeed, it must produce well rounded students with pride. That doesn’t come from a five hour day and a bag lunch.

To deny students of housing on campus is to deny them of a vital part of their education they pay for.

As Richard M. Nixon said we call for an immediate withdrawal of all Babson students from the Dana hall campus. It’s the best for both parties involved.
